NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

The following description of the Flagship Facility Services, Inc. Profit Sharing and 401(k) Plan (the "Plan") as restated as of July 1, 2009, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1997, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, ("ERISA"). The Plan provides benefits for all non-union employees of Flagship Facility Services, Inc., (the "Company"), SPC Airport Services Inc., and Midwest Airport Service, Inc, companies related by common ownership, (together a controlled group), who have completed 90 days of service and have attained the age of eighteen. All administrative costs of the Plan are borne by the Company. Other charges and fees may be assessed against the respective account balances.

Prior to July 1, 2009, the Plan provided benefits for all non-union employees of Flagship Facility Services, Inc., SPC Airport Services Inc., Swift Air Charters, Inc., and Midwest Airport Service, Inc, companies related by common ownership, (together a controlled group), who have completed 1,000 hours of service in a twelve-month period and have attained the age of twenty-one.

Administration - Effective July 1, 2009, the Plan was restated to appoint Hartford Life Insurance Company (Hartford) as custodian of the Plan. Prior to the amendment, State Street Bank and Trust Company (State Street) was the custodian.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation - For those assets held by Hartford and State Street as either mutual funds or in common collective trust, the assets are stated at fair value as determined by readily available quoted market prices.

Forfeitures - The non-vested portion of a participant's account who has terminated employment is forfeited. The forfeitures may then be used by the employer to reduce employer expenses if the employer does not elect to pay such expenses directly. Forfeitures in the amount of $1,987 were used to reduce employer contributions during the year ended December 31, 2009.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes - The Internal Revenue Service determined that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan administrator and tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's tax filings are subject to audit by various taxing authorities. As of December 31, 2009 the Plan is no longer subject to federal or state examinations by tax authorities for years ended before 2005.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Subsequent events were evaluated through September 24, 2010.

NOTE 2 - PARTICIPATION AND BENEFITS

Contributions - Prior to July 2009, Participants were allowed to contribute, on a tax-deferred basis, from 1% - 70% of their annual compensation up to the maximum dollar amount allowed under section 401(k) of the Internal Revenue Code.

Effective July 1, 2009, the Plan was restated to provide provisions requiring auto-enrollment into the Plan and auto-increases in Plan contributions. Participants have the right to opt out of the plan in advance, prior to their eligibility date. Participants are also permitted to deposit into the Plan distributions received from other qualified plans (rollovers).

The Company may elect to match the participants' contributions, excluding rollovers, at its discretion. The Company's matching contributions for the year ended December 31, 2009 were $28,731. In addition, the Company may make an additional discretionary profit sharing contribution to the Plan each year. Such discretionary profit sharing contributions will be allocated to each participant who is eligible to share in the same ratio that each participant's compensation bears to the total compensation of all participants eligible to share on the last day of the plan year. There was no discretionary contribution for the year ended December 31, 2009.

NOTE 2 - PARTICIPATION AND BENEFITS (Continued)

Vesting - Participants' contributions and rollovers from other qualified plans as well as earnings thereon are 100% vested at all times. The Company's matching contributions and discretionary amounts contributed by the Company vest based upon completed years of service over a six year period at 20% per year from years two through year six.

Effective July 1, 2009, the Company's matching contributions and discretionary amounts contributed by the Company vest based upon completed years of service over a five year period at 25% per year from years two through year five.

Payment of Benefits - Distribution of benefits upon retirement, termination, disability, hardship or death are payable in a lump sum if less than $5,000. Benefits may be paid either by lump sum or deferred if more than $5,000.

Loans to Participants - Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions and must be repaid within five years, unless the loan is used to acquire a principal residence, in which case it must be repaid within thirty years.

NOTE 3 - PLAN TERMINATION AND/OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to terminate and/or modify the Plan at any time by resolution of its Board of Directors, subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

NOTE 4 - INVESTMENTS

The following table summarizes the fair values of investment funds that were certified by Hartford as of December 31, 2009 and State Street as of December 31, 2008. NOTE 6 – FAIR VALUE MEASURMENTS

Generally accepted accounting principles establish a hierarchy to prioritize the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). Observable inputs are those that market participants would use in pricing the assets based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Values are unadjusted quoted prices for identical assets or liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include in quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

In accordance with generally accepted accounting principles the following table represents the Company's fair value hierarchy for its financial assets and liabilities (cash and investments) measured at fair value on a recurring basis of as December 31, 2009.

	Level 1	Level 2	Level 3	Total Carrying Amount
