To the Participants and Administrator of
The McGuire Group 401(k) Plan

We were engaged to audit the financial statements of The McGuire Group 401(k) Plan as of December 31, 2009 and 2008 and for the years then ended and the supplemental schedules as of and for the years ended December 31, 2009 and 2008 as listed in the accompanying Table of Content. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by ING, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE MCGUIRE GROUP
401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. - DESCRIPTION OF THE PLAN

The following description of The McGuire Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees who have one year of service, are age twenty-one or older, meet the minimum service hours requirement and are not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is funded by employee and employer contributions. Broker commissions and administrative expenses associated with investment transactions are deducted directly from the investment funds daily by ING when arriving at their current market value. Loan setup fees are charged directly against the participant accounts. The plan sponsor pays all other administrative expenses of the plan. The assets of the Plan are maintained in investment funds held by ING.

Contributions - Participants can contribute the annual maximum amounts as provided by the Internal Revenue Code. Participants under 50 years of age as of December 31, 2009 may contribute up to $16,500, participants 50 years and older can contribute $22,000 for 2009 ($15,500 and $20,500 - 2008). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes a 50% matching contribution to the first 5% of base compensation that the participant contributes to the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after four years of credited service.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator at the time of the loan. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If their account balance is in excess of $1,000, the participant may elect to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Forfeited Accounts - At December 31, 2009, forfeited non-vested accounts totaled $11,864 ($7,774 - 2008). These accounts will be used to reduce future employer contributions. Also, in 2009, the employer contributions were reduced by $0 ($8,000 - 2008) from forfeited non-vested accounts.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from the fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Date of Management's Review - Subsequent events were reviewed through October 7, 2010, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments including of mutual funds held by the Plan at year-end. Participant Loans are valued at their outstanding balance, which approximates fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar investments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits - Benefits are recorded when paid.

Operating Expenses - All expenses of maintaining the Plan are paid by the Plan Sponsor.

NOTE 3. - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statement of net Assets Available for Benefit. The Methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2009			
Mutual Funds	$ 13,691,960	$ 13,691,960	$ -
Money Market Fund	692,658	692,658	
Investment Contract with Insurance Company	5,306,428		5,306,428
Participant Loans	44,466		44,466
Total	$ 19,735,512	$ 14,384,618	$ 5,350,894
December 31, 2008			
Mutual Funds	$ 10,013,628	$ 10,013,628	$ -
Money Market Fund	3,054	3,054	
Investment Contract with Insurance Company	6,273,425		6,273,425
Participant Loans	51,657		51,657
Total	$ 16,341,764	$ 10,016,682	$ 6,325,082

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This Hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements - the fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE 3. - FAIR VALUE MEASUREMENTS (Continued)

Level 3 Fair Value Measurements - The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by considering the guaranteed account interest rate of 3% and discounting the related cash flows based on the 7-year Treasury bond rate. The fair value of participant loans approximates the amortized cost of the loans as the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

	Investment Contract	Participant Loans	Total
December 31, 2009			
Beginning balance	$ 6,273,425	$ 51,657	$ 6,325,082
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	(405,540)	-	(405,540)
Purchases, sales, issuances, and settlements (net)	(561,457)	(7,191)	(568,648)
Ending balance	$ 5,306,428	$ 44,466	$ 5,350,894
December 31, 2008			
Beginning balance	$ 5,047,544	$ 68,972	$ 5,116,516
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	538,631	-	538,631

Ending balance	$ 6,273,425	$ 51,657	$ 6,325,082

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

Oppenheimer Global Fund	1,073,908	< 5%
The Income Fund of America	<5%	908,661

NOTE 5. - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2009 and 2008, the Plan had a benefit-responsive investment contract with ING Life Insurance and Annuity Company. ING maintains the contributions in the ING Fixed general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the new asset available for benefits attributable to the guaranteed investment contract. Contract value, as reported by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves recorded against contract value for credit risk of the contract issuer or otherwise. The fair value to the investment contract at December 31, 2009 was $5,306,428 ($6,273,425 - 2008). The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than three percent. Such rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (3) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participant are probable of occurring.

NOTE 6. - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING. ING is a fiduciary as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Commissions paid by the Plan to ING Life Insurance and Annuity Company for 2009 amounted to $34,143 ($11,600 - 2008).

NOTE 7. - PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8. - TAX STATUS

The Plan obtained its latest determination letter on October 24, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9. - RISKS AND UNCERTAINTIES

The plan participants invest in various investment securities (mutual funds). These investments are exposed to various risks such as rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at lease reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of new asset available for benefits.

NOTE 10. - SUBSEQUENT EVENTS

Effective February 1, 2010, the Plan Employers elected to discontinue their matching contribution.

On February 5, 2010 the Plan replaced the ING Fixed Account with the ING Stable Value Fund. Participant accounts with a contract value totaling $3,642,074 were transferred from the Fixed Account to the ING Stable Value Fund at the current market rate of $3,612,519 or approximately 99.19%.

NOTE 11. - FINANCIAL CERTIFICATION

Financial information relating to the Plan's assets at December 31, 2009 and 2008, as well as investment income and investment transactions for the year then ended, have been derived from information provided by ING Aetna Financial Services, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.
