Independent Auditors' Report

To the Trustees of
Bonita Packing Co./Betteravia Farms
New Comparability Profit Sharing 401(K) Plan

Report on the Financial Statements

We were engaged to audit the financial statements of Bonita Packing Co./Betteravia Farms New Comparability Profit Sharing 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules And Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Fidelity Management Trust Company, the trustee of the plan as of December 31, 2014, and John Hancock Life Insurance Company (USA), the custodian of the plan as of December 31, 2013, except for comparing information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions for the year ended December 31, 2014. The plan administrator has obtained certifications from the trustees as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held for investment as of or for the year ended December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of the Plan

The following description of the Bonita Packing Co./Betteravia Farms 401(k) and Profit Sharing Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions. This plan is available to employees of the related companies of Bonita Packing Co., Betteravia Farms, LLC, Boni Fresh Readi-Cut Vegetables, LLC, Betteravia Holdings, LLC and Oceano Farming Company.

General

The plan is a defined contribution plan covering all employees of the companies who have one year of service and are eighteen or older. It is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The effective date of the plan was July 1, 1998.

The plan was restated on January 1, 2010 to meet the requirements of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), the Job Creation and Worker Assistance Act of 2002 (JCWAA), the Sarbanes-Oxley Act of 2002 (SOA), the 2007 Interim Amendment to adopt the required changes from the 2006 Cumulative List of Changes in Plan Qualification Requirements as modified by Revenue Procedure 2007-44, the 2009 Interim Amendment to adopt certain provisions of the Pension Protection Act of 2006 (PPA '06), the Heroes Earnings Assistance and Relief Act of 2008, the Emergency Economic Stabilization Act of 2008 (EESA) and the Workers, Retiree, and Employer Recovery Act of 2008 (WRERA).

Effective December 15, 2014 the plan merged with the Bonita Packing Co/Betteravia Farms 401(k) Union Plan.

Effective December 15, 2014 the plan changed its custodian from John Hancock Life Insurance Company to Fidelity Management Trust Company (Fidelity). Effective the same date, the plan changed its third party administrator to Fidelity.

The plan converted to Fidelity's Basic Plan Document No. 17 and its Adoption Agreement effective December 15, 2014.

All assets were held at Fidelity at December 31, 2014. The money market balance includes $14,975,422 of assets not yet allocated to participant directed investments at year end due to the conversion.

Contributions

Each year, the company will determine the amount of profit sharing contribution, if any, that will be contributed to the plan. This contribution is discretionary and will be made at the option of the Board of Directors. The profit sharing contribution for the year ended December 31, 2014 was $1,574,353.

Each year, participants may contribute a percentage of pretax annual compensation, as defined by the plan, up to limits specified by the Internal Revenue Service.

The company matches 25% of employee contributions up to 4% of compensation.

Participants direct the investment of their contributions into various investment options offered by the plan.

Participant Accounts

Each participant's account is credited with the participant's allocation of (a) the employee's 401(k) deferral, (b) the companies' 401(k) matching contribution, (c) the companies' discretionary profit sharing contribution, and (d) plan earnings and losses.

Vesting

Participants are immediately vested in their elective contributions plus earnings thereon. Employer contributions and the earnings vest at the rate of 0% for the first year, 20% for the second year, 40% for the third year, 60% for the fourth year, 80% for the fifth year and 100% after 6 years of credited service, or upon early or normal retirement age.

Notes Receivable from Participants

Participants in the Plan may borrow up to 50% of their vested account balance with a minimum of $500 and a maximum of $50,000. Loan transactions are treated as transfers between the investment fund and the loan fund. Monthly repayments are automatically deducted from the participant's wages. Loan terms range from one to five years, or greater than five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear an interest rate of 5.25% which is commensurate with local prevailing rates as determined by the plan administrator. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the vested value of the participant's account or installments under a systematic withdrawal plan.

Death Benefits and Disability

Upon the death or disability of the participant before retirement or termination of employment, the current balance of such participant's individual account becomes fully vested and will be paid to his designated beneficiary either in a lump sum or in installment payments, as chosen by the beneficiary.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $55,760 and $42,061, respectively. These accounts can be used to reduce future employer contributions. The amount forfeited from unvested money totaled $41,824 for the year ended December 31, 2014.

Note 2 – Summary of Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 -- Summary of significant Accounting Policies (continued)

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America. In accordance with generally accepted accounting principles, investment contracts held by defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive in a transaction under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investment bought and sold as well as held during the year.

Date of Management's Review

Subsequent events were evaluated through October 6, 2015 which is the date the financial statements were available to be issued. No events have occurred which would have a material effect on the financial statements of the Plan as of that date.

Note 3 – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Note 3 -- Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology may include: quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contracts - Valued at fair value by discounting the related cash flows based on Investment current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

December 31, 2014	Level 1	Level 2	Level 3	Total

	$ 20,430,274		$ 284,552	$ 20,714,826

The conversion to a new custodian resulted in the transfer out of Level 3 investments. The following table sets forth a summary of the changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2014 and 2013:

	Guaranteed Investment Contract 2014	2013
Balance, beginning of year	$ 284,552	$ 266,377
Unrealized gain (loss)	(1,741)	139
Purchases and issuances		43,513
Sales and settlements	(282,811)	(25,477)
Balance, end of year	$ 0	$ 284,552

Note 4 – Investment Gains and Losses

During the 12 months ended December 31, 2014 and 2013, the plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value as determined by quoted market prices, in an active market, by $778,783 and $3,499,733 respectively.

Note 5 – Investment Contract with Insurance Company

In 1998, the plan entered into an investment contract with Manulife Financial Corporation. In April 2004, Manulife Financial Corporation acquired John Hancock Financial Services, Inc. As a result of this acquisition, the Manufacturers Life Insurance Company (Manulife USA) changed to the John Hancock Life Insurance Company (USA) (John Hancock USA) name. John Hancock maintained the contributions in a pooled account. The account was credited with actual earnings on the underlying investments and charged for plan withdrawals and investment expenses charged by John Hancock. Contract assets are reported at fair value. The plan changed custodians at December 15, 2014 and all accounts were transferred to Fidelity. The contract with John Hancock was terminated as of the same date.

Note 6 – Guaranteed Investment Contract

The Plan entered into a benefit-responsive investment contract with Fidelity Management Trust Company. Fidelity Management Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at the net assets available for benefits. Contract value, as reported to the Plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 was $329,011. The average yield was 1.67% and the crediting interest rate was 1.07% for the year ended December 31, 2014. The issuer resets the crediting interest rate annually. The minimum guaranteed interest rate varies for each contract year and may be modified by the custodian prior to the renewal date of the contract upon occurrence of specific events as provided in the contract. The interest crediting rate is calculated semi-annually based upon many factors, including estimated future earnings rate, that rate at which investments mature and future cash flows.

Note 7 – Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian of the plan:

		2014		2013
Money market fund	$	16,012,386	$	377,247
Investments at fair value	$	8,765,094	$	20,714,826
Notes receivable from participants	$	405,348	$	341,786
Investment income (loss)	$	868,762	$	3,519,004

Note 8 – Party-In-Interest Transactions

John Hancock Life Insurance Company USA and Fidelity Management Trust Company have been identified as parties-in-interest with respect to the plan. The records of the Plan indicate no party-in-interest transactions which are prohibited by ERISA Section 406 and for which no statutory or administrative exemption exists.

Note 9 – Plan Expenses

Accounting and administrative expenses incurred in the administration of the plan are paid by the Employers and are not allocated to individual participant accounts.

Note 10 – Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 11 – Income Tax Status

Effective December 15, 2014 the Company adopted a volume submitter profit sharing/401(k) plan provided by Fidelity. The volume submitter plan received Internal Revenue Service approval on March 31, 2014. The Plan Administrator asserts the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore they believe the plan was qualified and the related trust was tax-exempt as the financial statement date.

The plan is no longer subject to U.S. federal tax authorities for the years ended before December 31, 2012.

Note 12 – Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment

Note 12 -- Risks and Uncertainties (continued)

securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 13 – Transfers from Other Plans

A total of $1,805,739 was transferred to the Plan from the Bonita Packing Co/Betteravia Farms 401(k) Union Plan for the year ended December 31, 2014. The transfer included the following assets:

Investments converted to cash	$1,702,393
Cash in forfeiture account	6,735
Participant loans	96,611
Total assets transferred	$1,805,739

Employees who transfer funds from this plan are eligible for credit for the years employed by the related company.

The Trustees
Bonita Packing Co./Betteravia Farms
New Comparability Profit Sharing 401(k) Plan

We have conducted a DOL limited-scope audit of the financial statements of Bonita Packing Co./Betteravia Farms New Comparability Profit Sharing 401(k) Plan for the year ended December 31, 2014, and have issued our report thereon dated October 1, 2015. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you May 12, 2015. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Bonita Packing Co./Betteravia Farms New Comparability Profit Sharing 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2014. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 6, 2015.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

STATUS OF PRIOR YEAR COMMENTS TO MANAGEMENT

Minutes Documentation

As part of our audit we review minutes for documentation of current year changes or activity related to the Plan. An important component of this documentation would be the percentages or amounts chosen for both the discretionary match and the discretionary profit sharing contributions.

Status: In the current year audit no minutes were available for meetings held in 2014 although we reviewed minutes of the semi-annual 401(k) committee meeting held in June 2015. The minutes reflected significant discussions and decisions, thereby providing appropriate documentation relevant to the Plan. We continue to encourage management to routinely document all meetings of trustees or investment committees.

IT Controls over Matching Funds

During our 2013 audit it came to our attention that there continued to be errors in the calculation of the employer matching contribution. Although we noted that discrepancies were identified by management just prior to implementation of our audit procedures, it is important that internal controls be designed to provide timely identification of inconsistencies. Because the software has routinely produced errors, a quarterly reconciliation may be more effective in providing timely corrections.

ERISA and DOL regulations for compliance may be more stringent than materiality considerations imposed by generally accepted accounting principles, therefore it is essential that controls be addressed at the participant level.

Status: In the 2014 audit the matching calculation was performed by ADP, but there continue to be errors. Enough discrepancies were noted for us to choose to increase our sample to include the entire population of participants. Seven participants were short greater than $10 of which one was short $1,473. We encourage management to increase oversight of participant allocations. It may be advantageous to engage a third party administrator to perform specific functions to ensure participant balances and allocations are appropriate and in compliance with terms of the Plan.

Payroll Reconciliation

Because deferrals and matching contributions are based on gross wages, it is important wages be correctly recorded and accumulated. Amounts reported per the IRS 940's and EDD DE7's should be consistent and reconcile to the general ledger as well as the employee census. In 2013 the census did not reconcile to either the 940's or the general ledger.

It is the responsibility of management to ensure that wages per the census are correct and agree with all payroll reports provided to taxing authorities. It is critical to the exempt status of the Plan that deferral calculations be accurate and based on correctly reported wages. Additionally, for audit purposes, the census is used to identify the population of employees receiving wages in the current year, and tying out gross wages helps confirm that all employees have been included.

To ensure compliance with regulatory agencies, and increase audit efficiency, we would suggest that wages be reconciled between the census, regulatory payroll reports, and the general ledger prior to commencement of the annual audit. Documentation of the reconciliation could be provided to the auditor as evidence of accuracy and completeness.

Status: In the current year all companies in the Plan used ADP for payroll processing. Payroll registers consistently reconciled to the census.

Personnel File Maintenance

As part of our audit we routinely review participant information stored in employee personnel files. In 2013 the Company personnel were unable to locate documentation evidencing distribution to a terminated employee.

Although John Hancock may be able to provide support for transactions, the responsibility for maintaining current participant information remains with the Company. Because documentation found in employee personnel files is essential in assessing the accuracy of participant data, we suggest that every effort be made to ensure it is complete and up-to-date.

Status: In the 2014 audit, the personnel file for a deceased employee could not be located. Additionally, a significant portion of loan documentation had not been properly filed.

After the completion of fieldwork the missing personnel file was located. With the change to Fidelity, most documentation will be completed through their website and stored accordingly. This should provide reliable and consistent documentation that is easily accessed by appropriate personnel, but the responsibility for completeness and accuracy remains with the Plan sponsor. Any documentation that remains with the sponsor should be appropriately filed and easily accessible.

Accuracy of Payroll Dates Provided to John Hancock

Our audit includes examining evidence of compliance with requirements imposed by the Department of Labor. Per the audit summary letter from the DOL dated September 16, 2013, the Company is allowed 4 business days to segregate participant deferrals and loan payments from Company assets and deposit them into the Plan. Reports provided by John Hancock in 2013 implied contributions were not segregated in a timely manner, but Company records reflected consistent, timely deposits.

Further investigation uncovered that payroll date information provided to John Hancock by the Company was inaccurate and no deposits were in violation of DOL strictures. In order to ensure that all records are complete and accurate we suggest that someone with knowledge of DOL and ERISA requirements review records provided by John Hancock for accuracy, completeness and compliance. John Hancock's internal controls cover only transactions performed by them, but the accuracy and completeness of the data provided to them is the responsibility of the sponsor and should be covered by the sponsor's system of quality control.

We noted that subsequent to the engagement of a new payroll service provider, the correct payroll dates were being provided to John Hancock.

Status:

In the 2014 audit, reports from John Hancock reflected appropriate payroll dates and processing dates and no deposits were in violation of DOL requirements.

CURRENT YEAR COMMENTS TO MANAGEMENT

Oversight of Fidelity Accounting Services

Upon initiation of audit procedures it became evident that the Summary of Net Assets and the Statement of Operations prepared by Fidelity were incomplete. Per review of Fidelity's service agreement, it was documented that Fidelity takes no responsibility for accuracy or completeness of

data provided to them for processing. Further inquiry indicated Fidelity had not received all of the applicable data from the sponsor. The sponsor was unaware of the deficiencies in the financial data, and was unclear on their responsibilities for its accuracy and completeness.

Subsequent audit procedures identified deficiencies in compliance testing as well as an incomplete and inaccurate form 5500. Per Fidelity this was the result of incomplete data received from the sponsor.

Historically the third party administrator took responsibility for the accuracy and completeness of the data, but per their service agreement, Fidelity did not engage to perform the same level of service. Ultimately the responsibility lies with the Plan sponsor.

In order to ensure compliance with Plan terms and DOL and ERISA requirements, we recommend management engage a third party administrator to provide selected services that when combined with Fidelity's internal controls will provide a properly designed and implemented control environment over Plan financial data.

Oversight of ADP Payroll Services

As part of our audit procedures applied to the 2013 Union Plan, we attempted to agree W2 wages for sample participants to gross wages per the census. All in the sample presented deviations. Further investigation disclosed an error originating with ADP's setup of pre-tax health insurance deductions.

ADP takes no responsibility for the accuracy or completeness of data provided to them for processing. Responsibility lies with the Employer therefore it is the Employer's responsibility to implement a system of review over payroll services provided. Payroll registers should be reconciled to control totals to ensure completeness. When changes are made or new employees set up, ADP output should be reviewed and/or recalculated to ensure accuracy. ADP's system of controls is designed to work in tandem with complementary Employer controls and should not be relied upon to operate independently.

We encourage management to strengthen the review process over ADP. A significant element of internal control is understanding ADPs process, formulating independent expectations, and comparing those expectation to ADP output.
