Independent Auditor's Report

Sea Town Restaurants 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the Sea Town Restaurants 401(k) Plan as of October 31, 2009 and December 31, 2008, and the related statements of changes in net assets available for benefits for the periods then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 7 to the financial statements, Sea Town Restaurants 401(k) Plan decided to terminate the Plan.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2009 and December 31, 2008, and the changes in net assets available for benefits for the periods then ended in conformity with accounting principles generally accepted in the United States of America.

SEA TOWN RESTAURANTS 401(k) PLAN

Notes to Financial Statements

October 31, 2009 and December 31, 2008

1. Description of the Plan - The following description of the Sea Town Restaurants 401(k) Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.
 - a. General - The Plan is a defined contribution plan effective January 1, 1996, covering employees of Pacific Trends, Inc. dba Sea Town Restaurants, Fifth & Lenora, Inc. dba Place Kitchen, Tomcats, Inc. dba Etta's Seafood Kitchen, Table Wine, Inc., and Douglas Cross Enterprises (collectively, the Companies) with one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2007 the Plan changed its name from Dahlia Lounge 401(k) Plan to Sea Town Restaurants 401(k) Plan.
 - b. Contributions - Participants may elect to defer up to 15 percent (not to exceed that permitted by applicable law) of annual compensation. Additional amounts may be contributed at the discretion of the Companies. No funds were contributed by the Companies for 2009 and 2008.
 - c. Participant accounts - In addition to participants' elective deferrals, each participant's account is credited with an allocation of the Companies' contribution, plan earnings, and forfeitures of terminated participants' nonvested accounts. Allocations are based on each participant's compensation or relative account balances. There were no forfeitures allocated to participants' accounts during 2009 and 2008. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
 - d. Vesting periods - Participants are one hundred percent vested in their contributions at all times. Participants become vested in employer contributions based on their years of service as follows:

<u>Completed Years of Service</u>	<u>Percentage Vested</u>
2	20%
3	40%
4	60%
5	80%
6	100%

- e. Retirement - Normal retirement age is 65 years old.

Notes to Financial Statements
October 31, 2009 and December 31, 2008

1. (Continued)

- f. Death or disability - In the event of death of a participant before his or her retirement benefit commences, one hundred percent of the participant's account balance will be paid to the named beneficiary. If a participant becomes permanently disabled, one hundred percent of his or her account will be distributed in the same manner as if the participant had retired.
- g. Investment options - Participants direct the investment of their accounts by choosing among mutual funds selected by the plan administrator.
- h. Plan termination - The Companies reserve the right to amend or terminate the Plan at any time subject to the provisions of ERISA. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. On termination of the Plan, all participants' accounts become one hundred percent vested.
- i. Payment of benefits - On termination of service due to disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in substantially equal installments over a period not to exceed the life expectancy of the participant, or the joint life expectancy of the participant and his or her designated beneficiary. For termination of service due to other reasons, a participant or beneficiary may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. Summary of significant accounting policies -

- a. Basis of accounting - The financial statements are prepared on the accrual method of accounting. Benefit payments to participants are recorded upon distribution.
- b. Investment valuation - Investments are stated at fair value.
- c. Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from the estimates that were used.

3. The Companies adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on September 13, 2001 which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes the related trust is tax exempt.

6. Investment Fair Value Measurements - On January 1, 2008, the Plan adopted the provisions of Statement of Financial Accounting Standards No. 157 ("SFAS 157") "Fair Value Measurements". SFAS 157 establishes a framework for measuring fair value and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under SFAS 157 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective Trusts: Valued at estimated fair value as determined by the Fund's investment managers.

Participant Loans: Valued at amortized cost, which approximates fair value.

6. (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of October 31, 2009 and December 31, 2008.

<u>Investment Assets at Fair Value as of October 31, 2009</u>

7. Decision to terminate the Plan - Participants were informed on July 27, 2009 that the Plan would be terminating and were instructed to select a new individual IRA plan provider. Subsequent to July 27, 2009, all residual monies were transferred out of participant accounts for a total of \$1,326,979 transferred out of the Plan.
