Independent Auditor's Report

Administrative Committee of
Bartow Ford Company, Inc.
401(k) Retirement Plan
Bartow, Florida

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Bartow Ford Company, Inc. 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the custodian of the Plan, except for

James E. Hamilton : Jeffrey J. Hausman : Ronald T. Wood : Jami A. Pope : Stephanie A. Richerson : Troy J. Tschantz

comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Assets Held at End of Year as of December 31, 2015 and Reportable Transactions for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of Bartow Ford Company, Inc. (the Company/Employer) 401(k) Retirement Plan (the Plan) are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As disclosed in Note 7, the Plan elected early adoption of ASU 2015-12, which eliminated the requirements to measure fair value of fully benefit-responsive investment contracts.

The Plan has elected to become a participating employer in the Wachovia Bank, N.A. (Wachovia) Defined Contribution Prototype Plan and Trust (Master Plan). Wachovia was acquired by Wells Fargo Bank, National Association (Wells Fargo NA) in 2009. The Plan is currently being administered by Wells Fargo Institutional Retirement and Trust (Wells Fargo). The Plan is entirely participant directed. Wells Fargo has assumed responsibility for the Plan's assets as a non-discretionary Trustee.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

(Continued)

(c) Investments Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Notes 1 (h), 3, and 7 for discussion of fair value measurements).

Realized gains and losses and the change in the difference between fair value and the cost of investments are reflected in the Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments. Purchases and sales of units of mutual funds and shares of stock are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of the notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

(g) Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the current year presentation.

(h) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These

(Continued)

funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments in common/collective trusts and other fully benefit-responsive investment contracts - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(i) Certified Investments

Other than the fair value of the guaranteed investment, certain information related to the investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments for the year ended December 31, 2015, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Wells Fargo Bank, N.A. (the custodian of the Plan assets). The contract value of the guaranteed investment contracts was certified by the custodian.

(j) Subsequent Events

The Plan has evaluated subsequent events through July 5, 2016, the date which the financial statements were available to be issued.

(Continued)

(2) Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

(a) General

The Plan, as amended and restated, is a defined contribution plan maintained for all eligible employees of the Employer. The Plan and its related trust are maintained for all full-time employees of the Company who are at least twenty-one years of age, and have completed at least 1,000 hours of continuous service and one year of employment. The Plan is subject to the provisions of ERISA. Plan entry dates are offered quarterly on January 1, April 1, July 1, and October 1. The Plan allows participants to contribute from their salary on a pre-tax basis, and the Employer has the discretion to make matching contributions and profit sharing contributions. The Plan conforms to current tax laws and provides for participant directed, daily valuation investment options. The Plan has been amended to reflect changes necessitated by the Internal Revenue Service (IRS).

(b) Contributions

Employees may become 401(k) participants by entering into salary deferral agreements with the Employer, whereby each employee may elect to make pre-tax contributions in amounts as set forth in the Plan Document. Participants may elect to make pre-tax contributions of up to 100% of compensation, subject to limitations set forth in the Plan Document. Amounts subject to these agreements are referred to as participant contributions in these financial statements. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Contributions are subject to certain IRS limitations.

The Employer may make basic Employer contributions to the Plan on behalf of each active participant in an amount not to exceed that percentage of each participant's compensation as may be approved by the Board of Directors on an annual basis. The Employer may also make discretionary Employer contributions to the Plan out of its net profits or accumulated net profits as determined by appropriate action of the Board of Directors.

For the Plan years ending December 31, 2015 and 2014, the Employer's matching and profit sharing contributions totaled $59,737 and $34,146, respectively, which as of December 31, 2015 and 2014, respectively, were receivable from the Employer.

(Continued)

(c) Participants' Accounts and Fund Earnings

The Plan Administrator maintains individual accounts for each participant. Each participant's account is credited with the participant's contributions, an allocation of the Employer contributions and related forfeitures, if any, and a share of the net earnings on investments and administrative expenses allocable to each such account. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Employer matching contributions, if any, are allocated to all contributing participants who have worked 1,000 hours and are employed as of the last day of the Plan year. The matching contribution is dollar-for dollar up to amounts determined annually by the Employer. The annual Employer match for the years ended December 31, 2015 and 2014 was limited to $500 per eligible participant per year.

The Employer profit sharing contributions, if any, including forfeitures to participants' accounts, are allocated to participants' accounts in proportion to the ratio the participant's compensation bears to the compensation of all participants entitled to share.

Net investment earnings and administrative expenses are allocable in proportion to the average value, as defined in the Plan agreement, of each participant's account for the period since the last valuation date.

(d) Vesting and Forfeitures

Participant contributions are 100% vested upon contribution, along with the actual earnings thereon. The vesting period and the rates of vesting for Employer contributions are reflected in the following vesting schedule:

Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years or more	100%

Participants' remaining interest in the amounts contributed by the Employer vests fully upon the occurrence of death, disability, or retirement. Participants who cease to participate in the Plan as defined in the Plan agreement prior to vesting, forfeit their interest in the Employer contributions. The forfeitures relating to the matching contributions are used to reduce future Employer contributions to the Plan. The forfeitures relating to the basic contributions are allocated based on participants' compensation percentages. There were no forfeitures available to reduce

(Continued)

future Employer contributions or Plan administrative fees at December 31, 2015.

(e) Limits on 401(k) Actual Deferral Percentages

Internal Revenue Code (IRC) Section 401(k) limits the amounts of deferrals that participants who are deemed as highly compensated employees may make each year. A series of calculations is performed on Plan data to calculate these limits as of the end of each Plan year. There were no excess deferrals payable at December 31, 2015 and 2014.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their vested account balance up to the lesser of $50,000 or 50% of their account balance. The minimum loan amount is $1,000. Note terms generally range from one to five years, but may be longer if the loan is for the purchase of a principal residence. The notes are secured by the balance in the participant's account, and principal and interest are paid ratably through payroll deductions. Interest on the notes is fixed based on the prime lending rate in effect at the grant date, and accrued at an annual rate of 3.25% in 2015 and 2014. Delinquent notes receivable are reclassified as distributions based upon terms of the Plan document.

(g) Distributions and Payment of Benefits

Benefits are recorded when paid. In general, upon termination of service, if a participant's vested account balance exceeds $5,000, an election can be made to receive a distribution in a single lump sum payment in cash, installments over a period of not more than assumed life expectancy, or ad-hoc distributions of some or all of the vested account balance. For vested account balances not exceeding $5,000, a distribution of the balance is made as soon as administratively feasible following termination of employment. In the event of a mandatory distribution greater than $1,000, the Plan must roll the funds into an individual retirement plan if the participant does not make an affirmative election to have the amount paid in a direct rollover or cash distribution. Disbursement of funds will commence as soon as administratively practicable following the participant's separation from service. In addition, hardship distributions are permitted if certain criteria are met.

(Continued)

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(3) Investments

For the years ended December 31, 2015 and 2014, the Plan's assets are held by Wells Fargo in individual participant accounts, which are invested primarily in mutual funds, cash equivalents, and shares of Ford Motor Company and Citigroup, Inc. stock, valued at fair value, as determined by quoted market prices (Level 1). Assets held in the Wells Fargo Stable Return Fund and the Wells Fargo Enhanced Stock Market Fund are valued at contract value, as determined by Wells Fargo (Level 2) at December 31, 2015 and 2014.

Funds are invested in shares of Wells Fargo Stable Return Fund, which is a common/collective trust that invests primarily in traditional and synthetic guaranteed investment contracts. These contracts meet the fully benefit-responsive investment contract criteria, and therefore, are reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed on a periodic basis.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is

(Continued)

reviewed on a periodic basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Risks involved with this type of investment include credit risk, due to the potential inability of the issuer of the underlying securities to meet the terms of the contract, and liquidity risk due to the unique characteristics of investment contracts and an absence of an actively traded secondary market.

A summary of investments at December 31, 2015 and 2014 is as follows:

	2015	2014
Investments, at fair value (Level 1)	$7,125,121	$7,041,773
Investments, at contract value (Level 2)	1,953,140	2,079,136
Total	$9,078,261	$9,120,909

(4) Related-Party Transactions and Parties-in-Interest

Certain Plan investments are shares of Ford Motor Company common stock and Citigroup, Inc. common stock, which are related parties.

Certain Plan investments are shares of mutual funds managed by Wells Fargo, who is the administrator and trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

Expenses incurred by the Employer in the installation, administration, and revision of the Plan are paid by the Plan, unless paid directly by the Employer. During the year ended December 31, 2015, the Employer incurred Plan administrative expenses of approximately $17,200.

(5) Income Tax Status

The Plan adopted the Master Plan, effective January 1, 2002. The Master Plan has obtained a determination letter dated March 31, 2008 from the IRS for its prototype plan, which stated that the Master Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan has not obtained a separate individual determination letter. In

(Continued)

the opinion of the Plan Administrator and the Plan's tax counsel, the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan was qualified, and the related trust is tax-exempt. No provision for income taxes has been included in the Plan's financial statements.

The Plan follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, as it relates to uncertain tax positions. Any interest and penalties recognized associated with a tax position are classified as a deduction from net assets in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. Management has analyzed the Plan's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for the open tax years 2012 through 2014, or expected to be taken in the Plan's 2015 tax returns. The Plan identifies its major tax jurisdiction as the U.S. Federal jurisdiction. However, the Plan is not currently under audit nor has the Plan been contacted by this jurisdiction. The Plan is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change in the next twelve months.

During the year ended December 31, 2015, the Plan did not recognize any interest and penalties relating to taxes, nor were any accrued at December 31, 2015 and 2014.

There are no significant reconciling items between the audited financial statements and the Form 5500.

(6) Risk on Uninsured Cash

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of cash. The Plan maintains cash accounts at financial institutions whose accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to statutory limits. The standard FDIC insurance amount is limited to $250,000 per depositor, per insured bank. Therefore, any amounts in excess of this $250,000 held by the Plan during the year ended December 31, 2015, were uninsured and uncollateralized.

(7) FASB ASC 250 – Accounting Changes

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive*

(Continued)

Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (ASU 2015-12). Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively.

Management has elected early adoption of Parts I and II. Accordingly, the amendments were retrospectively applied, resulting in removing the adjustment to decrease the fully benefit-responsive contracts from fair value to contract value of $26,088 in 2014.

(8) Risks and Uncertainties

The Plan invests in various investment securities through mutual funds, registered investment companies, common/collective trusts, and common stocks, and through notes receivable from participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(9) Concentration of Risk

A substantial portion of the total assets of the Plan are invested in Ford Motor Company and Citigroup, Inc. common stock as of December 31, 2015 and 2014. This concentration of assets is subject to the risks of the automobile industry and local and national economic growth trends.
