ADMINISTRATIVE COMMITTEE
FOOD CONCEPTS INTERNATIONAL, LP 401(k) PLAN

We were engaged to audit the financial statements of the Food Concepts International, LP 401(k) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedules as of and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by John Hancock, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2009 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A: Description of the Plan

The following description of the Food Concepts International, LP (Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The plan is a defined contribution plan covering all employees of the Company who have completed three months of service and attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year participants may contribute from 1 percent up to 100 percent, limited to $16,500, of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. The Plan currently offers an array of John Hancock mutual funds for participants. The Employer, at its discretion, may make matching contributions to the Plan to the extent and in the manner required by the Safe Harbor CODA provisions of the plan agreement. A participant shall be 100% vested in the value of Safe Harbor match. For the 2009 plan year, the Company satisfied the Safe Harbor CODA requirements and has provided a matching contribution equal to 100% of each participant's contribution, up to a maximum of 3% of the participant's compensation, plus 50% of each participant's contributions that exceeds 3%, but not more than 5%, of the participant's compensation. Additional profit sharing amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participants' contributions and an allocation of (a) the Company's contribution, if applicable, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant loans – Participant loans are not permitted under the Plan.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, hardship distributions are permitted if certain criteria are met.

Note B: Summary of Accounting Policies

The following summary of significant accounting policies is presented to assist in the understanding of the Company's financial statements. The financial statements and notes are the representation of the Company's management who is responsible for their integrity and objectivity. The financial statements of the Organization have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Financial Accounting Standards Board (FASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The more significant of the Company's accounting policies are described below.

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

FASB Accounting Standards Codification. The issuance of FASB Accounting Standards Codification™ (Codification) on July 1, 2009 (effective for interim or annual reporting periods ending after September 15, 2009), changes the way that U.S. generally accepted accounting principles (U.S. GAAP) is referenced. Beginning on that date, the Codification officially became the single source of authoritative nongovernmental U.S. GAAP; however, Securities and Exchange Commission (SEC) registrants must also consider rules, regulations, and interpretive guidance issued by the SEC or its staff. The switch affects the way companies refer to U.S. GAAP in financial statements and in their accounting policies. All existing standards that were used to create the Codification became superseded. Instead, references to standards will consist solely of the number used in the Codification's structural organization.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investments – The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Note C: Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2009	December 31, 2008
John Hancock Lifestyle Balanced	$ 661,181	$ 449,258
John Hancock Lifestyle Growth	511,003	326,367
John Hancock Lifestyle Moderate	567,906	385,201
John Hancock Lifestyle Aggressive	281,572	177,635
John Hancock Oppenheimer Developing Markets	219,548	106,632

During 2009 and 2008 the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciation (depreciated) in value by $965,073 and ($1,220,626) respectively.

Note D: Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10. defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

(Continued on the next page)

Note D: Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See Note B above for discussion of valuation methodologies used to measure fair value of investments.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets for both 2009 and 2008 are all valued using Level 1 inputs.

Note E: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

(Continued on the next page)

Note F: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 18, 2001 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note G: Information Certified by the Trustee

The Plan investments are held by John Hancock, the Custodian, and are invested in various mutual funds as directed by the participants. The following information included in the financial statements and supplemental schedules was provided and certified by the Plan's Custodian as complete and accurate as it relates to the Plan's investments it holds:

- Investments at fair value
- Participant loans
- Net appreciation in fair value of investments
- Interest and dividends

Note H: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I: Subsequent Events

The Company has evaluated events subsequent to December 31, 2009 that would possibly require adjustment or disclosure under FASB ASC 855-10-50-1 in these financial statements, through October 5, 2010, the date that these statements were available to be issued. There were no events identified that require adjustment or disclosure as of December 31, 2009.
