Independent Auditors' Report on the Financial Statements

To the Trustees and Participants
Tennis Warehouse Profit Sharing Plan
San Luis Obispo, California

We have audited the accompanying statements of net assets available for benefits of Tennis Warehouse Profit Sharing Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Tennis Warehouse Profit Sharing Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedule of assets (held at end of year), schedule of assets (acquired and disposed of within year), and schedule of reportable transactions, referred to as "supplementary information," are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplementary information is the responsibility of the Plan's management. The supplementary information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. Plan Description

The following description of the Tennis Warehouse Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of Sports Warehouse, Inc. (the Company) who have completed one year of eligible service by working 1,000 hours or more during that time period. Employees enter the Plan on the first January 1 or July 1 that occurs after the employee has completed one year of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Company contributions are discretionary and may be made for the Plan year up to 25% of payroll. Contributions are allocated to participants who worked at least 1,000 hours during the Plan year and are employed on the last day of the Plan year. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with allocations of the discretionary employer contributions, plan earnings, forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses and plan losses. Allocations of employer contributions are based on the employee category the participant account is assigned to, as defined by the Plan. Investment earnings or losses are allocated to the participant accounts in proportion to their account balances as of the beginning of the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting:

The balance of vesting in the participants' accounts for the payment of severance benefits is based on years of service as follows:

Years of service	*Years*
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

If an active participant dies prior to attaining the normal retirement age, the participant becomes 100 percent vested.

Benefit payments:

On termination of service due to death, retirement, or disability participants are entitled to the full balance of the employer contribution account balance. For termination of service due to other reasons, participants are entitled to the vested value of their account. Payments are made at the participant's election at the latest of the close of the Plan year in which the participant terminated service or the receipt of a written election from the participant.

Forfeited accounts:

Forfeitures result from non-vested benefit payments remaining in the Plan for all terminated employees. During the year ended December 31, 2009, forfeited non-vested accounts totaled $9,489. These amounts have been reallocated to participants in the same manner as employer contributions, in accordance with the Plan document.

Reclassifications:

Certain prior year amounts have been reclassified to conform to the current year presentation.

Note 2. Significant Accounting Policies

Basis of accounting:

The assets and liabilities of the Plan are maintained on the accrual basis of accounting.

Plan administration:

The Company is the Plan sponsor and Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

Use of estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. All investments are nonparticipant directed. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Certificates of deposit with original maturities greater than three months and remaining maturities of less than one year are classified as short-term investments and are valued based on amortized cost or original cost plus accrued interest.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Certificate of deposits:

Certificate of deposits with original maturities greater than three months are classified as investments.

Benefit payments:

Benefits are recorded when paid.

Administrative fees:

Substantially all administrative expenses of the Plan are paid by the Plan sponsor. The Plan sponsor can elect to use forfeitures to pay administrative expenses of the Plan.

Note 3. Money Market Accounts

Money market balances at December 31, 2009 and 2008 consist of amounts held in interest bearing accounts. These deposits include amounts which are in excess of federally insured limits at December 31, 2009 and 2008, respectively.

Note 4. Investments

All investments in the Plan are nonparticipant directed. The Plan did not hold any investments which represent five or more percent of the net assets available for benefits at December 31, 2009. The Plan held the following investments which represent five or more percent of the net assets available for benefits at December 31, 2008:

Investment at fair value:	***2008***
Structured Products:	
UBS AG PRINC PROT NTS Index	$ 104,937
UBS AG PPN	$ 211,324
UBS AG BETTER-OF COMMOD Notes	$ 73,080

Plan investments for the year ended December 31, 2009 had appreciated/ (depreciated) in value as follows, including gains and losses on investments bought and sold during the year:

Certificates of deposit	$ (49)
Stocks	291,932
Bonds	(393)
Mutual funds	3,493
Structured products	19,132
	$ 314,115

Note 5. Fair Value Measurements

FASB Accounting Standards Codification (ASC) Topic 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2009.

Common stocks, preferred stocks, corporate bonds, and U.S. governmental securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Structured products: Valued at estimated fair value as obtained by the custodian from third parties.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1
Certificate of deposit	$ 38,951
Common stocks	1,653,355
Preferred stocks	111,632
Bonds	39,930
Other	693
	$ 1,844,561

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Level 1	*Level 3*	*Total*
Mutual funds	$ 21,929	$ -	$ 21,929
Structured products	-	426,447	426,447
	$ 21,929	$ 426,447	$ 448,376

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Structured Products
Balance, beginning of year	$ 426,477
Purchases, sales, issuances and settlements, net	(445,609)
Realized gain on sale	19,132
Balance, end of year	$ -

Note 6. Party-in-Interest Transactions

Pacific Benefit Services is the contract administrator of the Plan and provides administrative services. Charles Schwab is the custodian of the Plan assets. Fees paid by the Plan for custodial services amounted to $10,580 for the year ended December 31, 2009. This transaction qualifies as a party-in-interest transaction which is exempt from the prohibited transaction rule.

Note 7. Tax Status

The Plan obtained its latest determination letter on December 8, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code; and therefore, the Plan was qualified and was tax-exempt as of the financial statement date. As such, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, which are insignificant or operational in nature, are handled by the Plan administrator in accordance

with applicable Internal Revenue Service correction policies. The Plan has submitted an application for a new determination letter in 2010.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10. Reconciliation of Financial Statements to 5500

Certain balances included on Schedule H Part I and II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

Note 11. Subsequent Events

The date to which events occurring December 31, 2009 have been evaluated for possible adjustment to the financial statements or disclosure is same as the report date, which is the date on which the financial statements were available to be issued.
