REPORT OF INDEPENDENT AUDITORS

Administrative Committee
INOVA Federal Credit Union
401(k) Salary Reduction Plan and Trust
Elkhart, Indiana

We were engaged to audit the financial statements and supplemental schedule of INOVA Federal Credit Union 401(k) Salary Reduction Plan and Trust as of September 1, 2009 and December 31, 2008 and for the period January 1, 2009 through September 1, 2009, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Lincoln National Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of September 1, 2009 and December 31, 2008 and for the period January 1, 2009 through September 1, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

INOVA FEDERAL CREDIT UNION
401(k) SALARY REDUCTION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
September 1, 2009 and December 31, 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the INOVA Federal Credit Union 401(k) Salary Reduction Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of INOVA Federal Credit Union (the "Credit Union"). An employee becomes eligible to enter the plan on January 1, April 1, July 1, and October 1 following the attainment of age 18 and completion of 3 months of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may elect to contribute up to 100% of their pre-tax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers sixty pooled separate accounts and a fully benefit-responsive insurance investment contract as investment options for participants. For the period January 1, 2009 through September 1, 2009, the Credit Union contributed 100 percent of the first 5 percent of base compensation that a participant contributed to the Plan. The matching Credit Union contribution is invested based on the investment elections made by the participant for their deferrals. Additional profit sharing amounts may be contributed at the option of the Credit Union's board of directors and are invested in portfolio investments based on the participant's deferral election. The Credit Union authorized no additional profit sharing contributions for 2009. Contributions are subject to certain limitations. Certain Plan administrative costs have been paid by the Credit Union.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Credit Union's contributions, and (b) Plan earnings, and charged with any withdrawals. Income and realized and unrealized gains and losses on investments are allocated to the participant accounts on each valuation date based on the earnings of the directed investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are 100% vested in salary deferral contributions and the Credit Union's matching contributions plus actual earnings thereon. The Credit Union's profit sharing contributions vest according to the following schedule: 25% vested after two years, 50% vested after three years, 75% vested after four years, and 100% vested after five years of credited service.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits: On termination of service, a participant may elect that payment of benefits be in one of the following forms: a) lump-sum payment in cash or direct rollover; b) installment payments; or c) applied to purchase of an annuity contract, other than a life annuity.

Loan Provisions: Participants are able to borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are 2% greater than the current membership savings rate.

Plan Merger: Effective September 1, 2009, the Credit Union elected to begin participation in the Pentegra Defined Contribution Plan for Financial Institutions (the "Pentegra DC Plan"). On September 1, 2009, all assets of the Plan merged into the Pentegra DC Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies and principles which significantly affect the determination of net assets and results of operations are summarized below.

Accounting Method: The Plan is on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standards:

In April 2009, the FASB issued Staff Position (FSP) No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That are Not Orderly*. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants. The FSP provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. The FSP also requires increased disclosures. This FSP is effective for annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The impact of adoption of this standard was not material to the Plan's net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS
September 1, 2009 and December 31, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

FAS 157 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FAS 157 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs).

Investment contracts: The fair values of investment contracts have been estimated based on a discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks and liquidity, as of the respective financial statement dates (level 3 inputs).

NOTES TO FINANCIAL STATEMENTS
September 1, 2009 and December 31, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Participant loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value, at December 31, 2008, on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Significant		
	Active Markets	Other	Significant
	for Identical	Observable	Unobservable
	Assets (Level 1)	Inputs (Level 2)	Inputs (Level 3)
Investments, excluding participant loans	\$ -	\$2,190,928	\$414,622

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the period January 1, 2009 through September 1, 2009, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES(continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in the fully benefit-responsive contract.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits. Actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term of the estimates of investment valuation.

Risks and Uncertainties for Investments: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses: The Third Party Administrator expenses are paid by the Plan and all other administrative expenses are paid by the Credit Union.

NOTE 3 - PLAN TERMINATION

During 2009 the Credit Union expressed its intent to discontinue its contributions to the Plan effective January 1, 2010. As a result, the Plan is not longer a Safe Harbor Plan. Although it has not expressed any intent to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of termination, participants will become 100% vested in their accounts. Refer to Note 1 regarding the Credit Union's decision to merge the Plan into the Pentegra Defined Contribution Plan for Financial Institutions.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

Lincoln National Life Insurance Company, the custodian of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following presents investments that represent 5 percent or more of the Plan's net assets as of September 1, 2009 and December 31, 2008:

	<u>2009</u>	<u>2008</u>
Investments at fair value as reported by the Plan custodian:		
Lincoln Guaranteed Account (Contract Value at September 1, 2009 and December 31, 2008 \$0 and \$469,015, respectively)	\$ -	\$ 414,622
Delaware Conservative Balanced	-	247,131
Delaware Short Term	-	162,776
Delaware Government/Corporate Bond	-	174,380

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$393,855 all of which is attributable to pooled separate accounts.

During 2009, the Plan earned interest income of \$37,340.

NOTE 5 - PARTIES-IN-INTEREST TRANSACTIONS

Party-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any parties rendering service to the Plan, the employer, and certain others.

All investments of the Plan are either pooled separate accounts or a group variable annuity contract with a guaranteed fund that are held by Lincoln National Life Insurance Company, the Plan custodian, and qualify as party-in-interest investments. Loans to Plan participants are also considered to be party-in-interest investments. Certain professional fees for the administration of the Plan were paid by the Credit Union on behalf of the Plan. During 2009, fees of \$14,437 were paid by the Plan to Baden Retirement Plan Services, the Plan's third party administrator, which qualify as party-in-interest transactions.

NOTE 6 - TAX STATUS

The Plan is maintained using a prototype plan document sponsored by Retirement Financial Services, Inc. The Internal Revenue Service has ruled in a letter dated August 7, 2001, that the prototype plan qualifies under Section 401 of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and currently meets the qualifications for tax exempt status.

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan held a fully benefit-responsive investment contract with Lincoln Financial Group ("Lincoln"). Lincoln maintained the contributions in its general account. Lincoln's general account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. As of December 31, 2008, management believed that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value was not probable.

Effective September 1, 2009, the Credit Union elected to begin participation in the Pentegra Defined Contribution Plan for Financial Institutions (the "Pentegra DC Plan"). On September 1, 2009, all assets of the Plan merged into the Pentegra DC Plan.

As a result of the merger as of September 1, 2009, in order for participants in the Plan to transfer their investments out of the Lincoln Guaranteed Fund, these participants paid a fee based on the market value of the balance in their accounts to the Lincoln National Life Insurance Company. The liquidation of this fund as a result of the merger resulted in the contract being terminated.

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY(continued)

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 3 percent. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is reflected in the Statement of Net Assets Available for Benefits as *Adjustment from fair value to contract value for fully benefit-responsive investment contracts*.

	<u>2009</u>	<u>2008</u>
Average yields:		
Based on annualized earnings ⁽¹⁾	-	3.82%
Based on interest rate credited to participants ⁽²⁾	-	3.82%

- (1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.
- (2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.
