Independent Auditors' Report

To the Plan Administrator and Participants
of the Stevens Creek Toyota 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the Stevens Creek Toyota 401(k) Plan ("the Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. The Plan Administrator has informed us that John Hancock holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from John Hancock as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan Administrator by John Hancock is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by John Hancock, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS CREEK TOYOTA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

General - The following description of the Stevens Creek Toyota 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1994 by Halrec, Inc. dba Stevens Creek Toyota to provide benefits to eligible employees of Stevens Creek Toyota and its affiliates Corbro, LLC dba Stevens Creek Volkswagen, and Cornelius Bros, LLC dba Dublin Volkswagen, as defined in the Plan agreement (the three entities collectively are referred to as "the Company" or "Plan Administrator"). The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration - Certain officers of the Company act as Plan Trustees. The Company has appointed an Administrative Committee ("the Committee") to manage the operation and administration of the Plan. The Company has contracted with John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), to act as custodian. A third-party administrator processes and maintains the records of participant data.

Contributions - Each year, participants may contribute 100% of eligible compensation as defined in the Plan, up to the maximum statutory amount. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Effective July 1, 2008, the Plan was amended for non-union eligible participants to automatically defer 1% of compensation, unless the participant has made a contrary election or previously made an election greater than 1%.

The Company may make matching and discretionary employer contributions as defined in the Plan. For the year ended December 31, 2009, the Company matched 10% of each participant's contribution. In addition, the Company matched an additional 10% of each eligible participant's applicable contributions for all Service Writers, Technicians, and Parts Counterpersons of Stevens Creek Volkswagen and Dublin Volkswagen. Company matching contributions amounted to $64,133 for the year ended December 31, 2009. A discretionary profit-sharing contribution of $68,508 was made to eligible union employees of Stevens Creek Toyota in accordance with Plan provisions.

Participant Accounts - Each participant's account is credited or charged with the participant's contribution, the Company's matching contribution, an allocation of the Company's discretionary profit-sharing contribution to eligible participants, Plan earnings or losses, and Plan fees as applicable to the Plan. Allocations of the discretionary profit-sharing contribution are based on hours of service. Plan earnings and losses are credited or charged to participant accounts based on individual participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions/investments are participant directed.

Certain investment and fund fees are charged against investment income and losses and charged to participant accounts. Participants should refer to the various funds' prospectuses and financial literature for further details on these fees.

Vesting - Participants are immediately vested in their contributions and the employer's profit-sharing contribution. Participants vest at the rate of 25% per year and are fully vested in the employer's matching contributions allocated to their account after four years of credited service. Participants become fully vested in the event of death, disability, normal retirement age or Plan termination.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. A participant may have only one outstanding loan at any time. The loans are secured by the balance in the participant's account and bear interest, which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding loans at December 31, 2009 and 2008 carry interest rates ranging from 5.25% to 8.74% and from 6.8% to 9.35%, respectively. Principal and interest is paid ratably through payroll deductions. Loans must be repaid within a five-year period, unless used for the purchase of a principal residence in which case the maximum repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such loans.

Payment of Benefits - Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, and disability and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age 59½.

Forfeited Accounts - Forfeitures of the employer's matching contribution may be used to pay Plan expenses. Any remaining amounts are reallocated to participants as an additional contribution. The forfeitures account balance at

December 31, 2009 and 2008, was approximately $4,300 and $7,500, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments of the Plan in pooled separate accounts at John Hancock are stated at fair value, as quoted by John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's guaranteed accounts are reported at fair value, which approximates contract value as reported by John Hancock as of December 31, 2009 and 2008. Guaranteed accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive guaranteed accounts. The Guaranteed accounts are considered not fully benefit-responsive. The crediting rates for 2009 were in the range of 0.78% to 3.85%. The crediting rates for 2008 were in the range of 2.64% to 3.91%. The average yield and the average yield paid to participants was approximately 2.4% in 2009 and approximately 3.2% in 2008. There is no guaranteed minimum crediting rate under the contract. The crediting interest rates are set based on the Plan's contract with John Hancock.

The Committee periodically reviews fund performance and maintains a watch list as necessary. Participants should refer to the Plan Administrator or the Committee for further information on funds currently on the watch list.

Operating Expenses - The Company paid some expenses incurred for administering the Plan. Plan administration, loan and distribution fees in the amount of $30,466 were paid by the Plan in 2009.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through October 1, 2010, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by John Hancock regarding the current value of assets held at December 31, 2009 and 2008, and transactions entered into during the year ended December 31, 2009, was used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investment funds that represent 5% or more of the Plan's net assets at December 31:

Pooled separate accounts	$1,241,970

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the

framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts: Valued on a unitized share basis based on the value of the underlying investments in the pooled account.

Guaranteed Accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant Loans: Fair value of participant loans is equal to their outstanding balances, less amounts deemed uncollectible as determined by the Plan Administrator.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

NOTE 6 - RELATED PARTY TRANSACTIONS

The custodian of the Plan manages Plan investments. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 7 - TAX STATUS

The Plan received a favorable determination letter dated June 18, 2009 from the Internal Revenue Service. The Plan has been amended since, however, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and related state statutes and is exempt from federal income and state franchise taxes.

NOTE 8 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 9 - SUBSEQUENT EVENT

In August 2010, the Plan changed from John Hancock to Orchard Trust Company who will also serve as Trustee. The black out period for the change was from August 16, 2010 to September 20, 2010. Plan assets were transferred in accordance with the provisions of ERISA to participant-directed investment options at Orchard Trust Company.
