INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Golden State Engineering, Inc. 401(K) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Golden State Engineering, Inc. 401(K) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes D - G, which was certified by Bank of America, N.A. ("Bank of America") and Newport Group, Inc. ("Newport"), the trustees/custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustees hold the Plan's assets and execute transactions. The Plan administrator has obtained a certification from the trustees as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

GOLDEN STATE ENGINEERING, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

NOTE A - DESCRIPTION OF PLAN

The following description of the Golden State Engineering, Inc. 401(K) Profit Sharing Plan provides only general information. For a more complete description of the Plan, participants should refer to the Plan Document maintained by Golden State Engineering, Inc. 401(K) Profit Sharing Plan (the Company, Plan Administrator and Trustee of the Plan).

General

The Plan is a qualified discretionary plan with a cash or deferred arrangement feature established on January 31, 1977 to provide retirement benefits for eligible employees of the Company. The Plan covers all employees who have completed three consecutive months of service or have completed one year service (at least credited with 1,000 hours during such period) and are age eighteen or older, excluding those employees covered by a collective bargaining agreement and certain non-resident aliens. Employees who have met the eligibility requirement, may enter the plan the first day of the month coinciding with or next following the date satisfaction of the eligibility requirements. The Plan is subject to and has met the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions and Investment Options

Each year, participants may contribute up to the dollar limit that is set by law of their pretax annual compensation. The limit set by the Internal Revenue Service was $18,000 in 2017 and $18,000 in 2016. The catch-up limit for participants aged 50 and over who participate in the plan is $6,000 in 2017 and $6,000 in 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Participants may change their investment options at any time. At the option of the Company's board of directors, the Company may make profit sharing contributions that are invested in a portfolio of investments as directed by the Company. The profit-sharing allocation is based on the relationship of the participant's compensation to the total compensation for all participants.

Employer Contributions

Employer profit sharing and matching contributions are discretionary as determined by the Employer. Profit sharing contributions are allocated to participants in proportion to each eligible employee's compensation as a percentage of all employees' compensation. Matching contributions are allocated to participants in proportion to each eligible employee's 401(k) contributions made as a percentage of all eligible employees' 401(k) contributions made. Employer profit sharing contributions amounted to $- and $400,000 for the years ended December 31, 2017 and 2016, respectively. There were no matching contributions in 2017 or 2016.

NOTE A - DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service due to death, disability or normal retirement, the participant becomes 100% vested in their employer profit-sharing account. The Plan provides for a lump-sum distribution for any amounts less than or equal to $5,000.

Participant Accounts

Each participant's account is credited with their respective contribution, the Employer's contribution and an allocation of Plan earnings. Each participant's account is credited with investment gain or loss as of each valuation date. The valuation date occurs annually during the Plan year. Earnings and losses are allocated on the basis of the ratio that a participant's account balance bears to the total account balances of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. If a participant receives a distribution from the Plan of any date other than a valuation date, the value of the participant's account will be the value as of the prior valuation date.

Vesting

Participants are 100% vested immediately in any salary deferrals (including catch-up contributions), safe harbor contributions and rollover accounts, along with those earnings associated with these accounts. Vesting in the Company's matching and profit-sharing contribution portion of each participant's account plus actual earnings thereon is based on years of continuous service. A participant is fully vested after six years of credit service.

Years of Service	Percentage
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six or more years	100%

Forfeitures

Forfeitures will be used by the Plan for payment of plan expenses then to reduce future employer contributions. As of December 31, 2017 and 2016, there is a balance of $42 and $0, respectively. The Plan will be using the balance to pay plan expenses.

Administrative Expenses

Some of the costs and expenses of the Plan are paid directly by the Plan and are included in the statement of changes in net assets available for benefits. The Employer paid for a portion of the Plan's administrative fees and expenses during 2017 and 2016.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements and supplemental information have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Actively employed participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Investment Valuation and Income Recognition

Investments are stated at fair value. The fair value is the quoted market prices on the last business day of the Plan year as certified by the trustees, Bank of America, N.A. ("Bank of America") and Newport Group, Inc. ("Newport"). Purchases and sales of securities are recorded on a trade basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Any net appreciation or depreciation fro the year is reflected in the statements of changes in net assets available for benefits. See Note G for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)*, which removes the requirement to categorize with the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. ASU 2015-07 is to be applied retrospectively, and for nonpublic filers is effective for years beginning after December 15, 2016, with early adoption permitted.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960). Define Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefited responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation and depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristic and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows a plan to measure its investments and investment-related accounts using the month end closest to is fiscal year-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted, and Parts I and II are to be applied retrospectively.

Plan management elected to early adopt the applicable ASUs and has concluded that the adoption did not have a significant impact on the Plan's financial statements.

Date of Management's Review

Subsequent events were evaluated through October 3, 2018, which is the date the financials were available to be issued.

NOTE C - INCOME TAX STATUS

The Plan has adopted a prototype plan approved by the Internal Revenue Service in its latest opinion letter dated March 31, 2008. The prototype plan document and form of the Plan and related trust, as then designed, were in accordance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

NOTE C - INCOME TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is not subject to income tax examinations for years prior to 2011.

NOTE D- NON-PARTICPANT DIRECTED INVESTMENTS

Effective January 1, 2009, the participants may direct the trustee (Newport) to invest their salary deferral contributions, account(s) attributable to employer matching contributions, rollovers, transfers in available investment options. Therefore, only profit-sharing contributions are considered to be non-participant directed investments.

Information about the net assets and the significant components of the changes in net assets relating to the non-participant directed investments is as follows:

	December 31, 2017	December 31, 2016
Net Assets:		
Mutual Funds	$ 1,217,154	$ 1,723,323

Other income (expense)	(3,453)	(874)
	$ 263,814	$ 91,926

NOTE E - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivables from participants as shown on the statements of net assets available for benefits as of December 31, 2017 and 2016;
- Net investment activity and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016;
- Investment information included in the footnotes and supplemental schedule of assets (held at end of the year) as of December 31, 2017.

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F - INVESTMENTS

Bank of America, the Plan's trustee of the Employer's contributions, makes investment decisions and executes investment transactions. The investments were carried in the accompanying statement of net assets available for benefits at fair value. Certain fees were charged to the funds and are offset against Plan investment income and losses.

Newport Group, Inc. is the Plan's trustee of the employee's elective salary deferral and catch-up contributions. All participants directed investments are maintained by Newport, and participants may change their investment elections at any time.

NOTE G - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reported date.

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE G - FAIR VALUE MEASUREMENTS (continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following section describes the valuation methodologies used to measure various financial instruments at fair value. There have been no changes in the methodologies used during the years ended December 31, 2017 and 2016.

Common Stocks/ Equity Securities

Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate Bonds

Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basin value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE G - FAIR VALUE MEASUREMENTS (continued)

U.S. Government Securities

Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth the Plan's assets measured at fair value by level within the fair value hierarchy. As required by generally accepted accounting principles, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Note H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE J - PARTY-IN-INTEREST TRANSACTIONS

The Plan may invest in mutual funds sponsored by affiliates of the Trustee of Plan assets, which would be identified as a transaction with a party-in-interest in the supplemental schedule. Golden State Engineering, Inc., Plan administrator also makes decisions affecting the plan and makes payments for services provided to the plan. Also, Olmsted & Associates Accountancy Corporation performs an independent audit of the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

NOTE K - RECLASSIFICATIONS

Reclassifications were made to certain prior period amounts in order to conform to the current year classifications. The reclassifications have no effect on reported net income.

NOTE L – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
