NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of H.W. Lochner, Inc. Employee Stock Ownership and 401(K) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan of H. W. Lochner, Inc. (Company). During 1995, the Plan was amended and added provisions for an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company. An eligible employee shall become a participant for purposes of elective contributions on the first day of the payroll period that includes the beginning of the calendar quarter coinciding with or next following the completion of one hour of service. An eligible employee shall become a participant for purposes of employer non-elective contributions on the first day of the month coinciding with or next following the date such employee completes one year of service.

Contributions

Participants may voluntarily contribute up to a maximum of 100% of their compensation. However, elective contributions in any tax year may not exceed the IRS dollar limit.

Discretionary non-elective employer contributions may also be made to the Plan. These contributions can be paid in cash, company stock, or other property as the employer may from time to time determine.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, if any, and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon.

Non-elective employer matching contributions made on behalf of participants hired before December 31, 1995 are fully vested and nonforfeitable when made. Vesting in non-elective employer matching contributions made on behalf of participants hired after December 31, 1995 is based on years of service. A participant is 100% vested after six years of credited service.

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs, if applicable, were used only when Level 1 or Level 2 inputs were not available.

NOTES TO FINANCIAL STATEMENTS

Note 3 – Investments at Fair Value (Continued)

Level 1 Fair Value Measurements

The fair value of certain mutual funds is based on quoted market prices.

Level 2 Fair Value Measurements

The fair value of certain mutual funds are valued by the investment manager using net asset values.

Level 3 Fair Value Measurements

Management relies on a third party independent appraiser for valuing the H.W. Lochner Company Stock. Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans is equal to the amortized costs of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3):

	H.W. Lochner Company Stock	Participant Loans	Total
April 30, 2010			
Balance, beginning of year	$ 7,856,406	$350,126	$ 8,206,532
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	2,269,118	-	2,269,118
Purchases, sales, issuances, and settlements (net)	(45,522)	209,775	164,253
Balance, end of year	$10,080,002	$559,901	$10,639,903
April 30, 2009			
Balance, beginning of year	$ 6,884,670	$316,572	$ 7,201,242
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	676,524	-	676,524
Purchases, sales, issuances, and settlements (net)	295,212	33,554	328,766
Balance, end of year	$ 7,856,406	$350,126	$ 8,206,532

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Tax Status

The Plan is a qualified employee benefit plan under Section 401 of the Internal Revenue Code and the Plan is exempt from federal income tax. The Internal Revenue Service has determined and informed the Company by a letter dated November 13, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
