These financial statements are the responsibility of the Plan's administrator.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investments and the information as summarized in Note 6, which was certified by Principal Life Insurance Company, the Trustee of the Plan, except for comparing the information with the related information included in the 2009 financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Principal Life Insurance Company as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the Trustee is complete and accurate.

1. DESCRIPTION OF PLAN

The following description of the Corporation's 401(k) Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General -

The Plan is a retirement plan covering all eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -

The Corporation contributes an amount equal to 50% of employee contributions to a maximum of six percent of employee compensation. Employees may contribute up to 100% of total compensation to a maximum of $16,500 for 2009 and $15,500 for 2008. Additionally, the Plan allows for "catch up" contributions of $5,500 for 2009 and $5,000 for 2008, for participants age 50 or older.

Participant accounts -

Each participant's account is credited with the participant's contribution, the Corporation's contribution, and plan earnings according to participant's instructions. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting -

Vesting in participants' accounts is based on years of continuous service as defined by the Plan agreement. Participants' contributions are vested immediately. A participant is 100% vested after five years of credited service as follows:

Years of Service	Percent of Nonforfeitable Interest
2	25%
3	50%
4	75%
5	100%

Payment of benefits -

On termination of service, a participant may elect to receive either a lump sum amount in cash or in property, equal to the value of his or her account or payments in monthly, quarterly, semi-annual, or annual cash installments, over a period to be determined at the sole discretion of the administrator and in installments as nearly equal as practical.

2. SUMMARY OF ACCOUNTING POLICIES

Recently issued accounting standards -

In June 2009, the Financial Accounting Standards Board (FASB) issued FASB ASC 105, *Generally Accepted Accounting Principles*, which establishes the FASB Accounting Standards Codification as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Plan has updated references to GAAP in its financial statements issued for the year ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Plan's financial position or results of operations.

Method of accounting -

The financial statements are prepared on the accrual basis of accounting and in accordance with FASB ASC 962, *Plan Accounting Defined Contribution Pension Plans*.

Use of estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair value measurements -

The Plan adopted the provisions of FASB ASC 820, *Fair Value Measurements and Disclosures*. FASB ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs (assumptions that market participants would use in pricing assets and liabilities, including assumptions about risk) used to measure fair value, and enhances disclosure requirements for fair value measurements. The Plan accounts for a significant portion of its financial instruments at fair value or considers fair value in their measurement.

Participants' loans -

Any Plan participant may apply for a loan from the Plan. There is a limitation on the loan amount that will be allowed. Participant loans may not exceed the lesser of 50% of the vested account balance benefit during the prior twelve-month period or $50,000. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participants account and bear interest at the current prime rate plus 2%.

Administrative expenses -

Administrative expenses of the Plan are for service fees paid to Principal Life Insurance Company.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

4. INCOME TAX STATUS

The Internal Revenue Service has determined that the Plan is qualified under Section 401(a) of the Internal Revenue Code and the related trust to be exempt from Federal income taxes under Section 501(a).

The Plan obtained its latest determination letter on July 23, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

5. VALUATION OF ASSETS

Investments are stated at readily determinable fair values. Certain plan assets are invested in pooled accounts. Under the pooled investment concept, the investment advisors account for the Plan's share of the total portfolio on a unit basis and are the custodians of the investments. The net appreciation in fair value of investments has been reported as the change between the current market value and the prior year's market value and investment income or loss. The Common Collective Trust (Stable Value Fund) is reported at net asset value (NAV) declared daily. The Stable Value Fund is presented at contract value in the supplemental schedule.

Participants' loans are valued at outstanding loan value which approximates fair value.

6. TRUSTEE'S CERTIFICATION

Principal Life Insurance Company, the Plan Trustee for 2009 and 2008, respectively, issued a Trustee Letter and Certification Statement certifying the Summary of Net Trust Assets, Summary of Fund Operations and Individual Participant Valuations are complete and accurate.

7. FORFEITURES

Forfeitures resulting from terminated, non-vested participants, are retained by the Corporation and used to offset future employer contributions. Forfeitures of $32,521 and $31,120 were credited for the years ending December 31, 2009 and 2008, respectively.

8. INVESTMENTS

Investments that represent five percent or more of net assets available for benefits at December 31, 2009 and 2008 are identified below. Investments are stated at fair values.

	2009	2008
Principal Bond and Mortgage Separate Account	$ 703,231	$ 514,415
Principal Large Cap Stock Index Separate Account	$ 801,578	$ 512,183
Principal Lifetime 2020 Separate Account	$ 815,500	$ -
Principal Lifetime 2030 Separate Account	$ 1,007,639	$ 408,260
Principal Lifetime 2040 Separate Account	$ 725,035	$ -
Goldman Sachs/ LA Capital Management Ptr Mid-Cap Value Sep Account	$ -	$ 408,333
Principal U.S. Property Sep Account	$ -	$ 669,470
Fidelity International Separate I Account	$ 588,451	$ 433,999
Principal International Small Co Separate Account	$ 759,594	$ 507,502
Morley Financial Services, Inc. Stable Value Fund	$ 1,378,183	$ 1,387,472
ARK Asset Management/ LA Capital Management Ptr Small Cap Value II Separate Account	$ 628,263	$ 491,362

During 2009 and 2008, the Plan's instruments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value by $1,651,387 and ($3,206,954), respectively, as follows:

	2009	2008
Pooled Separate Accounts	$ 1,621,607	$ (3,252,860)
Common/Collective Trusts (Stable Value Fund)	29,780	45,906
TOTAL INVESTMENT INCOME (LOSS)	**$ 1,651,387**	**$ (3,206,954)**

9. STABLE VALUE FUND

The Plan maintains an investment in a Stable Value Fund with Morley Financial Services. Morley's Stable Value Fund (the "Fund") is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives.

The Fund consists of a diversified portfolio of high-quality stable value investment contracts issued by life insurance companies, banks and other financial institutions. The principal value of these assets is intended to remain stable regardless of stock and bond market fluctuations.

9. STABLE VALUE FUND (Continued)

The income return on the Fund is a blend of all the rates of the various investments purchased by the Fund. Income is accrued daily and reinvested in the Fund. This accrual of income is reflected in the Fund's unit price which is priced daily and is not held constant.

The Fund's total return and yield fluctuate monthly as a result of numerous factors, such as cash flow, interest payments and maturity of existing contracts. Past performance is not necessarily an indicator of future results.

The Fund is a tax-exempt collective investment fund. Like mutual funds, this Fund declares its Unit Price (or NAV-Net Asset Value) daily. However, unlike mutual funds, the Fund does not declare or pay out dividends; income earned on the assets is reinvested in the Fund. Although the principal value of the investments is intended to remain stable, the Fund's NAV has typically increased every day due to the accrual and reinvestment of interest on the investments. Due to regulatory restrictions, the Fund does not have a ticker symbol and the NAV is not published in daily periodicals.

The earnings on the Fund were 2.06% and 3.75% for 2009 and 2008, respectively.

10. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company. Principal Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

11. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. FAIR VALUE MEARSUREMENTS

In accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

12. FAIR VALUE MEARSUREMENTS (Continued)

Investments recorded in the Statements of Net Assets Available for Plan Benefits are categorized based on the inputs to valuation techniques as follows:

Level 1. These are investments where values are based on unadjusted quoted prices for identical assets in an active market the Plan has the ability to access.

Level 2. These are investments where values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full-term of the investments.

Level 3. These are investments where values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about assumptions market participants would use in pricing the investments. These investments include non-readily marketable securities that do not have an active market.

Financial assets recorded in the Statements of Net Assets Available for Plan Benefits are categorized based on the inputs to the valuation technique as follows for the years ended December 31, 2009 and 2008:

	Level 1	Level 2	Level 3	Total December 31, 2009
