Plan Administrator
Convergint Technologies LLC
401(k) Profit-Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Convergint Technologies LLC 401(k) Profit-Sharing Plan (the "Plan") as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note G, which was certified by Principal Life Insurance Company and Principal Trust Company, the custodian and trustee, respectively, of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the custodian and trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian and trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Convergint Technologies LLC 401(k) Profit-Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established on June 1, 2003, is a defined contribution plan covering all employees of Convergint Technologies LLC (the "Company") who have attained age 18. Effective January 1, 2008, the Plan was amended to allow employees who work at least 30 hours per week to become eligible to participate on the first day of the month after employment begins. All other employees must complete 1,000 hours of service during the first year to become eligible. Participants can enroll in the Plan on the first day of the month after meeting the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined by the Plan subject to Internal Revenue Code ("IRC") limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Effective March 1, 2007, employees are automatically enrolled in the Plan at a 3% pretax contribution rate unless the employee elects a higher or lower pretax contribution rate or declines participation in the Plan. Company matching and profit-sharing contributions may be contributed at the option of the Company. The Company matching contribution for the Plan year ended December 31, 2009, was equal to 30% of employee contributions up to a maximum of $6,000 of employee contributions. There were no profit-sharing contributions in 2009. Participants may direct their contributions and any Company contributions into any of the fund options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contribution, if any, and allocations of (1) any Company profit-sharing contribution, if any, and (2) Plan earnings, and charged with an allocation of applicable expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service. Forfeited non-vested account balances will be used to reduce future Company contributions.

Forfeitures

At December 31, 2009 and 2008, forfeited non-vested accounts totaled approximately $24,000 and $8,000, respectively. These amounts are used to reduce future Company contributions. There was approximately $600 of forfeitures used to reduce Company contributions in 2009.

Participant Loans

Participants may borrow from their fund accounts an amount up to the lesser of $50,000 or 50% of their vested account balances, whichever is less, reduced by the excess of the highest outstanding balance of all prior loans under all qualified plans of the Company. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest commensurate with the prevailing rate charged by lenders for a loan of a similar type. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to retirement, death, disability or separation of service, a participant or the participant's beneficiary will receive the amount equal to the value of the participant's vested interest in a lump-sum distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fully Benefit-Responsive Contacts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Adoption of New Accounting Guidance

In 2009, the Financial Accounting Standards Board ("FASB") issued updates to the initial fair value measurements and disclosures guidance that covered determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Such guidance expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB amended the fair value measurements and disclosures for investments in certain entities that calculate net asset per share (or its equivalent). The amended guidance is effective for the first reporting period ending after December 15, 2009, and expands the required disclosures for certain investments with a reported net asset value ("NAV"). The Plan has adopted both changes to the fair value measurements and disclosures guidance on a prospective basis for the year ended December 31, 2009. Adoption of this guidance did not have a material impact on the fair value determination of applicable investments. The effect of the adoption of this guidance had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits. See note D for additional disclosures required.

In January 2010, the FASB amended the fair value measurements and disclosures by adding new disclosure requirements for Level 1 and Level 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements, and clarification of existing fair value disclosures. This amended guidance is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact that this amended guidance will have on the financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Adoption of New Accounting Guidance - Continued

In July 2009, the FASB established the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). Rules and interpretive releases of the U.S. Securities and Exchange Commission ("SEC") under authority of Federal securities laws are also sources of authoritative US GAAP for SEC registrants. The ASC supersedes all existing non-SEC accounting and reporting standards and is not intended to change US GAAP. The use of the ASC was effective for financial statements issued for periods ending after September 15, 2009.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in administering the Plan are paid by the Plan. All other expenses are paid by the Company.

NOTE C - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2009	2008
Principal Stable Value Fund*	$705,188	$547,701
Principal Lifetime 2030	795,709	454,782
Principal Lifetime 2040	682,964	229,589
Principal Mid-Cap Value	603,041	414,706
American Funds Fundamental Inv. Fund	860,075	657,873
American Funds Growth Fund	556,881	328,126
PIMCO Total Return Fund	610,186	517,749
T. Rowe Price Cap Appreciation Fund	582,848	329,037

*Represents contract value. Fair value of this investment as of December 31, 2009 and 2008, is $709,954 and $522,130, respectively.

During 2009, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value by $1,617,942 as follows:

Pooled separate accounts	$ 713,163
Mutual funds	904,779
	$1,617,942

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology, including the following:

- Quoted market prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure assets at fair value:

Mutual funds - Valued at the NAV of shares held by the Plan at year-end.

Pooled separate accounts - Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying securities, minus liabilities, and then divided by the number of units held by the Plan at year-end. Redemptions are permitted daily except for the U.S. Property Fund, which has certain redemption restrictions as noted below.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Collective trust - Valued at the NAV provided by the administrator of the investment. The NAV is based on the value of the underlying securities, minus liabilities, and then divided by the number of units held by the Plan at year-end. The fund allows for daily liquidity with no additional days' notice required for redemption for participant-directed transactions at the constant NAV of $1 per unit. Were the Plan to initiate a full redemption of this fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly manner.

Participant loans - Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2009

Total assets at fair value	$4,333,198	$4,124,411	$768,657	$9,226,266

NOTE D - FAIR VALUE MEASUREMENTS - Continued

(a) Growth funds seek to maximize the value of savings over time by investing in the stocks of companies that have a strong potential for providing above-average earnings growth.

(b) Blended funds seek to increase the value of savings over time by investing in a combination of stocks of companies that have potential for strong earnings growth and stocks of companies that are priced below their expected long-term worth. The Plan offers blended funds in two major categories - domestic and target date. Domestic blended funds invest the majority of assets in stocks of companies in the United States. Target-date blended funds invest in a mix of stocks in the United States and abroad, bonds and short-term investments in order to meet the individual investee's lifestyle, financial needs and investment risk.

(c) Income funds are generally composed of investment options that invest in bonds or debt of a company or government entity (including U.S. and non-U.S.). Income funds may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including for real estate investment options and liquidity risk), but less overall risk than equities. The U.S. Property Fund invests primarily in real estate, including commercial, office buildings and rental properties. Effective September 21, 2008, Principal restricted all withdrawals from this fund. This restriction is expected to last no later than September 26, 2011. Effective January 30, 2010, this fund began making certain partial payments.

(d) The collective trust - stable value fund seeks current income by investing primarily in insurance contracts issued by insurance companies and investments from other financial institutions that offer stability of principal.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table includes a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2009:

	Pooled separate accounts	Participant loans
Balance, beginning of year	$ 276,489	$282,294
Unrealized losses relating to instruments still held at the reporting date	(113,463)	-
Purchases, sales, issuances and settlements, net	130,741	192,596
Balance, end of year	$ 293,767	$474,890

NOTE E - RELATED-PARTY TRANSACTIONS

Certain investments are managed by Principal Life Insurance Company and Principal Trust Company, the custodian and trustee of the Plan, respectively, and, therefore, these transactions qualify as party-in-interest transactions.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in any Company contributions.

NOTE G - INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Principal Trust Company, the custodian and trustee of the Plan, respectively, as of December 31, 2009, have certified that the following data included in the financial statements is complete and accurate:

NOTE G - INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEE - Continued

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.

- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2009.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 2, 2005, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
