NOTES TO THE FINANCIAL STATEMENTS
August 31, 2009

NOTE A – DESCRIPTION OF PLAN

The following description of the PDQ Manufacturing, Inc. 401(k) Savings & Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of PDQ Manufacturing, Inc. (the Company) who have six months of service and are age 19 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration

The Plan is administered by the Company's personnel. The Plan's trustee, M & I Trust Company, is responsible for the custody and management of the Plan's assets.

Contributions

During 2009, participants could contribute up to $16,500 ($22,000 if over 50) of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions equal to a discretionary percentage of the participant's elected deferral. Contributions are subject to certain limitations. The Company may also contribute a discretionary profit sharing amount at the end of the year which is allocated to the employees on an equal basis.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of income and expenses are based on the proportion that each participant's account balance bears to the total of all participant account balances.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants become 20% vested after completing one year of service and are additionally vested at 20% for each year of additional service up to five years of service, at which time participants are fully vested. However, upon the participant's death, disability, or attainment of normal retirement age, all amounts are immediately vested.

NOTE A – DESCRIPTION OF PLAN – CONTINUED

Payment of Benefits

On termination of service due to death, disability, retirement, or other termination, the participant's vested account balance shall be distributed to the participant or beneficiary in a lump-sum distribution. The Plan may make automatic forced distributions of participant accounts who fail to respond to the mailed distribution request and who have vested balances less than $5,000 and greater than $1,000. These funds will be deposited into individual retirement accounts designated by the Plan administrator. Those at $1,000 or less will be disbursed directly to the participant.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. Loan terms range from 1-5 years or up to 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 4% to 9.25%. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited Accounts

At August 31, 2009 and December 31, 2008, match forfeitures totaled $11,580 and $10,827, respectively. This amount will be used to reduce future employer contributions. Forfeited nonvested accounts totaling $13,147 and $3,032 were used to reduce Company matching contributions during eight months ended August 31, 2009 and the year ended December 31, 2008, respectively. During the eight months ended August 31, 2009, forfeitures of $43,605 were directly allocated to participants' accounts.

Administrative Expenses

The Plan sponsor (employer) pays for some of the administrative expenses and the annual audit.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

As described in FASB ASC 946, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. As required by FASB ASC 946, the Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the period.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE C – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 18, 1996, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt for the eight months ended August 31, 2009.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

		Fair Value Measurements Using:		
August 31, 2009	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ -	$ -	$ -	$ -
Stable principal fund	-	-	-	-
Participant loans	-	-	-	-
Total	$ -	$ -	$ -	$ -
December 31, 2008				
Mutual funds	$ 5,225,830	$ 5,225,830	$ -	$ -
Stable principal fund	892,649	-	892,649	-
Participant loans	295,842	-	-	295,842
Total	$ 6,414,321	$ 5,225,830	$ 892,649	$ 295,842

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Fair Value Measurements

The fair value of the stable principal fund is based on the price of common trust funds, inputs that are directly observable for the fund.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provided further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

August 31, 2009	Participant Loans
Beginning balance	$ 295,842
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-
Purchases, sales, issuances, and settlements (net)	(295,842)
Ending balance	$ -

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the eight months ended August 31, 2009 are reported in net appreciation (depreciation) in fair value of investments.

NOTE E – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. An estimate for a possible loss or gain cannot be made at this time.

NOTE F – ERISA BOND REQUIREMENT

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the Plan year or $500,000. At August 31, 2009, the Plan's sponsor maintained bond coverage in the amount of $600,000.

NOTE G – RELATED PARTY TRANSACTIONS

The Plan's investments are shares of a common trust fund and mutual funds managed by M & I Trust Company. M & I Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE H – MERGER OF PLAN

On September 16, 2008, the Board of Directors of PDQ Manufacturing, Inc. approved the merger of this Plan into the Dover Corporation Retirement Savings Plan effective January 1, 2009 or as soon as administratively practical thereafter. As a result, all investments in mutual funds and participant loans were transferred from the Plan into the Dover Corporation Retirement Savings Plan by August 31, 2009.

NOTE J – RECONCILIATION TO FORM 5500

No reconciliation is necessary as the Trustee is of the opinion that the correct recording of contracts, that are fully benefit responsive, are reported at contract value on Schedule H, line 4(i).

NOTE K – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The M & I Stable Principal Fund owns contracts with various crediting rate formulas. Fixed rate contracts have no reset and are deemed to remain at par. Monthly reset contracts are credited off of one month LIBOR rate and a rolling twelve month Consumer Price Index (CPI). These contracts are reset monthly at a spread to their index. Contracts are deemed to be par. Quarterly reset contracts are credited off the internal rate of return, dollar duration, and dollar weighted duration of an underlying portfolio. The monthly reset contracts are maintained at contract value. The underlying portfolios are priced at market value. As rates rise, the market value falls versus contract value. Crediting rates will rise with a lag due to reinvestment. As rates fall, the market value will rise versus the contract value. Crediting rates will fall with a lag due to reinvestment.

The Fund could be limited in its ability to transact with issuers at contract value if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. M & I maintains strong risk parameters and works with its issuers before any risk parameter changes are contemplated. The Fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is remote.

NOTE K – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

All issuer transactions are guaranteed at contract value unless the Fund is found to have acted negligently, fraudulently, or with intent to mislead the issuer.

In September 2008, M & I implemented a Capital Support Agreement to cover all assets in the M & I Stable Principal Fund that were not previously covered by existing benefit responsive contracts. The average yield of the M & I Stable Principal Fund for the eight months ended August 31, 2009 and the year ended December 31, 2008 are as follows.

	2009	2008
Average yields:		
Gross crediting rate	2.38%	3.28%
Credited to participants rate	2.40%	4.25%
