(1) Plan Description

The following description of the Shari's Management 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan was established to provide retirement benefits to the employees of Shari's Management Corporation (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Administration of the Plan is performed by the Shari's 401(k) Retirement Plan Administrative Committee. Assets of the Plan are maintained in a separate trust fund, which is administered and managed by Prudential Bank and Trust, F.S.B. (Prudential) under a written trustee agreement. Any employee who has completed one year of service and has reached age 21 is eligible to participate in the Plan.

(b) Contributions

Participants may elect to contribute from 1% to 50% of compensation subject to limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions ($5,500 for 2010). The Plan offers a variety of registered investment company funds as investment options and participants direct the investment of their contributions and employer contributions.

The Company may make discretionary contributions to the Plan in amounts designated by its Board of Directors, but in no case in an amount that is greater than the amount allowable under the IRC. For the years ended December 31, 2010 and 2009, the employer match was suspended and the Company did not contribute to participant accounts. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. There were no additional profit sharing amounts contributed to the Plan during 2010 and 2009.

(c) Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the discretionary employer contribution, and an allocation of plan earnings, less administrative expenses, as defined by the Plan. Participant accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the Company matching contribution and related earnings is based on years of service. The matching contribution vests at a rate of 20% per year commencing after the second full year of service and becomes fully vested after six years of service.

(e) Forfeitures

Forfeitures can be used to pay administrative expenses and to reduce the Company's matching contributions. For the years ended December 31, 2010 and 2009, forfeitures totaling $9,334 and

$8,578, respectively, were used to pay administrative expenses. Accumulated forfeitures of $3,907 and $3,740 at December 31, 2010 and 2009, respectively, remained in the Plan.

(f) Notes Receivable from Participants

The Plan allows participants to borrow up to 50% of their vested account balance. Loan amounts are restricted to a minimum of $1,000 and a maximum of $50,000 and are repaid through payroll deductions over a period not to exceed five years. The loans are secured by the balance in the participant's account, bear interest at the prime rate plus 1%, and mature through 2015. Principal and interest are paid ratably through bimonthly payroll deductions. At December 31, 2010, interest on outstanding loans ranged from 4.25% to 9.25%.

(g) Benefit Payments

Each participant, or his or her beneficiary, is eligible for a lump-sum benefit payment or withdrawal in the amount of his or her vested interest upon reaching age 59½, disability, death, or termination of employment. Participants with a financial hardship, as defined by the plan document, may also qualify for a limited plan distribution. Participants who take a hardship distribution are barred from making any after-tax voluntary employee contributions for a period of six months after receipt of the hardship distribution.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(i) Change in Fund Administrator

During 2010, the Plan Administrative Committee decided to replace Prudential Bank and Trust F.S.B. with Fidelity Management Trust Company (Fidelity). Fidelity assumed all plan administrative, management, and fiduciary duties previously held by Prudential Bank and Trust F.S.B. as of April 1, 2011. As a result of the change in fund administrator to Fidelity, offers of investment options change to the following:

- PIMCO Total Return Fund – Administrative Shares
- Morgan Stanley Institutional Fund Trust - Mid Cap Growth Portfolio - P
- T Row Price Growth Stock Fund - Advisor
- T Row Price Equity Income Fund – Advisor
- Ridgeworth Mid Cap Value Equity Fund I
- Harbor International Fund – Investor
- Oakmark Equity and Income Fund I
- Fidelity Money Market Trust Retirement Money Market Portfolio
- Spartan 500 Index – Investor Class

(2) Summary of Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments in registered investment company funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for the fair value of investments.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of its investments included in the statements of changes in net assets available for benefits, consists of the realized gains or losses on the sale of investments and the change in unrealized appreciation on those investments from one period to the next.

(c) Benefits Payable

Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but not yet been paid have not been accrued.

(d) Notes Receivable from Participants

Notes receivable from participants are carried at amortized cost plus accrued interest.

(e) Administrative Expenses

Administrative expenses shown in the statements of changes of net assets available for benefits consist of audit fees and fees levied by the trustee.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The Plan may invest in registered investment company funds, which include securities with contractual cash flows, which may include asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(h) Recent Accounting Pronouncements

In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans, a consensus of the FASB Emerging Issues Task Force* (Update). This Update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in the Update are to be applied retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. The Form 5500 will continue to present notes receivable from participants as an investment.

(i) Reclassification

Certain reclassifications have been made to prior year balances to conform with the current year presentation. These reclassifications have no impact on statement of changes in net assets available for benefits.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009:

	2010	2009
Registered investment company funds:		
American Funds Europacific Growth R3	$ 911,783	—
MFS Research Bond A	1,286,341	—
Wells Fargo Advantage Discovery A	719,856	—
Loomis Sayles Value A	1,011,567	—
Oakmark Equity and Income II	1,493,467	—
Highmark Diversified Money Market	2,519,399	2,434,002
T. Rowe Price Growth Stock	2,182,774	1,248,279
Dreyfus S&P 500	936,790	868,189
Fidelity Advisor Freedom 2040	—	2,363,237
Dodge & Cox Balanced	—	1,788,071

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $964,312 and $1,779,633, respectively, related to registered investment company funds.

(Continued)

(4) Fair Value Measurements

FASB Accounting Standards Codification 820-10-50 (FASB ASC 820-10-50) establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10-50 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2010 and 2009.

Registered Investment Company Funds: Valued at year-end using quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Investments at fair value			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment company funds:				
Money market	$ 2,519,399	—	—	2,519,399
Long-term growth	1,848,573	—	—	1,848,573

(5) Income Tax Status

The Plan has adopted the Union Bank of California, N.A. prototype plan agreement that received a favorable opinion letter dated April 29, 2002 from the Internal Revenue Service (IRS) as to the qualification of the prototype plan agreement and exemption from tax under the applicable sections of the IRC. The Plan has been amended since receiving the private letter, however, the plan administrator is of the opinion that the Plan continues to fulfill the requirements of a qualified plan in compliance with applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes has been provided.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(6) Party in Interest and Related Party Transactions
