INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
National Corporate Housing, Inc. 401(k) Profit Sharing Plan and Trust

I have audited the accompanying statements of net assets available for benefits (modified cash basis) of the National Corporate Housing, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As described in Note 2, these financial statements were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the National Corporate Housing, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2009 and 2008, and the changes in its net assets available for benefits (modified cash basis) for the year ended December 31, 2009 on the basis of accounting described in Note 2.

401(k) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2009

1. Description of Plan

The following description of the National Corporate Housing, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering the employees of three employers (the "Employers"): National Corporate Housing, Inc.; Apartment Outfitters, LLC; and National Realty Partners, LLC. The Plan was established in 2001. Employees participate in the Plan if they are: 1) not covered by collective bargaining agreement; 2) are not non-resident aliens; 3) over 18 years of age; and 4) have been employed by an Employer for at least two months. Once eligible employees are auto-enrolled at 2% of compensation unless: 1) they opt out or 2) they elect to defer a different amount between 0-20% of compensation, subject to federal limits. Once employees are at least 21 years of age, and have been employed by an Employer for at least one year, employees are eligible for employer matching or profit sharing contributions. The plan is subject to the provisions of ERISA.

Administration. The Plan's assets consist of the participant's accounts invested in publicly traded mutual funds and loans to participants. These assets are administered by a third party trustee (the "Trustee") that is a bank. The Trustee provides Plan participants telephone and internet-based access to their accounts, monthly account statements, income tax reporting, and ensuring compliance with Plan provisions. The Plan is entirely participant-directed, because participants choose their investment amounts and allocation.

Contributions. Each year, participants may make salary deferral contributions of up to $16,500 of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. If eligible, participants will receive Employer matching contributions. Additional profit sharing amounts may be contributed at the option of the Employers. Profit sharing contributions are subject to certain limitations. Participants direct their own investment contributions and Employer matching contributions into various mutual fund investment options offered by the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of Employer matching contributions and plan earnings. The benefit to which a participant is entitled is equal to cumulative salary deferral contributions and related Plan earnings, plus the vested portion of Employer matching contributions and related Plan earnings.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2009

1. Description of Plan (continued)

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Employer matching contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Participant Loans. Participant may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account bear interest at rates that range from 6 percent to 10 percent, which are commensurate with local prevailing rates as determined quarterly by the Trustee. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits. Distributions prior to normal retirement age are generally made upon request; such distributions must comply with various income tax reporting requirements depending on the circumstances involved with the distribution. Distributions at or after normal retirement age are made upon request and are subject to income tax minimum distribution requirements.

Forfeited Accounts. Forfeited non-vested accounts are can be used to pay for plan fees, employer matching contributions, discretionary contributions or re-allocated among eligible participants. As of December 31, 2009 and 2008, forfeited non-vested accounts totaled $6,376 and $1,895 respectively.

2. Summary of Accounting Policies

Basis of Accounting. The financial statements of the plan are prepared on the modified cash basis of accounting. Increases or decreases in Plan net assets are recorded when assets are received or disbursed. Gains and losses on Plan investments are recorded at time of sale. Plan investments are adjusted to their fair values as of the financial reporting date by recording an increase or decrease in Plan net assets.

The Plan has never held any investment contracts.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received; dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating Expenses. All expenses of maintain the plan are paid by the Employers.

Subsequent Events. The Plan has evaluated subsequent events through February 16, 2011, the date the financial statements were available to be issued.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.
Participant loans: Valued at amortized cost, which approximates fair value.

4. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced funds	$ 272,283	-	-	$ 272,283

	$ 819,870	$ -	$ 29,096	$ 848,966

Level 3 activity for participant loans for the year ended December 31, 2009:

Balance, beginning of year	$ 29,096
Principal advanced	45,725
Principal repaid or distributed	(19,812)
Balance, end of year	$ 55,009

5. Related-Party Transactions

There were no related-party transactions during the year ended December 31, 2009.

6. Plan Termination

Although they have not expressed any intent to do so, the Employers have the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Trustee and Employers have been informed by the Internal Revenue Service that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since its inception, the plan administrator and Trustee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
