NOTE 1 - Description of Plan

The following brief description of the HCI Systems, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

HCI Systems, Inc. (the "Company") is the Plan Sponsor. The Plan became effective January 1, 2011 and was designed to encourage employees to save for retirement and stay with the Company until their retirement.

The Plan is a defined contribution plan established for the benefit of all full-time employees of the Company who have completed 90 days of service and are age twenty-one or older. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar State tax laws. The HC Integrated Systems, Inc. Plan Committee (the "Committee") is responsible for the general administration of the Plan. ADP serves as the record-keeper and the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Certification:

The Plan trustee is Reliance Trust Company. The Plan trustee has certified to the accuracy of the investment transactions, recognition of income, expenses, and assets held as of December 31, 2018 and 2017.

Eligibility:

Substantially all full-time employees of the Company who are twenty-one or older are eligible to participate in the Plan. Employees are eligible to participate in the Plan after having completed 90 days of service following their date of hire.

Contributions:

Participants may make contributions limited to the maximum annual contribution allowable pursuant to the requirements of IRC Section 401(k). Participants may rollover amounts representing distributions from other qualified plans.

Employer discretionary contributions (profit sharing and employer matching) are determined annually by the Company. For the years ending December 31, 2018 and 2017, there were matching contributions of $207,686 and $141,907, respectively.

NOTE 1 - Description of Plan (Cont.)

Participant Accounts:

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, rollovers from qualified plans of the participant's previous employers and allocations of the Plan's earnings and administrative expenses. Each participant's account is credited with the participant's contributions and the Company's matching contribution. Each participant's account is charged with an allocation of the Plan's administrative expenses. Plan earnings are allocated based on participant account balances, as defined.

Vesting:

Participants are vested immediately in prevailing wage and employee deferral contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions plus applicable earnings thereon is based on years of service as follows:

Years of Service	Vested Percentage
Less than 2 Years	0%
2 Year	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years or more	100%

Payment of Benefits:

Benefit payments to participants are recorded upon distribution. On termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or various forms of annuities, as provided in the Plan document. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts:

Participants' accounts are forfeited if the employer contribution portion has not fully vested at the time of withdrawal. These amounts will be utilized to reduce employer contributions or administrative fees. As of December 31, 2018 and 2017, there was $11,556 and $2,000 of forfeited non-vested accounts to reduce future employer contributions.

NOTE 1 - Description of Plan (Cont.)

Investment Options:

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options and allocations any time throughout the year.

Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of 50% of their vested account balance, or $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate of one percent over the prime rate published in the Wall Street Journal on the 14th business day of the month the loan is originated. Loan terms are specified for each loan with a maximum repayment period of five years or up to 30 years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. A loan is deemed in default if it is not repaid according to the terms of the loan and will be treated as a taxable distribution from the Plan.

Administrative Expenses:

Substantially all administrative expenses are paid directly by the Plan.

Hardship Distribution:

Under certain circumstances, a participant may qualify for certain hardship distributions if a participant has an immediate and significant financial need, subject to certain usage requirement and other conditions. The participant may receive a lump sum payment equal to the vested amount of the participant's account balance.

NOTE 2 - Summary of Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of American on the accrual basis of accounting. The financial statements and notes are the representation of the Plan's trustees, who are responsible for the integrity and objectivity of the financial statements.

Contributions by the participants are recognized in the period in which the participants' wages are earned; withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participant, except for cases where refunds are due to the participants in order for the Plan to conform to IRC provisions. In addition, investment income is recorded when received by the Plan Trustee. Plan expenses are recorded when incurred.

NOTE 2 - Summary of Accounting Policies (Cont.)

Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for its investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for applicable investments.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes from participants are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted of the United States of America requires management to make estimates and assumptions that affect the reported amounts of nets assets available for benefits and changes therein and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Excess Contributions Payable to Participants:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with corresponding reduction to contributions. As of December 31, 2018, there were no excess contributions payable to participants. As of December 31, 2017, there were $9,475 in excess contributions payable to participants. The Plan distributed the 2017 excess contributions to the applicable participants subsequent to 2017.

NOTE 4 – Fair Value Measurements

FASB Accounting Standards Codification Topic No. 820, Fair Value Measurements and Disclosures for Investments in Certain Entities that Calculate Net Assets Value per Share ("FASB ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Assets and liabilities that are required to be recorded at fair value in the statement of net assets available for benefits are categorized based on the inputs to valuation techniques as follows:

Level 1: These are assets and liabilities where values are based on unadjusted quoted prices for identical assets and liabilities in an active market the Plan as the ability to assess.

Level 2: These are assets and liabilities where values are based on the following inputs:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

NOTE 4 – Fair Value Measurements (Cont.)

Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy. Transfers between fair value hierarchy levels are recognized at the end of the period.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

- *Common Stocks, Corporate Bonds and U.S. Government Securities* are valued at the closing price reported on the active market on which the individual securities are traded.

- *Mutual Funds* are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

- *Common/Collective Trust Funds* is a stable value investment offered by ADP Retirement Services. Funds are valued at book (contract) value or fair value and is an interest-bearing account based on prevailing market conditions and rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets recorded at fair value have been categorized based upon a fair value hierarchy. The following table sets forth by level the Plan's assets measured at fair value as of December 31, 2018 and 2017:

Assets	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
December 31, 2018: Mutual Funds held in Sub-Accounts	$ 2,940,911	$ 224,895	$ - - -	$ 3,165,806
December 31, 2017: Mutual Funds held in Sub-Accounts	$ 2,101,092	$ 192,518	$ - - -	$ 2,293,610

NOTE 5 - Exemption from Taxation

The Trustee received a letter of determination, dated July 8, 2014, from the Internal Revenue Service under the volume submitter plan stating that the Plan is exempt from Federal income taxes under Section 401(a) of the Internal Revenue Code. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken and believes the Plan is no longer subject to income tax examinations for years prior to 2016 and 2015.

NOTE 6 - Related Party and Party-in-Interest Transactions

The Plan Administrator, ADP, is a party-in-interest. Fees paid by the Plan for administrative services amounted to $52,475 and $31,360 for the years ended December 31, 2018 and 2017, respectively. The Plan Sponsor is also a party-in-interest with respect to the Plan. Notes from participants and the related interest income are also considered related party transactions.

The Common Collective Trust Fund is a stable value investment fund of ADP Retirement Services and is also a party-in-interest with respect to the Plan. Fair values of the ADP Common/Collective Trust Fund was $224,895 and $192,518 as of December 31, 2018 and 2017, respectively.

NOTE 7 - Plan Termination

Although it has not expressed any intent to do so, the Company, by action of its Plan Administration, has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination would receive distributions of their account balances. Net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 8 - Concentration of Credit Risk

Financial instruments which subject the Plan to concentrations of credit risk consist of annuities and collective investment trust funds held in trust by the Trustee. The funds are subject to regulatory diversification requirements that serve to diversify their credit risk. Descriptions of each fund's investment holdings and concentrations of credit risk can be obtained from the specific fund's prospectus and annual report.

NOTE 9 - Risks and Uncertainties

The Plan provides for various investment options in funds which participants can invest in a combination of equity variable income securities and other investments. Investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 10 - Reconciliation of Financial Statements to Form 5500
