Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Clinton's Ditch Cooperative Company, Inc. Union Employees' Pension Plan
Cicero, New York

We were engaged to audit the financial statements of Clinton's Ditch Cooperative Company, Inc. Union Employees' Pension Plan as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2009 as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by ING Life Insurance and Annuity Company, the custodian, except for comparing the information contained therein, to such information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes transactions therein. The Plan Administrator has obtained certification from the custodian that the information provided by them to the Plan Administrator is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified to by the trustee, has been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UNION EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009

Note 1. Description of Plan

The Plan is a defined benefit pension plan covering the union employees of the Clinton's Ditch Cooperative Company, Inc. (the Company). Length of service is based on 1,000 hours per year. There is no minimum age or service requirements for eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and is insured by the Pension Benefit Guaranty Corporation (PBGC).

Eligible employees will be paid a monthly life annuity or a lump sum equivalent based on $39.00 multiplied by total years of service earned through December 31, 2008. Effective December 31, 2008 the plan was closed to new entrants and no additional years of service may be earned by any participant. The pre-retirement death benefit for married participants is a qualified 50% survivor annuity. There is no death benefit for unmarried participants.

The vesting schedule for eligible employees is as follows:

Year of Service	% Vested
Less than 3	0
3	20
4	40
5	60
6	80
7	100

The Company will make all Plan contributions. The normal retirement age is 65. Early retirement is age 55 with completion of 10 years of service. Disability payment will be paid to disabled participants who have 15 years of service and are eligible for Social Security disability benefits. The payment will be equal to the present value of the accrued benefit.

The plan sponsor absorbs the administrative costs of the Plan.

This summarized description of the Clinton's Ditch Cooperative Company, Inc. Union Employees' Pension Plan is intended for general information purposes only. The Plan agreement should be referenced for a complete description.

Note 2. Summary of Significant Accounting Policies

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated Plan benefits is calculated by Actuarial Pension Analysts, Inc. using the aggregate actuarial cost method. Each participant's actuarial present value is determined by taking the greater of the value obtained using actuarial equivalent assumptions or the minimum present value. The interest rate and mortality tables used in each calculation were as follows:

	2009	2008
Minimum present value:		
Interest rate	5.46%	4.89%
Mortality tables	2009 IRC 417(e)	2008 IRC 417(e)
Actuarial equivalent assumptions:		
Interest rate	5.00%	5.00%
Mortality tables	1984 Unisex	1984 Unisex

Basis of Accounting

The Plan uses the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Plan considers all money market accounts to be cash equivalents.

Concentration of Credit Risk

The Plan maintains its cash equivalents in accounts, which, at times may exceed federally insured limits. The Plan has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk on cash equivalents.

Note 2. Summary of Significant Accounting Policies (continued)

Funding Policy

The Company makes contributions to the Plan such that all employee benefits will be fully provided for upon retirement. The amounts contributed to the Plan are determined by the Company on the basis of the actuarial statements submitted by the Plan's independent actuary. These statements provide a maximum amount permitted by law or regulation as a deduction in the Company's federal income tax returns and a minimum amount certified by the independent actuary as necessary during the Plan year to avoid an accumulated funding deficiency as defined by ERISA. The Plan has met the minimum funding requirements of ERISA during the years ended December 31, 2009 and 2008.

Events Occurring After Reporting Date

The Plan has evaluated events and transactions that occurred between January 1, 2010 and September 16, 2010, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. Any material events or transactions discovered have been included in these financial statements.

Note 3. Investments

The trustees of the Plan, holds the Plan's investment assets and executes transactions therein. The following table presents the fair value of investments at December 31:

Note 3. Investments (continued)

ING Fixed Account	$	576,248	* $	123,667

* Represents investment totaling more than 5% of the Plan's net assets

During 2009 and 2008, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $723,459 and ($1,188,165) for the years ended December 31, respectively, as follows:

	2009	2008
Pooled separate accounts	$ 729,817	$ (1,194,817)
General account	(6,358)	6,652
Total	$ 723,459	$ (1,188,165)

Note 4. Fair Value Measurements

GAAP establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The fair value of the pooled separate accounts is a level 2 measurement since inputs are derived principally from observable market data. The fair value of the general account is a level 3 measurement since the inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the years ended December 31:

	2009	2008
Balance, beginning of year	$ 123,667	$ -
Interest	9,242	2,015
Unrealized gains(losses)	(6,358)	6,652
Purchases, sales, issuances, and settlements- net	449,697	115,000
Balance, end of year	$ 576,248	$ 123,667

Note 5. Plan Termination

In the event the Plan terminated, all active participants become 100% vested and the net assets of the Plan will be allocated, as prescribed by ERISA and its regulations, to provide each participant their accrued benefit as of the date of the Plan's termination.

The asset allocation order is as follows:

1. Accrued benefits attributable to employee contributions.
2. Annuity benefits, limited in certain circumstances, in pay status for at least 3 years, including benefits that are not but would have been in pay status if the participant had retired with benefits in the normal form of annuity.
3. Other vested benefits guaranteed by the PBGC.
4. All other vested benefits.
5. All other benefits.

Certain benefits of the Plan are insured by PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Note 6. Tax Status

The Plan obtained its latest determination letter on December 17, 2004, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7. Plan Amendments

Effective December 31, 2008 participation in the plan was closed to new entrants. In addition years of credited service for each participant will be limited to the number of years of credited service each participant has earned on December 31, 2008 and no additional years of service can be earned by a participant after December 31, 2008.

Note 8. Information Certified by the Custodian

As permitted by Section CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information presented below, which was certified by the custodian of the Plan, except for comparing the information with the related information included in the financial statements:

	2009	2008
Investments	$ 4,264,557	$ 3,089,762
Investments gains (losses)	723,459	(1,188,165)
Interest and dividend income	9,242	2,015

Note 9. Related Party Transactions

Plan investments include units of funds managed by affiliates of ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the custodian as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan holds an investment contract with ING Life Insurance and Annuity Company which invests in pooled separate and general accounts. These investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2009	2008
Net assets available for benefits per financial statements	$ 4,264,557	$ 3,379,294
Adjustment from fair value to contract value for investments	(293)	(6,652)
Net assets available for benefits per the Form 5500	$ 4,264,264	$ 3,372,642

The following is a reconciliation of net appreciation (depreciation) in fair value of investments per the financial statements to the Form 5500 for the year ended December 31:

	2009	2008
Net appreciation (depreciation) in fair value of investments per financial statements	$ 723,459	$ (1,188,165)
Adjustment from fair value to contract value for investments	6,359	(6,652)
Net appreciation (depreciation) in fair value of investments per Form 5500	$ 729,818	$ (1,194,817)

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB, PART V - STATEMENT OF ACTUARIAL ASSUMPTIONS/METHOD

Actuarial Cost Method

The minimum required contribution consists of two components, the Target Normal Cost and the Shortfall Amortization Payment, both determined on the valuation date. Interest (discount) adjustments are applied to contributions made toward the required contribution, if not made on the first day of the plan year, in order to determine whether minimum funding standards are satisfied.

The Target Normal Cost equals the present value of the benefits expected to accrue during the plan year. If the Actuarial Value of Plan Assets, reduced by the Funding Standard Account Carryover and Prefunding Balances (if any), is greater than the present value of benefits accrued on the valuation date (the Funding Target), the excess is used to offset the Target Normal Cost.

In general, the Shortfall Amortization Charge is a payment amortizing the excess (if any) of the Funding Ttarget over the Actuarial Value of Plan Assets (reduced by Funding Standard Carryover and Prefunding Balances). This excess (if any) is called the Funding Target Shortfall. Each year, a new shortfall amortization base is established equal to the Funding Target Shortfall minus the remaining balances of existing shorfall amortization bases for prior years. The remaining balance of an existing shortfall amortization base is the present value of the remaining amortization payments for the base determined using the IRC Section 430 Segment Interest Rates on the valuation date. The new shortfall amortization base is amortized over a period of 7 years using the IRC Section 430 Segment Interest Rates on the valuation date. The Shortfall Amortization Charge for the year is equal to the sum of the shortfall amortization payments for all bases. If there is no Funding Target Shortfall for the plan year, a new shortfall amortization base is not established and all existing shortfall amortization bases and payments for prior years are reset to zero.

A transition rule provides that, for purposes of determining whether a new shortfall amortization base is established for a plan year, and for purposes of determining the amount of the new shortfall amortization base (if required), only the applicable percentage of the Funding Target is taken into account. The applicable percentage is 92% for plan years beginning in 2008, 94% for plan years beginning in 2009, 96% for plan years beginning in 2010, and 100% for plan years beginning in 2011. This transition rule is not available to plans that did not exist prior to 2008, or to plans that were subject to the additional funding charge under IRC Section 412(l) (as it existed prior to PPA) for the plan year beginning in 2007.

Asset Valuation Method

The Actuarial Value of Assets is the net fair market value of assets on the valuation date, including receivable contributions made during the current plan year for the prior plan year, discounted with interest from the date paid to the valuation date using the effective interest rate for the prior plan year.

Actuarial Assumptions

IRC Section 430 Segment 1 Interest Rate	5.64%	(used to value benefits payable within 5 years of the valuation date)
IRC Section 430 Segment 2 Interest Rate	6.40%	(used to value benefits payable within the next 15 years)
IRC Section 430 Segment 3 Interest Rate	6.56%	(used to value benefits payable thereafter)
Effective Interest Rate	6.50%	(used to discount contributions back to the valuation date)
Quarterly Contribution Additional Interest Rate	5.00%	(used for additional discounting on late quarterly contributions)
Pre-Retirement Death Benefit Eligibility	80% of participants assumed married, with spouse same age	
Annual Salary Increases	N/A	
Pre-Retirement Turnover/Withdrawal	Table T2, with the cost to provide the vested accrued benefit added back
