INDEPENDENT AUDITORS' REPORT

Plan Administrator
PARKHOUSE TIRE SERVICE, INC. 401(k) PLAN AND TRUST
Bell Gardens, CA

We were engaged to audit the statements of net assets available for benefits of the Parkhouse Tire Service, Inc. 401(k) Plan and Trust (the "Plan") as of December 31, 2009 and 2008, and the statement of changes of net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company (U.S.A.), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and 2008 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the Parkhouse Tire Service, Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General - The Plan is a defined contribution plan sponsored by Parkhouse Tire Service, Inc. (the "Employer") for the benefit of its full-time employees who are age twenty-one or older and have completed at least 1,000 hours of service during the plan year. Eligibility to receive Employer matching contributions is based on completing at least 1,000 hours of service during the plan year and being employed by the Employer on the last day of the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan amendment - Effective January 1, 2009, the Plan was restated and changed the name of the Plan from the Employees' 401(k) Plan of Parkhouse Tire Service, Inc. to the Parkhouse Tire Service, Inc. 401(k) Plan and Trust. In addition, the Plan no longer allows for discretionary profit sharing contributions.

Contributions - Under the terms of the Plan, eligible employees may elect to defer up to 12% of their pretax annual compensation, limited to a maximum annual amount specified by the Internal Revenue Service. The maximum employee contributions were $16,500 and $15,500 for 2009 and 2008, respectively, plus a catch-up provision of $5,500 and $5,000 in 2009 and 2008, respectively, for those eligible participants who attained age 50 by year end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Employer may make matching contributions to the Plan at its discretion. The Employer provided no matching contributions as of December 31, 2009.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and guaranteed interest accounts as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution, the Employer matching contribution, and allocations of plan earnings and administrative expenses. Allocations are based on participant account balances as defined in the Plan. The benefits to which a participant ultimately is entitled is the value of the participant's account, subject to vesting provisions, upon separation from the Plan or retirement.

Vesting - Participant contributions plus actual earnings thereon are 100% vested immediately. Employer contributions vest 20% at the end of the second year of service and 20% each year thereafter, until the end of year six at which time they become 100% vested.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account

(1) Description of plan (continued)

balance. The maximum loan term is 5 years, or up to 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates determined by the plan administrator based on the prime rate as listed in the Wall Street Journal on the first business day of each quarter plus an additional 2%. Interest rates at December 31, 2009 range from 5.25% to 10.25%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - In the event of normal retirement, disability or death, the participant's vested account will be distributed in a single distribution or an annuity not to exceed the participant's life expectancy. Benefit payments upon the death of a participant are made either to the beneficiary or the legal representative. For termination of service due to other reasons, participants may elect to receive the value of the vested interests in their account as a lump-sum, in installments, or as an annuity, as defined in the Plan. All withdrawals are subject to the limits specified in the Plan and by the Internal Revenue Code.

Hardship withdrawals - Participants may submit a written application to the plan administrator for a hardship distribution if experiencing an immediate and heavy financial need. The amount of the hardship distribution cannot exceed the amount of the need and is only available if Internal Revenue Service regulations for hardship withdrawal are met. Participants who receive hardship distributions are not allowed to make contributions for 6 months following the distribution.

Forfeited accounts - At December 31, 2009 and 2008, forfeited nonvested accounts totaled $1,141 and $3,102, respectively. Forfeitures may be used to pay Plan expenses as determined by the plan administrator or reduce discretionary Employer contributions, if any. The 2008 forfeitures reduced the 2008 Employer contributions paid in 2009.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements - In June 2009, the Financial Accounting Standards Board ("FASB") issued new guidance which establishes the FASB Accounting Standards Codification ("Codification") as the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP"). The Codification itself did not change GAAP. Following the Codification, the FASB will no longer issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts; instead, the FASB will issue

(2) Summary of significant accounting policies (continued)

Accounting Standards Updates. Accounting Standards Updates will not be authoritative in their own right as they will only serve to update the Codification. Other than the manner in which new accounting guidance is referenced, the adoption of the Codification for the year ended December 31, 2009 had no impact on the Plan's financial statements.

In April 2009 and September 2009, the FASB issued new guidance included within Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*. This guidance (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The new guidance was effective for fiscal years and interim periods ending after June 15, 2009. The adoption of this guidance did not have a material effect on the Plan's financial statements.

In May 2009 and February 2010, the FASB issued new guidance included within ASC Topic 855, *Subsequent Events*, which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The new guidance was effective for fiscal years and interim periods ending after June 15, 2009. The adoption of this guidance did not have a material effect on the Plan's financial statements.

In January 2010, the FASB issued new guidance included within ASC Topic 820, *Fair Value Measurements and Disclosures*, which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability

(2) Summary of significant accounting policies (continued)

in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Substantially all expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion, elects to pay all or part of these expenses. These expenses include loan processing fees, and fees to the trustee, third party administrator, and auditors. Expenses paid by the Employer are not included in the statement of changes in net assets available for benefits.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2009	2008
Lifestyle Balanced	$ 1,566,149	$ 1,169,790
Lifestyle Growth	1,149,861	843,823
Money Market Fund	439,976	550,157
Lifestyle Moderate	404,092	342,188

During 2009, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,255,250.

(4) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the trustee of the Plan, has certified that the following data included in the accompanying 2009 and 2008 financial statements and supplemental schedule are complete and accurate with respect to investments:

- Pooled separate accounts at fair value
- Participant loans
- Cash
- Net appreciation in fair value of investments
- Interest
- Schedule of assets (held at end of year)

(4) Information prepared and certified by the trustee (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC Topic 820 (formerly SFAS No. 157), *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end as provided by the trustee. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fee. The investment management fee is deducted prior to setting the daily unit value.

Guaranteed interest accounts: Valued at fair value which represents contributions made under the contract, plus interest, less participant withdrawals and administrative expenses. If written instructions are not received 30 days prior to maturity date, the maturing amount will automatically reinvest in a guaranteed interest account of the same term. Reinvested amounts will be treated as new contributions for investment purposes.

(5) Fair value measurements (continued)

Participant loans: Valued at their outstanding balance, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	Investments at Fair Value as of December 31, 2009

(5) Fair value measurements (continued)

The tables below set forth a summary of changes in the fair value of the Plan's level 3 investments for the years ended December 31, 2009 and 2008:

	Year Ended December 31, 2009	
	Guaranteed Interest Accounts	Loans to Participants
Balance, beginning of year	$ 120,945	$ 186,957
Interest	5,644	17,715
Purchases, issuances, repayments, and settlements	133,843	181,503
Balance, end of year	$ 260,432	$ 386,175

	Year Ended December 31, 2008	
	Guaranteed Interest Accounts	Loans to Participants
Balance, beginning of year	$ 65,498	$ 183,158
Interest	2,973	15,588
Purchases, issuances, repayments, and settlements	52,474	(11,789)
Balance, end of year	$ 120,945	$ 186,957

(6) Related party transactions

Certain plan investments are shares of pooled separate accounts and guaranteed interest accounts managed by John Hancock. John Hancock is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management and recordkeeping services amounted to $21,937 for the year ended December 31, 2009.

(7) Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(8) Tax status

The Plan is qualified under applicable provisions of the Internal Revenue Code and is not subject to federal and state income taxes. Participating employees are not subject to federal and state income taxes on employer and participant contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The Internal Revenue Service has determined and informed the Employer by letter dated May 27, 2009, that the Plan (as restated February 16, 2009) is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore no provision for taxes has been included in the Plan's financial statements.

(9) Risks and uncertainties

The Plan provides for a variety of options in investment securities. Investment securities are exposed to various risks including interest rate, market and credit risk. Due to the level of risk of the investment securities and the level of uncertainty related to the change in value of the securities, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(10) Subsequent events

The Plan has evaluated subsequent events through October 8, 2010 which is the date the financial statements were issued.
