Plan Administrator
Rio Grande 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Rio Grande 401(k) Plan (the "Plan") as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by State Street Bank and Trust and ADP, Inc. as an agent for JP Morgan Chase Bank, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that State Street Bank and Trust held the certified Plan assets and executed the related transactions from June 25, 2010 to December 31, 2010, and that JP Morgan Chase Bank held the certified Plan assets and executed the related transactions as of December 31, 2009 and for the period January 1, 2010 to June 24, 2010. The Plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

Note A – Plan description and summary of significant accounting policies

The following description of Rio Grande Mexican Restaurant (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution pension plan established November 1, 1999, most recently amended effective June 15, 2010. The Plan covers all employees of the Company who have completed 1,000 hours of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective June 15, 2010, State Street Bank and Trust ("State Street" or "Trustee"), replaced JP Morgan Chase Bank ("JP Morgan") as trustee. Plan participants are offered a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Adoption of new accounting standard

In September 2010, the FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified notes receivable from participants of $73,253 for the year ended December 31, 2009 from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

Contributions

Eligible participants may make contributions between 1% and 90% of their annual compensation defined by the Plan agreement, subject to an annual Internal Revenue Code ("IRC") limit. Employee contributions are made through regular payroll deductions. A participant's annual contribution may not exceed the maximum amount allowed under the IRC, which was $16,500 for 2010 and 2009. Participants may also make rollover contributions to the Plan representing distributions from other qualified retirement plans. There is no limitation on the amount of rollover contributions a participant may make to the Plan.

The Company provides a discretionary match. For 2010, the Company matched 50% of the employee's contribution up to 5%. Additional amounts may be contributed at the discretion of the Company's Board of Directors. No additional discretionary contributions were made by the Company in 2010. Effective January 1, 2011 the Company match was eliminated.

All participants 50 years of age or older on December 31 of each year are eligible to make additional catch-up contributions, subject to IRS limitations. A catch-up contribution can be made if the eligible participant made the maximum contribution permitted by the IRC for the year. The limit for catch-up contributions was $5,500 in 2010 and 2009.

Note A – Plan description and summary of significant accounting policies (continued)

Investment options

Upon enrollment into the Plan, a participant may direct their employee contributions and employer match in any whole percentage increment to any of the investment fund options offered by the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan and participants may change their allocation on a daily basis. State Street maintains participant contributions in pooled separate accounts.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) Plan earnings and losses and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Notes receivable from participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the excess (if any) of (i) the highest outstanding balance of loans from the Plan during the twelve (12) month period ending on the day before the loan is made, over (ii) the outstanding balance of loans from the Plan on the date the loan is made or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined by the Plan administrator in accordance with the Plan document. Principal and interest is paid ratably through bi-weekly payroll deductions over a term not to exceed five years. If the loan is for the purchase of a primary residence, the loan may extend beyond five years. The repayment term may not extend beyond a period longer than the repayment period consistent with commercial practices.

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Vesting

Participants are immediately vested in their contributions plus allowed Plan earnings thereon. Vesting in the remainder of their account (i.e., employer contributions plus Plan earnings or losses thereon) is based on years of service, as follows:

Years of service	Percent vested
Less than 1 year	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

The exception to this vesting schedule is when the employee terminates on or after early (age 55 with 3 years of service) or normal retirement age (age 65), at which time the employee becomes fully (100%) vested.

Note A – Plan description and summary of significant accounting policies (continued)

Forfeitures

Participants who terminate employment prior to becoming fully vested in the employer contribution portion of their account forfeit non-vested amounts. Amounts forfeited during a Plan year are first used to reduce employer contributions. Administrative expenses and employer matching contributions were reduced by $1,220 and $675 in 2010 and 2009. As of December 31, 2010 and 2009, the Plan had no unallocated balances.

Payment of benefits

Payment of benefits are generally permitted upon death, disability, retire, or termination of service. Additionally, participants may request an in-service distribution from all accounts upon age 59½. If the vested account balance does not exceed $5,000, participants will receive a single lump-sum payment. If the vested account balance exceeds $5,000, participants' vested account balance will be transferred to an E*Trade account. Benefits are recorded as distributions to participants when paid. There are no participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2010.

Basis of presentation and use of estimates

The preparation of financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities at the date of the financial statements and the reported changes in net assets available for plan benefits during the reporting period. Accordingly, actual results could differ from those estimates.

Risks and uncertainties

The Plan provides for various investment securities, which, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Valuation of investments

The Plan's investments in pooled separate accounts and common collective trusts are stated at fair value based on quoted market prices of the net asset value of shares held by the Plan at year-end.

Expenses

Administrative expenses are paid by the participants and the employer. Forfeitures are used to reduce employer contributions.

Note B – Internal revenue service status

The Internal Revenue Service has determined and informed the Trustee by a letter dated August 7, 2002, that the Prototype Non-standardized Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes is necessary.

Note C – Information certified by the agent on behalf of the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, State Street Bank and Trust and ADP, Inc. as an agent for JP Morgan Chase Bank, the trustees of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Schedule H, line 4i – schedule of assets (held at year end) as of December 31, 2010.

Note D – Fair value measurement

The Company follows a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted process for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts

Valued at net asset value ("NAV") of shares held by the plan at year end.

Common collective trusts

Valued at NAV based on information reported by the fund's trustee.

Note D – Fair value measurement (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participants are able to change the investment allocations on a daily basis subject to market timing (redemption fee) and excessive trading restrictions on specific investments. These restrictions are detailed on the ADP plan website, which all participants have access to.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	As of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,788,259	$ -	$ 1,788,259

Total assets at fair value	$ -	$ 1,727,120	$ -	$ 1,727,120

Note E – Related party transactions

Certain plan instruments were managed by State Street and JP Morgan. JP Morgan was the asset trustee until June 14, 2010, as defined by the Plan. Beginning June 15, 2010, State Street replaced JP Morgan as investment manager and trustee. Therefore, State Street and JP Morgan transactions qualify as party-in-interest transactions.

Note F – Reconciliation of financial statements to form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	As of December 31,

Less: prior year deemed distributed loans	1,220
Net income per the Form 5500	$ 454,536

Note G – Plan termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note H – Subsequent events

These financial statements considered subsequent events through July 29, 2011 the date the financial statements were available to be issued. Effective January 1, 2010, the discretionary employer match was eliminated.
