INDEPENDENT AUDITORS' REPORT

Plan Administrator and Committee
Alpine Lumber Company Employee Stock Ownership Plan
Westminster, Colorado

We have audited the accompanying statements of net assets available for benefits of Alpine Lumber Company Employee Stock Ownership Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1 - Description of the Plan

The following brief description of the Alpine Lumber Company Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for complete information.

Alpine Lumber Company (the "Company") modified its profit sharing plan originally adopted on November 1, 1983 and became the sponsor of an employee stock ownership plan ("ESOP") effective June 8, 1989. The Plan is designed to comply with Section 4795(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Alpine Lumber Company ESOP Administrative Committee ("Administrative Committee") consisting of one or more individuals appointed by the Company's Board of Directors.

The Plan purchased Alpine Lumber Company Common Stock ("Common Stock") shares using the proceeds of bank borrowings guaranteed by the Company and holds the stock in a trust established under the Plan. The borrowings were repaid by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Employees of the Company are generally eligible to participate in the Plan on the first day of the Plan year following their employment date. Participants who work 1,000 hours or more during the Plan year and are employed on the last day of the Plan year are eligible for Company contributions in that Plan year.

A participant's unvested interest in his or her account is forfeited at the end of the earlier of the Plan year in which the participant receives a distribution of his or her vested interest in his or her account, or the Plan year in which the participant incurs a five-year break in service. Effective February 1, 2002, forfeitures occurring during a Plan year that are not used to restore the accounts of rehired participants or missing individuals are used to reduce Company contributions. For the Plan years ended December 31, 2010 and 2009, total Plan benefits forfeited and recontributed were $75,382 and $74,609, respectively.

Note 1 - Description of the Plan (continued)

Eligible participants receive benefits equal to the vested amount of his or her account balance. Distributions are made in accordance with Plan provisions. Generally, no distributions from the Plan are made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representative), becomes disabled, or otherwise terminates employment with the Company. Pre-February 1, 1989 shares require spousal consent regarding annuity distributions, whereas post-January 31, 1989 shares do not require spousal consent regarding annuity distributions. Distributions are also allowed for certain participants age 55 or over for diversification subject to certain limitations as prescribed by the Plan, Department of Labor regulations, and the Code. Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. During 2010 and 2009, the Plan repurchased from participants 3,213 and 2,983 shares, respectively, at a price determined from an independent appraisal.

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which a participant has not given instructions, but the trustee does vote the unallocated shares, if any.

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will vest 100% and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

If a participant's employment with the Company ends for any reason other than retirement, disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 10% per year of service for the first two years and 20% per year of service for the next four years, becoming 100% vested after six years of service.

Note 2 - Significant Accounting Policies

The financial statements of the Plan are prepared using the accrual method of accounting.

Cash and Cash Equivalents

All highly liquid instruments purchased with an original maturity of three months or less are considered to be cash equivalents.

Note 2 - Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Alpine Lumber Company Common Stock Valuation

The shares of Common Stock of the Company are valued at fair market value. Fair market value is determined based on an independent appraisal of value as approved by the Plan trustee, Administrative Committee, Board of Directors, and the shareholders. This appraisal was based upon a combination of the adjusted book value and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, and estimated fair value of Company assets and liabilities. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Recognition

Net appreciation or depreciation in fair value of investments is reflected in the accompanying statements of changes in net assets available for benefits, and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair Value Accounting

Accounting principles generally accepted in the United States of America ("GAAP") require disclosure about how fair value is determined for assets and liabilities and establish a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 2 - Significant Accounting Policies (continued)

Fair Value Accounting (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2010:

Description	Level 1	Level 2	Level 3	Total
Alpine Lumber Company Common Stock	$ -	$ -	$ 39,403,680	$ 39,403,680

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2009:

Description	Level 1	Level 2	Level 3	Total
Alpine Lumber Company Common Stock	$ -	$ -	$ 39,950,035	$ 39,950,035

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for Alpine Lumber Company Common Stock:

	For the Years Ended December 31,	
	2010	2009
Beginning balance	$ 39,950,035	$ 44,172,734
Appreciation (depreciation) of Common Stock included in earnings	2,486,641	(4,222,699)
Shares contributed during 2010	67,550	-
Repurchase of shares during 2010	(3,100,546)	-
Ending balance	$ 39,403,680	$ 39,950,035

Administrative Loan

During 2009, the Plan received $603,599 under an administrative loan from the Company to meet funding requirements of the Plan. As of December 31, 2009, the balance of the administrative loan was $603,599. During 2010, the entire balance was deemed paid by the Plan through a reduction of the Company cash contribution to the Plan. ERISA allows these loans, as the economic substance of such transactions is that shares are placed in a trust and released to employees upon deemed payment.

Note 2 - Significant Accounting Policies (continued)

Operating Expenses

All material expenses of maintaining the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investments, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Company has evaluated all subsequent events through July 20, 2011, which is the date the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments in Company Common Stock are as follows:

	December 31,	
	2010	2009
Number of shares	38,256	41,399
Cumulative acquisition cost	$ 13,808,649	$ 14,878,366
Fair value	$ 39,403,680	$ 39,950,035

As of December 31, 2010 and 2009, investments in Company Common Stock exceeded 5% of Plan assets.

Note 4 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 6, 2010, that the Plan, as amended, is qualified, and the trust established under the Plan is tax-exempt, under appropriate sections of the Code. The Plan has been amended since this date. The Company believes that the provisions under the new Plan document are in compliance with the applicable requirements of the Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 5 - Administration of the Plan

The Plan's assets, which consist primarily of Company Common Stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company, and no such officer or employee receives compensation from the Plan.

Note 6 - Parties-in-Interest Transactions

During 2009, the Plan received an administrative loan from the Company to fund share redemptions from terminated participants receiving distributions. This administrative loan reduced 2010 Company contributions to the Plan. The Company is the Plan sponsor; therefore, this transaction qualifies as a party-in-interest transaction.

Note 7 - Employer Contributions

Contributions to the Plan are discretionary and are determined annually by the Board of Directors of the Company.
