Seralago Investments LLC 401(K) Profit Sharing Plan and Trust

We have audited the accompanying statements of net assets available for benefits of Seralago Investments LLC 401(K) Profit Sharing Plan and Trust as of April 13, 2010 (termination date) and as of December 31, 2009 and the related statements of changes in net assets available for benefits for the period and year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As further discussed in Note 1 to the financial statements, the Administrative Committee of Seralago Investments LLC 401(K) Profit Sharing Plan and Trust, the Plan's sponsor, voted to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing basis used in the presenting the 2009 financial statements to the liquidation basis used in presenting the 2010 financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Seralago Investments LLC 401(K) Profit Sharing Plan and Trust as of April 13, 2010 (termination date) and December 31, 2009 and the changes in its net assets available for benefits for the period and year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

For the Period Ended April 13, 2010 (Termination Date)
and for the Year Ended December 31, 2009

1 DESCRIPTION OF PLAN AND PLAN TERMINATION

The following description of Seralago Investments LLC 401(K) Profit Sharing Plan and Trust (the "Plan") provides only general information. The Plan was established effective January 1, 2009. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Plan termination

During fiscal year 2010, Seralago Investments LLC (the "Sponsor) agreed to terminate the Plan. Effective April, 13, 2010, all assets in the Plan were liquidated to a qualifying multi-employer plan.

General

The Plan was a defined contribution plan allowing all fulltime employees of the Company who had completed three months of continuous service and were age eighteen or older to be eligible to make employee elective deferrals. Employees were required to complete one-year of continuous service and met the age requirement of twenty-one years to participate in employee profit sharing contributions. The plan was subject to the provisions of Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants were able to contribute up to 96% of pretax annual compensation, as defined in the Plan. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions from other qualified defined benefit or defined contribution plans. The Company elected to make discretionary matching contributions and were allocated based on a nondiscriminatory manner based upon the participant's elective deferrals. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various mutual funds as investment options for participants. Participants were not permitted to make contributions to the Plan during 2010. The Company elected not to make discretionary matching contributions for the period ending April 13, 2010 or for the year ended December 31, 2009.

The Plan provided for Company profit sharing contributions. Profit sharing contributions were made solely at the discretion of the Company and are allocated on a nondiscriminatory manner based upon the participant's elective deferrals. The Company did not make profit sharing contributions for the period ending April 13, 2010 or for the year ended December 31, 2009.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocation of profit sharing contributions, if any, and charged with an allocation of administrative expenses not borne by the sponsor. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants could borrow from their fund accounts. The minimum eligibility amount to be borrowed was $1,000 and maximum eligibility is the lesser of $50,000 or 95% of one-half the vested account balance. The loans were secured by the balance in the participant's account and bear interest at prime rate plus 1%. Principal and interest were paid ratably through monthly payroll deductions. For the period ended April 13, 2010 and for the year ended December 31, 2009, there were no participant loans.

Vesting

Participants were vested immediately in their employee elective deferrals plus actual earnings. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. The Company's profit sharing contributions were vested in the participant's accounts based on the following schedule.

Years	Percent vested
1	0%
2	0%
3	100%

Payment of Benefits

On termination of service due to death, disability, or retirement or dissolution of the Plan, participants elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, participant received the value of the vested interest in his or her account as a lump-sum distribution.

Participants still employed could withdraw all or part of their vested account, excluding employer matching and profit sharing contributions and earnings thereon, upon furnishing proof of specific financial hardship or attainment of 59-1/2 years of age.

Forfeited Accounts

At April 13, 2010 and December 31, 2009, the Plan did not have non-vested forfeited account balances. If the Plan had non-vested forfeited account balance, these accounts would have been used to reduce future employer contributions.

2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

As a result of the termination, the Plan changed its basis of accounting from the accrual basis to the liquidation basis. There were no material changes to the financial statements as a result of this change in accounting.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the plan's gains and losses on investments bought and sold as well as held during the period and year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of net assets available for benefits and changes therein during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits were recorded when paid.

Operation Expenses

All significant expenses of maintaining the Plan were paid by the Company.

3 INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets held at December 31, 2009. The Plan had liquidated all assets for the period ended April, 13, 2010.

Federated Capital Appreciation Fund Class C	$	2,489
Federated Bond Fund C		2,062
Federated Kaufmann CL C		1,914
Federated MDT All Cap Corp Fund C		1,873
Federated Stock and Bond Fund C		1,499
Federated Max-Cap Index Fund C SHS		1,236
Federated Strategic Income Fund Class C		794
Federated Intercontinental Fund C		689

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately $700 and $1,100, respectively.

4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the frame-work for measuring fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets and, inputs that are observed for the assets and liabilities, either directly or indirectly, for substantially the full term of the financial instrument.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual Funds: valued at the net asset value (NAV) of shares held by the plan at year end.

Participant Loans valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 13,536	$ -	$ -	$ 13,536
Total assets at fair value	$ 13,536	$ -	$ -	$ 13,536

The Plan did not have assets at April 13, 2010 to report at fair value.

5 TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008 that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

STATEMENT OF REASONABLE CAUSE FOR LATE FILING

During 2009, Seralago Investments, LLC engaged Paychex as the third party administrator for their plan's 401(k) profit sharing plan and trust. During 2010, they switched to ADP as their third party administrator. The employer was misled by Paychex on many aspects of the plan. One of the items significant to this late filing relates to Paychex informing the plan administrator that the transfer of the assets was a transfer of plan assets to a new recordkeeper and had no effect on the plan. During the 2010 financial audit performed in April 2011, the auditor determined that the transfer of assets to ADP was actually a termination of the plan with Paychex, because that plan was a single employer plan and ADP was a multi-employer plan. Upon discovery of this fact and issuance of the financial statements on May 13, 2011, the Form 5500 for 2010 was immediately filed. We request that late filing penalties not be assessed on this plan, as the plan administrator was given incorrect advice on the status of the plan. The plan administrator did not know that the plan was terminated in 2010 until the financial audit was performed in April 2011. The plan administrator did not intentionally file the plan's tax return late. In fact, he has an exemplary history of filing all plan and business tax returns timely.
