These financial statements and the supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note C, which was certified by Vanguard Fiduciary Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note C, the plan administrator has obtained a certification from the custodian regarding the completeness and accuracy of the investment information provided to the plan administrator by the custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Description Of Plan

The following description of Associates' Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides benefits to employees of Bankers Financial Corporation (the Sponsor) and any subsidiary, related corporation, or entity that adopts the Plan with the consent of the Sponsor (collectively referred to herein as the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Trustee, Custodian, And Recordkeeper

Effective January 1, 2008, the Sponsor moved the Plan to The Vanguard Group for recordkeeping and fund management services and Vanguard Fiduciary Trust Company (Vanguard) became the trustee and custodian. On January 2, 2008 all Plan assets, plus any associated income was invested at Vanguard in the Vanguard Prime Money Market Fund and upon final reconciliation of participant records, which occurred in mid-January 2008, each participant's account balance was transferred to a date-specific Vanguard Target Retirement fund based on each participant's age and expected year of retirement at 65. Subsequent to this transfer, participants then had the option to make changes to their investments on-line and were provided with several investment options in registered investment companies.

Eligibility

Effective February 1, 2008, the Plan was amended to add an automatic enrollment policy. Under the new policy, any eligible employee who does not enter into a salary reduction agreement on or before February 1, 2008, will automatically be enrolled on February 15, 2008 with a contribution rate of 2% and shall increase for a participant 1% for each subsequent plan year until the amount of deferrals contributed reaches 6%. All employees have the option to contribute more, less or not participate in the Plan.

Effective January 1, 2008, eligibility to participate in the Plan includes completion of one hour of service during the consecutive two-month period beginning with the date of the employees first hour of service and attainment of age 18. Temporary employees will be eligible upon reaching age 18 and completion of one year of service. Plan entry dates will be the first day of each month.

Contributions

Each year, participants may contribute a portion of their pretax annual compensation as defined by the plan document (elective contributions). Participants may also contribute amounts representing distributions from other qualified plans. Participants may invest in several options as directed by the participants.

The Plan allows for discretionary Employer matching contributions. To be eligible for a discretionary Employer matching contribution, an employee must be contributing to the Plan and must work a minimum of 250 hours per quarter.

The employee must also be employed on the last day of each quarter to receive any Employer match contribution for that quarter, except in the case of death, disability, or retirement. The Sponsor declared an Employer match contribution for the first three quarters of 2009 and for all four quarters of 2008.

In addition, the Employer, at the discretion of the board of directors, may make a profit sharing contribution to the Plan each year. There was no profit sharing contribution for either 2009 or 2008.

Participant receivables represent participant contributions of the corresponding year related to the final payroll period that were remitted to the Plan during the first month of the subsequent year.

Participant Accounts

Each participant's account is credited with the participant's elective contributions, Employer matching contributions, and allocations of (a) Employer nonelective contributions; (b) forfeitures, if any; and (c) Plan earnings.

Self-Directed Brokerage Accounts

During 2009 and 2008, the Plan allowed for self-directed brokerage accounts.

The self-directed brokerage accounts were invested in cash, common stocks and shares of registered investment companies.

Vesting

Participants are immediately vested in their elective contributions, rollovers, Employer qualified nonelective contributions, and actual earnings thereon. The following schedule describes the Plan's current vesting provisions as it relates to discretionary Employer matching contributions and discretionary profit-sharing contributions:

Years of service	
Less than one year	None
One year but less than two years	20%
Two years but less than three years	40%
Three years but less than four years	60%
Four years but less than five years	80%
Five years or more	100%

Participants employed on or after April 1, 1998 through December 31, 2002 are 100% vested in all accounts at all times.

Upon retirement, death, or total and permanent disability, matching contributions become 100% vested.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balances in the participant accounts.

Payment Of Benefits

Upon termination of employment with the Employer for any reason, normal retirement age, or disability, participants may elect to receive either a lump sum amount equal to the value of their vested interest in their account, or periodic installments of not less than $100 over a period not to exceed a participant's life expectancy.

Vested benefits of not more than $5,000 will be paid in the form of a lump sum. If the value exceeds $5,000 and the participant has not reached normal retirement date, the benefit will not be distributed until the participant consents to payment.

Forfeited Accounts

Any nonvested amounts in a terminated participant's account are forfeited by that participant. At December 31, 2009 and 2008, there were no forfeited nonvested amounts.

Effective January 1, 2008, forfeited amounts are first to be used to reduce the Plan's ordinary and necessary administrative expenses for the Plan year, then to reduce matching or employer contributions. Any remaining forfeitures are then allocated to participants. This amendment was requested to be retroactively applied to January 1, 2003 in the Voluntary Compliance Program letter dated June 20, 2008 and was approved on September 3, 2009 (Note I).

Prior to this date, forfeited amounts were first used to reduce the Plan's ordinary and necessary administrative expenses for the Plan year. Any remaining forfeitures were allocated to participants at the end of the Plan year in which the forfeitures occurred.

Note B - Summary Of Significant Accounting Policies

Accounting Basis

The Plan's financial statements are prepared under the accrual method of accounting with the exception of benefits paid to participants, which are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statement of net assets available for benefits presents the fair value of the investment contracts. At December 31, 2009 and 2008, contract value approximates fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Contract

The investment in the common collective trust is considered fully benefit-responsive. Fully benefit-responsive contracts guarantee that a) the crediting rate provided under the contract will not fall below zero and b) participant initiated withdrawals from the fund will be covered at contract value.

The average yield earned by the trust was 3.15% and 3.67% for 2009 and 2008, respectively. The credited rate to participants was 2.86% and 3.38% for 2009 and 2008, respectively. The average interest crediting rate was 3.31% and 3.74% at December 31, 2009 and 2008, respectively. The current market rate (the underlying investment return) was 3.26% and 4.59% at December 31, 2009 and 2008, respectively.

The difference between the contract's valuation at contract value and fair value is reflected over time through the crediting rate formula. The crediting rate of the trust resets every quarter based on the performance of the underlying investment portfolio. To the extent that the trust has unrealized gains and losses (that are accounted for, under contract value accounting, through the value of the synthetic contract), the interest crediting rate may differ from then-current market rates. An investor currently redeeming trust units may forgo a benefit, or avoid a loss, related to a future crediting rate different from then-current market rates.

The existence of certain conditions can limit the trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unitholder, tax disqualification of the trust or unitholder, and certain trust amendments if issuers' consent is not obtained. The Sponsor does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

Participants' Loans

Participants' loans are valued at cost, which approximates fair value. Stated interest rates with respect to current participant loans range from 3.25% to 9.5% at December 31, 2009 and from 4% to 9.5% December 31, 2008, which are commensurate with local prevailing rates for commercial loans as determined by the plan administrator.

Administrative Expenses

Plan administrative expenses, including but not limited to accounting, legal, and custodial expenses, are paid from the Plan's forfeiture account, if sufficient funds are available. Any remaining expenses are allocated to participants in direct relation to their participant directed investment. The Sponsor may pay expenses of the Plan.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2009 and through the report date, which is the date these financial statements were available to be issued. The plan administrator determined there are no subsequent events that require adjustment or disclosure.

Reclassifications

Certain amounts in the accompanying 2008 financial statements have been reclassified to conform to the 2009 presentation.

Information Prepared And Certified By Vanguard

The following is a summary of the investment information as of and for the years ended December 31, 2009 and 2008 included in the accompanying financial statements and supplemental schedules, that was prepared or derived from information provided by Vanguard and furnished to the Sponsor. The Sponsor has obtained a certification from Vanguard that the information provided to the Sponsor by them related to the following investments is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following investments:

	2009	2008
As of December 31:		
Cash	**$ -**	$ 124
Investments at fair value		
Shares of registered investment companies	**19,424,832**	14,661,691

Dividends	**399,947**	487,958
Interest on participants' loans	**22,198**	28,515

Note D - Fair Value Measurements

Accounting standards provide a framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- *Registered investment companies* - Valuation of investments in shares of registered investment companies is based on the reported net asset value of each fund, which is based on the quoted market price or fair value of each fund's underlying investments.
- *Common collective trust* - The common collective trust is valued based on the market value of the underlying investments.
- *Common stocks* - Valued at the last quoted sales price as of the close of the trading at year end.
- *Participants' loans* - Valued at cost which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31:

	Total	Level 1	Level 2	Level 3

Balance, end of year	**$ 307,864**	$ 343,235

Note E - Plan Termination

Although it has not expressed an intention to do so, the Plan Sponsor has the right under the Plan to permanently discontinue making contributions under the Plan or may terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note F - Tax Status

The Internal Revenue Service (IRS) determined and informed the Plan by letter dated June 23, 2003 that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. As a result of the amendments to the Plan effective January 1, 2008, the Sponsor filed an application for a new determination for the Plan on January 31, 2008. The Plan received a new determination letter dated September 23, 2009.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note G - Party-In-Interest Transactions

Fees for professional, legal and custodial services during 2009 and 2008 were paid by the Plan and the Sponsor, based on customary and reasonable rates for their services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note H - Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Regulatory Filings

Internal Revenue Service (IRS) Correspondence

During 2007, the Sponsor identified a number of operational defects (incorrect administration of plan entry dates (including administration of rehires) and forfeiture allocations) with respect to the Plan. As a result, on June 20, 2008, the Sponsor submitted a request under the Voluntary Correction Program (VCP) with the IRS.

The Sponsor received a letter, dated September 3, 2009, from the IRS stating the proposed corrections and revisions set forth in the VCP were appropriate.
