CALAMOS
PROFIT SHARING 401(k) PLAN
Notes to Financial Statements

(1) Description of Plan

The following description of the Calamos Profit Sharing 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established by Calamos Holdings LLC and affiliates (collectively, the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Orchard Trust Company, LLC (the Trustee) is the trustee of the Plan.

(b) Employee Contributions, Withdrawals, and Notes Receivable from Participants

Participants in the Plan are permitted to make contributions each payroll period up to a maximum annual amount of $16,500 in 2010. The Plan also permits eligible employees to make additional elective deferrals to the Plan known as "catch-up" contributions, as permitted under Federal income tax provisions.

A participant may not withdraw participant contributions until reaching the age of 59-1/2 unless hardship can be proven to the Benefits Administration Committee. Withdrawals due to retirement, death, permanent disability and termination of employment are provided for as defined within the Plan and are subject to Federal income tax provisions.

A participant may also request a loan on before and after-tax contributions subject to the limitations set forth in the Plan. All loans are secured by the participant's account balance and generally repaid through payroll deductions. Interest rates charged on these loans are fixed at the loan date and are calculated using the prime interest rate plus 1%. Interest rates on loans outstanding at December 31, 2010 range from 4.25% to 9.25%. Interest paid on outstanding loans is contributed to the participant's account.

(c) Employer Contributions

The Company contributes both a matching amount and a discretionary profit sharing amount. The Company matching amount consists of 50% of each eligible participant's before and after-tax contributions, not to exceed 3% of total compensation. At the end of each plan year, the Company may also contribute a discretionary profit sharing amount on behalf of each participant employed on the last day of the year, subject to hours of service requirements set forth in the Plan. The profit sharing amount is a percentage of the participant's eligible compensation and is directed by the plan sponsor in non-participant directed investments (the Profit Sharing Component).

Contributions are recorded on an accrual basis. Participants who terminate employment with a partially vested interest in their employer account balances forfeit the rights in such nonvested account balances. Forfeitures may be used to pay administrative expenses of the Plan or to reduce Company contributions. For the year ended December 31, 2010, nonvested accounts totaling $546,050 were forfeited of which $427,339 were used to reduce employer matching contributions. In February 2011, the Company funded $3,128,787 to the Profit Sharing Component of which $411,848 were forfeitures.

(d) Participation and Vesting

In accordance with the provisions of the Plan, each employee who is at least 20 1/2 years of age is eligible to participate in the Plan without regard to years of service. Employees are eligible for profit sharing benefits after completing 1,000 hours of service within twelve months.

Employees are fully vested in their own contributions. All employees participating in the Company match program at the end of 2003 were automatically 100% vested in the employer matching contributions, including future contributions. Any employee hired after January 1, 2004 is subject to the vesting schedule shown below for the employer matching contributions. All participants vest in employer discretionary profit sharing contributions are also subject to the vesting schedule below:

	Percent vested
Less than two years	— %
Two years, but less than three	20
Three years, but less than four	40
Four years, but less than five	60

Six years or more	100

Employees will be vested 100% through death, total and permanent disablement, or if they leave service with the Company at age 65 or over.

(g) Payment of Benefits

Payments of benefits are in the form of lump sum distributions and are recorded when paid.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation and Income Recognition

Plan investments are stated at fair value. Investments include mutual funds shares, which are recorded at the net asset value of the fund. Investments held in the Profit Sharing Component consist of various mutual funds and are valued based on the net asset value of each respective mutual fund.

Purchases and sales of investments are recorded on a trade date basis. The cost of investments is determined using the specific identification method. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Deliquent loans are treated as distributions based upon terms of the Plan document.

(d) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, the reported amounts of changes in net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(3) Investments

Investments that represent 5% or more of net assets available for benefits are as follows:

	December 31, 2010	December 31, 2009
Calamos Growth Fund, Class I	$ 12,772,337	$ 12,048,638
Calamos International Growth Fund, Class I	9,231,315	7,573,665
Calamos Growth and Income Fund, Class I	8,887,280	8,689,095
Calamos Global Growth and Income Fund, Class I	7,465,254	7,333,368
Calamos Evolving World Growth Fund, Class I	3,351,919	N/A

Calamos Value Fund, Class I	N/A	4,199,028
Calamos Blue Chip Fund, Class I	N/A	3,677,607

(4) Information Certified or Provided by the Trustee

The Company, as plan administrator, has elected the method of compliance as permitted by 29 CFR 250.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

	December 31, 2010	December 31, 2009
Mutual funds	$ 58,791,744	$ 53,426,843
Notes receivable from participants	519,828	406,911

The Trustee also certified to the completeness and accuracy of $7,179,710 of net appreciation in fair value of the investments and $580,552 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2010.

(5) Fair Value Measurements

The fair values of certain assets and liabilities are segregated into a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows: Level 1 – observable inputs such as quoted prices in active markets; Level 2 – inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and Level 3 – unobservable inputs in which there is little or no market data, and require the reporting entity to develop its own assumptions.

Investments are presented in the financial statements at fair value in accordance with accounting principles generally accepted in the United States of America. Investments in mutual funds are stated at fair value based on published net asset values of shares owned by the Company and, therefore, classified as level 1 in the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The following provides the hierarchy of inputs, set forth by level, used to derive the fair value of the Plan's investments as of December 31, 2010 and 2009.

Information about the net assets and significant components of the changes in net assets relating to the non-participant directed assets, as of and for the year ended December 31, 2010 and 2009, is as follows:

(7) Related Party Transactions

The Plan invests in mutual funds managed by the Company from which the Company receives investment management fees; therefore, these investments qualify as party-in-interest transactions. During 2010, the

Company received investment management fees ranging from 0.55% to 1.10% of the average daily net assets of each fund that it manages.

(8) Plan Termination or Modification

While the Company has not indicated an intent to terminate or modify the Plan, the Company has the right under the Plan to modify or terminate the Plan at any time subject to the provisions of ERISA. However, the Company may not retroactively reduce the share of any participant or cause the Plan's assets to revert to the Company unless required by law. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

(9) Income Tax Status

The Plan adopted a prototype plan document sponsored by the Trustee. The Trustee received an opinion letter from the Internal Revenue Service (the IRS), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code and any employer adopting this prototype plan will be considered to have a plan qualified by the IRS. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

(10) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities may occur in the near term and such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits and changes therein.

(11) Subsequent Events

The Company has evaluated subsequent events through July 27, 2011, which is the date the statements were available to be issued.

(12) Recently Issued Accounting Pronouncements

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans,* which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid balance. The amendment was effective for periods ending after December 15, 2010. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $519,828 and $406,911 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009.

CALAMOS
PROFIT SHARING 401(k) PLAN
Notes to Financial Statements

(1) Description of Plan

The following description of the Calamos Profit Sharing 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established by Calamos Holdings LLC and affiliates (collectively, the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Orchard Trust Company, LLC (the Trustee) is the trustee of the Plan.

(b) Employee Contributions, Withdrawals, and Notes Receivable from Participants

Participants in the Plan are permitted to make contributions each payroll period up to a maximum annual amount of $16,500 in 2010. The Plan also permits eligible employees to make additional elective deferrals to the Plan known as "catch-up" contributions, as permitted under Federal income tax provisions.

A participant may not withdraw participant contributions until reaching the age of 59-1/2 unless hardship can be proven to the Benefits Administration Committee. Withdrawals due to retirement, death, permanent disability and termination of employment are provided for as defined within the Plan and are subject to Federal income tax provisions.

A participant may also request a loan on before and after-tax contributions subject to the limitations set forth in the Plan. All loans are secured by the participant's account balance and generally repaid through payroll deductions. Interest rates charged on these loans are fixed at the loan date and are calculated using the prime interest rate plus 1%. Interest rates on loans outstanding at December 31, 2010 range from 4.25% to 9.25%. Interest paid on outstanding loans is contributed to the participant's account.

(c) Employer Contributions

The Company contributes both a matching amount and a discretionary profit sharing amount. The Company matching amount consists of 50% of each eligible participant's before and after-tax contributions, not to exceed 3% of total compensation. At the end of each plan year, the Company may also contribute a discretionary profit sharing amount on behalf of each participant employed on the last day of the year, subject to hours of service requirements set forth in the Plan. The profit sharing amount is a percentage of the participant's eligible compensation and is directed by the plan sponsor in non-participant directed investments (the Profit Sharing Component).

Contributions are recorded on an accrual basis. Participants who terminate employment with a partially vested interest in their employer account balances forfeit the rights in such nonvested account balances. Forfeitures may be used to pay administrative expenses of the Plan or to reduce Company contributions. For the year ended December 31, 2010, nonvested accounts totaling $546,050 were forfeited of which $427,339 were used to reduce employer matching contributions. In February 2011, the Company funded $3,128,787 to the Profit Sharing Component of which $411,848 were forfeitures.

(d) Participation and Vesting

In accordance with the provisions of the Plan, each employee who is at least 20 1/2 years of age is eligible to participate in the Plan without regard to years of service. Employees are eligible for profit sharing benefits after completing 1,000 hours of service within twelve months.

Employees are fully vested in their own contributions. All employees participating in the Company match program at the end of 2003 were automatically 100% vested in the employer matching contributions, including future contributions. Any employee hired after January 1, 2004 is subject to the vesting schedule shown below for the employer matching contributions. All participants vest in employer discretionary profit sharing contributions are also subject to the vesting schedule below:

	Percent vested

Payments of benefits are in the form of lump sum distributions and are recorded when paid.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation and Income Recognition

Plan investments are stated at fair value. Investments include mutual funds shares, which are recorded at the net asset value of the fund. Investments held in the Profit Sharing Component consist of various mutual funds and are valued based on the net asset value of each respective mutual fund.

Purchases and sales of investments are recorded on a trade date basis. The cost of investments is determined using the specific identification method. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Deliquent loans are treated as distributions based upon terms of the Plan document.

(d) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, the reported amounts of changes in net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(3) Investments

Investments that represent 5% or more of net assets available for benefits are as follows:

	December 31, 2010	December 31, 2009
Calamos Growth Fund, Class I	$ 12,772,337	$ 12,048,638
Calamos International Growth Fund, Class I	9,231,315	7,573,665
Calamos Growth and Income Fund, Class I	8,887,280	8,689,095

Calamos Value Fund, Class I	N/A	4,199,028
Calamos Blue Chip Fund, Class I	N/A	3,677,607

(4) Information Certified or Provided by the Trustee

The Company, as plan administrator, has elected the method of compliance as permitted by 29 CFR 250.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

	December 31, 2010	December 31, 2009
Mutual funds	$ 58,791,744	$ 53,426,843
Notes receivable from participants	519,828	406,911

The Trustee also certified to the completeness and accuracy of $7,179,710 of net appreciation in fair value of the investments and $580,552 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2010.

(5) Fair Value Measurements

The fair values of certain assets and liabilities are segregated into a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows: Level 1 – observable inputs such as quoted prices in active markets; Level 2 – inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and Level 3 – unobservable inputs in which there is little or no market data, and require the reporting entity to develop its own assumptions.

Investments are presented in the financial statements at fair value in accordance with accounting principles generally accepted in the United States of America. Investments in mutual funds are stated at fair value based on published net asset values of shares owned by the Company and, therefore, classified as level 1 in the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The following provides the hierarchy of inputs, set forth by level, used to derive the fair value of the Plan's investments as of December 31, 2010 and 2009.

Company received investment management fees ranging from 0.55% to 1.10% of the average daily net assets of each fund that it manages.

(8) Plan Termination or Modification

While the Company has not indicated an intent to terminate or modify the Plan, the Company has the right under the Plan to modify or terminate the Plan at any time subject to the provisions of ERISA. However, the Company may not retroactively reduce the share of any participant or cause the Plan's assets to revert to the Company unless required by law. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

(9) Income Tax Status

The Plan adopted a prototype plan document sponsored by the Trustee. The Trustee received an opinion letter from the Internal Revenue Service (the IRS), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code and any employer adopting this prototype plan will be considered to have a plan qualified by the IRS. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

(10) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities may occur in the near term and such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits and changes therein.

(11) Subsequent Events

The Company has evaluated subsequent events through July 27, 2011, which is the date the statements were available to be issued.

(12) Recently Issued Accounting Pronouncements

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans,* which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid balance. The amendment was effective for periods ending after December 15, 2010. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $519,828 and $406,911 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009.
