Report of Independent Auditors

To the Trustees of AG RX Employee Stock Ownership and 401(k) Plan
Oxnard, California

We have audited the accompanying statements of net assets available for benefits of AG RX Employee Stock Ownership and 401(k) Plan (the "Plan") as of December 31, 2009 and May 31, 2009, the related statement of changes in net assets available for benefits for the seven months ended December 31, 2009 and the supplemental schedule as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and May 31, 2009 and the changes in its net assets available for benefits for the seven months ended December 31, 2009, in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009 is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

1. Description of Plan

The following description of AG RX (the "Company") Employee Stock Ownership and 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who are age twenty-one or older and have completed 250 hours during a three month period to participate in the 401(k) part of the Plan and have completed 500 hours in a six month period to participate in the employee stock ownership part of the Plan.

The Plan operates as a cash or deferred plan under Section 401(k) of the Internal Revenue Code of 1986 (the "Code"), as a stock bonus plan under Section 401 of the Code, and as an employee stock ownership plan ("ESOP") under Section 4975(e)(7) and is subject to the applicable provisions of ERISA.

Effective June 1, 2009, the Plan was amended to change it's year end from May 31 to December 31.

Contributions

Participants may contribute up to 100% of compensation, as defined by the Plan, or the limits imposed by the Code. Participants may also contribute amounts representing distributions, or roll-overs, from other qualified plans. The Company may make discretionary contributions which are determined by the Company's Board of Directors. In addition, upon approval of the Company's Board of Directors, the Company may make discretionary matching contributions of 50% of the participant's eligible elective contribution up to 3% of a participant's compensation. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's discretionary contributions, plan earnings and charged with an allocation of administrative expenses. In addition, each participant's account is credited with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Allocations of employer contributions are based on participant's earnings, as defined by the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

1. Description of Plan (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. There were no stock purchases made by the Plan related to participant diversification during the period ended December 31, 2009.

Vesting

All participant contributions are vested 100% at all times. Company discretionary contributions that are not qualified by the Board of Directors and are invested in participant's ESOP accounts vest 20% after 2 years of service, 40% vesting after 3 years of service, 60% vesting after 4 years of service, 80% vesting after 5 years of service and 100% vesting after 6 years of service. Company discretionary contributions that are not qualified by the Board of Directors and are invested in participant's matching accounts vest 20% after 2 years of service, 40% vesting after 3 years of service, 60% vesting after 4 years of service, and 100% vesting after 5 years of service. Company contributions designated as qualified by the Board of Directors are vested 100% at all times. Upon termination of employment by attaining retirement age or due to death or disability, participants are fully vested.

Participant Loans

Participants may borrow up to the greater of $10,000 or 50% of their vested account balance to a maximum of $50,000 less their largest outstanding note balance in the prior one year period and the maximum loan amount cannot exceed the participant's vested interest in their elective deferral account. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions. The interest rates on outstanding participant loans ranged from 4.25% to 10% as of December 31, 2009.

1. Description of Plan (continued)

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Distributions

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account or receive the vested interest in their account in installments. Distributions are generally paid after employment is terminated and as soon as administratively feasible. In conjunction with distribution requests of terminated participants, the Plan redeemed no shares of employer stock during the period ended December 31, 2009.

Forfeited Accounts

The unvested portions of participants' accounts remaining after employees terminate are forfeited and allocated to the remaining participants in the same manner in which employer contributions are allocated on the anniversary date for the plan year during which such forfeiture occurred. At December 31 and May 31, 2009, forfeited accounts totaled $0. Forfeitures of terminated nonvested account balances allocated to remaining participants during the period ended December 31, 2009 totaled $1,237.

Allocations of Benefits

The Plan invests in common stock of the Company. Shares of stock purchased by the Plan with borrowed monies are not allocated to participants until such time as the borrowed monies and related interest are repaid. Shares become allocable in the ratio of debt retired during the Plan year to debt outstanding at the beginning of that year.

Allocation of Company contributions, including allocable shares and forfeitures, are made to participants in the ratio of the compensation for the Plan year of each eligible participant to the total compensation for the Plan year of all eligible participants.

Allocation of Plan income and loss, including unrealized appreciation and depreciation of Plan assets, is made in the proportion that the balance of each participant's account bears to the total

1. Description of Plan (continued)

Allocations of Benefits (continued)

of all participants' account balances as of the preceding valuation date. Prior to making these allocations, the participant's account balance is adjusted by reducing each participant's account for any distributions made subsequent to the preceding valuation date and adjusted for other additions or subtractions that may be deemed appropriate by the Company's Board of Directors.

Voting Rights of ESOP Shares

All shares are voted by the Trustees at the direction of the Plan Committee, except for those specified corporate matters which require a pass-through vote. When a pass-through vote is required, any shares for which instructions are not received will be voted by the Trustee on a pro-rata basis, based on the yes and no votes cast by participants who returned voting instruction forms.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Operating Expenses

Certain expenses of the Plan are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Recently issued accounting pronouncement

In June 2009, FASB No. 168, *Financial Accounting Standards Board* ("FASB") *Accounting Standards Codification* ("ASC") *and the Hierarchy of Generally Accepted Accounting Principles* ("GAAP") was issued and became the single official source of authoritative, nongovernmental GAAP. The historical GAAP hierarchy was eliminated and the ASC became the only level of authoritative GAAP, other than guidance issued by the SEC. All other literature became non-authoritative. ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

2. Summary of Significant Accounting Policies (continued)

In September 2010, the FASB released Accounting Standards Update ("ASU") 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans ("ASU 2010-25"). ASU 2010-25 clarifies how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as investments at fair value in accordance with ASC 962-325-45-10. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As permitted under ASU 2010-25, the Plan chose to early adopt ASU 2010-25 for reporting of its December 31, 2009 financial statements and retrospectively applied ASU 2010-25 for the Plan year ended May 31, 2009.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Purchase and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation or depreciation in the fair value of its investments which includes dividend income, gains or losses on investments bought and sold during the year and the net appreciation (depreciation) in the fair value of investments held.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

2. Summary of Significant Accounting Policies (continued)

Level 1 – Quoted prices in active markets (e.g. NYSE, NASDAQ, etc.) for assets identical to the securities to be valued.

Level 2 – Inputs other than quoted prices that are observable for securities, either directly or indirectly. (Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.)

Level 3 – Unobservable inputs, which contain assumptions by the party valuing those assets. For level 3 inputs, there is no market data or correlations with market assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31 and May 31, 2009.

Mutual funds - Valued at the net asset value (NAV) of shares held by the plan at year end. Fair value is determined by quoted prices in an active market. Mutual funds are classified within level 1 of the valuation hierarchy.

Company common stock - Fair value is determined by an annual independent appraisal using a stock valuation model requiring subjective assumptions. Because of the inherent uncertainty of valuations, estimated fair value may differ significantly from the value that would have been used had a ready market for the securities existed, and the differences could be material. In the opinion of the Trustee, the existing valuation provides a reasonable measure of the fair value of the Company's stock. Company common stock is classified within level 3 of the valuation hierarchy.

Money market funds – These investments are public investment vehicles using $1 for the net asset value (NAV) based on values of investments held by the fund. Money market funds are classified within level 2 of the valuation hierarchy.

Distributions

Distributions to participants are recorded when paid.

Subsequent events

All matters through March 7, 2011 have been considered for disclosure in the accompanying financial statements, which is the date the financial statements were available to be issued.

3. Investments

The following presents the fair value of investments that represent 5 percent or more of the Plan's net assets at December 31 and May 31, 2009:

	December 31, 2009	May 31, 2009
AG RX common stock	$ 3,166,783	$ 2,779,466

Blackrock Global Allocation Fund	795,669	621,784
Pimco Total Return Fund	880,043	712,720

During the period ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value as follows:

Fair values determined by quoted prices in an active market:	
Mutual funds	$ 288,295
Fair values determined by other methods:	
AG RX common stock	387,318
Net appreciation in fair value	$ 675,613

The Plan's investments in Company common stock are as follows:

	December 31, 2009		May 31, 2009	
	Allocated	Unallocated	Allocated	Unallocated
AG RX common stock:				
Number of shares	72,707	19,512	70,050	22,169

Net change	559,997
Net assets of nonparticipant directed investments:	
Beginning of period	3,006,892
End of period	$ 3,566,889

5. Fair Value Measurements

The following summarizes the fair value measurements and method of valuation in accordance with the requirements of ASC 820:

Assets at Fair Value at December 31, 2009

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	$ 2,553,240	$ -	$ -	$ 2,553,240

Money market funds	-	1,337,840	-	1,337,840
Other	-	-	28,477	28,477
Totals	$ 2,553,240	$ 1,337,840	$ 3,195,260	$ 7,086,340

Assets at Fair Value at May 31, 2009

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	$ 1,785,986	$ -	$ -	$ 1,785,986
AG RX common stock	-	-	2,779,466	2,779,466
Money market funds	-	1,605,030	-	1,605,030
Other	-	-	28,477	28,477
Totals	$ 1,785,986	$ 1,605,030	$ 2,807,943	$ 6,198,959

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statement of net assets available for benefits using significant unobservable (Level 3) inputs:

	Company Common Stock
Balance, beginning of period	$ 2,779,466
Purchases, sales, issuances and settlements (net)	-
Net increase in fair value of Company common stock	387,317
Balance, end of period	$ 3,166,783

6. Notes Payable

On May 28, 2009, the Plan entered into a purchase agreement to acquire Company common stock from a trust of a Company stockholder. The purchase was for 29,339.50 shares of Company common stock at $30.33 per share, or approximately $890,000. The agreement required the Plan to make a cash payment of $267,000, issue a promissory note for $306,000, and assume a promissory note for $317,000.

The $306,000 promissory note is secured by 10,087.50 shares of Company common stock held by the Plan and is guaranteed by the Company. Monthly principal and interest payments of $3,553, including interest at 7%, are due in equal installments through May 31, 2019.

The $317,000 promissory note assumption is secured by 10,450 shares of Company common stock held by the Plan and is guaranteed by the Company. Monthly principal and interest payments of $3,519, including interest at 6%, are due in equal installments through May 31, 2020.

Under the terms of the agreements, the Plan Trustee has voting rights on shares that are collaterizing the promissory notes. Upon full payment of the promissory notes, the security pledge of the Company common stock will be released.

Future principal payments under the notes payable at December 31, 2009 are as follows:

Year Ending December 31,	Principal Payments
2010	$ 47,273
2011	50,430
2012	53,798
2013	57,393
2014	61,231
Thereafter	330,359
	$ 600,484

7. Risks and Uncertainties

The Plan invests in the common stock of the Company and various other investment securities including mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with the investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in future financial statements.

8. Administration of Plan Assets

The Plan's assets are managed by the Trustee, who manages the Company common stock investments, authorizes distributions to participants, determines benefits payable to participants, and administers the payment of interest and principal on notes payable. Merrill Lynch is the custodian of the Plan investments in mutual funds.

9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 10, 2009, that the Plan and related Trust as then designed was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Trustees believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

During the year ended May 31, 2009, certain transactions occurred that could impact the Plan's tax qualification. During the year ended May 31, 2009, employee catch-up contributions of $8,965 and in-service distributions of $3,677 were made but were not provided for in the Plan agreement as amended. On January 1, 2010, the Plan was amended effective June 1, 2008 to provide for participants who have attained age 50 before the end of the plan year to be eligible to make catch-up contributions and to provide for in-service withdrawals. In addition, the Plan amendment provided for participant loans that had not been previously provided for in the Plan document but were deemed not to be an non-exempt transaction due to an exemption provided by ERISA.

Further, an error was made in the computation of a match contribution for a Plan Trustee as the salary base exceeded the salary limit resulting in an error totaling $1,786 during the year ended May 31, 2009. As a result of this error, the Company match and ESOP contributions were recomputed and corrected for each Plan participant as of May 31, 2009. None of the errors above resulted in lost earnings to the Plan or participants. An application for voluntary correction of all of the errors noted above has been filed under the IRS Voluntary Correction Program. The Plan Trustees believe the corrections made will allow the Plan to maintain its tax status.

10. Related Party Transactions

The Company is the sponsor of the Plan and, therefore, these transactions qualify as party-in-interest, being transactions for which a statutory exemption exists. The Plan holds common stock of the Company. In addition, on May 28, 2009 the Plan entered into a purchase agreement to acquire Company common stock from a trust of a Company stockholder (see Note 6).
