MAXOR NATIONAL PHARMACY SERVICES CORPORATION
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2009

Note 1 - Description of plan:

The following description of Maxor National Pharmacy Services Corporation 401(k) Plan (the Plan) is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which provides for the participation of the employees of Maxor National Pharmacy Services Corporation (the Sponsor) and related participating employers, who have completed 3 months of service and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to qualify under Section 401(k) of the Internal Revenue Code (IRC). Under the Plan, each participant has an account for his/her salary deferral contributions, employer matching contributions and any employer non-elective contributions.

Amarillo National Bank serves as the Plan's trustee. John Hancock Life Insurance Company (U.S.A.) serves as the Plan's record keeper and investment custodian and is responsible for executing all investment transactions.

Qualified Automatic Contribution Arrangement

Beginning January 1, 2008, the Plan includes a Qualified Automatic Contribution Arrangement ("QACA"). Under the QACA provisions of the Plan, unless the employee elects either to defer a different percentage of compensation or elects not to contribute to the Plan, the Sponsor will automatically withhold from employee's compensation per pay period the percentage described in the following table, which bases the automatic deferral percentage on the plan year of QACA participation, and will transmit the withheld amount to the Plan as an elective deferral.

Automatic deferral percentage	Plan year of QACA participation
5%	1st and 2nd plan year
5%	3rd plan year
5%	4th plan year
6%	5th and subsequent plan years

Contributions

Participants may make salary deferral contributions through payroll deductions at the participant's discretion subject to the maximum allowed by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, the Sponsor makes matching contributions which are applied to active participants who make salary deferral contributions to the Plan. The Sponsor matches 100% of each employee's contributions which do not exceed 1% of compensation, plus 50% of employee's contributions which exceed 1% but do not exceed 6% of compensation. All matching contributions after December 31, 2007 are based on this rate and will be subject to the QACA vesting rate. The Sponsor, at its discretion, may also make non-elective contributions to the Plan each year. Participant and Sponsor contributions are subject to the provisions of the IRC and related regulations. The Sponsor made no non-elective contributions to the Plan for the year ended December 31, 2009.

Note 1 - Description of plan (continued):

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are treated as discretionary non-elective employer contributions. Forfeitures in the Plan for the year ended December 31, 2009 were $17,011 and are available to be allocated to participants.

Participant loans

In 2001, the Plan adopted an amendment to begin offering participant loans. Any participant may apply for a loan from his/her vested accounts under the Plan subject to certain restrictions. Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear normal market interest rates. Principal and interest are paid back according to the loan agreement through payroll deductions.

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Participants vest in the employer matching contributions and non-elective contributions based on years of service for the Plan prior to adoption of the QACA as follows:

Years of Service	Non-forfeitable Percentage
Less than two years	0%
Two years but less than three years	25%
Three years but less than four years	50%
Four years but less than five years	75%
Five years or more	100%

Employees will be 0% vested in the QACA matching contribution the Sponsor makes on the employee's behalf until two years of vesting service, from the employee's hire date, has been completed. When two years of vesting service are completed, employees become 100% vested in the QACA matching contributions. To earn a year of vesting service, an employee must be credited with at least 1000 hours of service during a Plan Year.

Payments of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his/her account, or annual, quarterly or monthly installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his/her account as a lump-sum distribution.

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Benefits are recorded when paid.

Administrative fees

The Sponsor has elected to absorb most of the administrative costs of the Plan. Such amounts paid by the Sponsor are not reflected in the Plan's financial statements.

Investment valuation and income recognition

Investments are stated at current value as certified by the investment custodian, John Hancock Life Insurance Company (U.S.A.). Shares of registered investment companies are valued at the net asset value per unit held at the end of the year. In accordance with stating investments at current value, net unrealized appreciation or depreciation is reflected for the year on the statement of changes in net Assets Available for Plan Benefits. Participant loans are valued at cost which approximates fair value.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3 - Plan termination:

Although it has not expressed any intent to do so, the Sponsor reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the Plan assets will be distributed in a manner approved by the Internal Revenue Service.

Note 4 - Tax status:

The trust established under the Plan to hold the Plan's assets is qualified under the IRC, and accordingly, the trust's net investment income is exempt from income taxes. The Plan obtained its latest determination letter on March 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Investments - certified by John Hancock Life Insurance Company (U.S.A.):

At December 31, 2009 and 2008, the Plan's investments were held by John Hancock Life Insurance Company (U.S.A.). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by John Hancock Life Insurance Company (U.S.A.) as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following table presents investments at December 31, 2009 and 2008 as reported by John Hancock Life Insurance Company (U.S.A.). Investments that represent 5% or more of the Plan's net assets are separately identified. Also listed is the other financial information certified as described in the preceding paragraph.

Note 6 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 inputs include the following:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liabilities; and
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Note 6 - Fair Value Measurements (unaudited)(continued):

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- The fair values of the mutual fund accounts are obtained from John Hancock Life Insurance Company (U.S.A.) and reflect the fair values of the mutual fund investments. The net asset values are calculated daily upon close of the New York Stock Exchange and are based on the fair value of the underlying securities.
- Participant loans are valued at cost plus accrued interest, which approximate fair value. All participant loans are secured by vested account balances of borrowing participants.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009:

	Fair value measurements using input type			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,660,673	$ -	$ -	$ 12,660,673

Total	$ 12,660,673	$ -	$ 125,615	$ 12,786,288

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Participant loans:	
Balance as of January 1, 2009	$ 85,866
Issuances, repayments and settlements, net	39,749

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2008:

	Fair value measurements using input type			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,704,773	$ -	$ -	$ 7,704,773

Cash and cash equivalents	280	-	-	280
Total	$ 7,705,053	$ -	$ 85,866	$ 7,790,919

Note 6 - Fair Value Measurements (unaudited)(continued):

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2008:

Participant loans:		
Balance as of January 1, 2008	$	79,631
Issuances, repayments and settlements, net		6,235
Balance as of December 31, 2008	$	85,866

Note 7 – Subsequent events:

The trustees of the Plan have evaluated subsequent events through the date of this report, which is the date on which the financial statements were issued.

Note 8 – Risk and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
