We were engaged to audit the accompanying statements of net assets available for benefits of Rug Doctor, Inc. 401(k) Retirement Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule, Schedule H, Line 4(i) — Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by AXA Equitable Life Insurance Company (AXA Equitable), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that AXA Equitable holds the Plan's investment assets and executes investment transactions. As disclosed in Note 4, the Plan Administrator has obtained certifications from AXA Equitable regarding the completeness and accuracy of the investment information provided to the Plan Administrator by AXA Equitable as of and for the year ended December 31, 2009 and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by AXA Equitable, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Rug Doctor, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan offered by Rug Doctor, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are 21 years of age and who have completed one year of service, as defined by the Plan, are eligible to participate and are admitted to the Plan on January 1 or July 1 following the date of eligibility.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, subject to certain maximum limitations imposed by the IRC ($16,500 for 2009). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to the maximum limit imposed by the IRC ($5,500 for 2009). Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Prior to April 1, 2009, the Company provided a matching contribution to the employee's elective contribution. The Company matched 100% of the participant's contribution up to 3% of compensation plus 50% of the participant's contribution in excess of 3% up to 5% of compensation. As summarized in Note 11, the Company match was discontinued on April 1, 2009. At its discretion, the Company may make discretionary profit sharing contributions. Discretionary matching contributions and safe harbor matching contributions were $300,000 for the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching and/or discretionary contribution, and an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

The Plan provides that contributions shall be invested in any one or more of the available investment accounts. Participants may change their investment options any time throughout the year via internet or direct phone access to AXA Equitable.

Vesting

Participants are immediately vested in all accounts.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. If a participant's vested balance is $5,000 or less, the participant will receive a single lump-sum distribution of their entire vested account balance as soon as practicable following the event that entitles the participant to a distribution.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of one-half of their account balance or $50,000, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with the rates offered by commercial lending institutions. Principal and interest may be repaid monthly or quarterly over a period of up to five years or over a period of 30 years for loans used to purchase a primary residence. Interest rates on outstanding participant loans ranged from 4.25% to 9.0% as of December 31, 2009.

Administration

The Plan is administered by the Company, who has retained an outside third party to provide administrative and record keeping services. Administrative costs applicable to the Plan, except certain contract administration fees, are paid by the Company.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Accounting Standards Codification

The Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification (ASC) as the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles. The ASC did not change GAAP but reorganizes the literature. This became effective for the Plan for the year ended December 31, 2009. The adoption of this topic did not have an impact on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Income Taxes

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Subsequent Events

In May 2009, the FASB issued guidance for disclosing subsequent events. The objective of the new guidance is to establish principles and requirements for subsequent events and, in particular, the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The Plan adopted the new guidance for the year ended December 31, 2009. The Plan Administrator has evaluated events or transactions for potential recognition or disclosure through October 8, 2010, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements

In April 2009, the FASB issued additional guidance for determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not considered orderly. The additional guidance was effective for interim and annual reporting periods ending after June 15, 2009. The adoption of this guidance had no material impact on the Plan's financial statements.

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits. See Note 6.

In January 2010, the FASB released accounting guidance that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques and inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for the disaggregation of Level 3 activity, which is effective for interim and annual periods beginning after December 15, 2010. The guidance is not expected to materially impact the Plan's current fair value disclosures.

In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Adoption of this amendment is not expected to have a material impact on net assets.

Note 3. Investment Contract With Insurance Company

The Plan has entered into a benefit-responsive investment contract with AXA Equitable. AXA Equitable maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by AXA Equitable, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. At December 31, 2009 and 2008, the fair value of investments in the guaranteed interest account equaled the contract value reported by AXA Equitable. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates at December 31, 2009 and 2008 for the Guaranteed Interest Account were 2.75% and 3.00%, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.50%. Such interest rates are declared by the contract issuer on a quarterly basis.

Note 4. Investments Certified by AXA Equitable Life Insurance Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by AXA Equitable and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from AXA Equitable that information provided to the Plan Administrator by AXA Equitable related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and the supplemental schedule related to the investments listed below. Investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified as follows:

	2009	2008
Pooled separate accounts:		
Equitable Money Market Portfolio*	**$ 444,395**	$ 490,210
Equitable Janus Enterprise Fund**	**623,353**	461,975

Participant loans	**427,193**	470,572
	$ 10,803,235	$ 9,498,829

* Investment is less than 5% of Plan assets at December 31, 2009.

** Investment is less than 5% of Plan assets at December 31, 2008.

AXA Equitable also certified to the completeness and accuracy of $1,726,643 of net appreciation in fair value of investments in pooled separate accounts and $55,740 and $29,989 of interest related to the guaranteed interest account and participant loans, respectively, for the year ended December 31, 2009.

Note 5. Fair Value Measurements

Effective January 1, 2008, the Plan adopted Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC 820). ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Pooled separate accounts invest in mutual funds and are valued at the net asset value ('NAV) of the pool of investments owned by the mutual funds held by the Plan at year end. Accordingly, the fair value of these assets is established using Level 2 inputs.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 3). Accordingly, the fair value is established using Level 3 inputs.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

(a) This fund seeks to obtain a high level of current income as well as to preserve its assets and maintain liquidity. The fund invests primarily in a diversified portfolio of high-quality U.S. dollar-denominated money market instruments. The fund maintains a dollar-weighted average portfolio maturity of 90 days or less.

(b) This investment seeks income. The fund invests at least 80% of net assets in U.S. government securities. It invests substantially all of its assets in Government National Mortgage Association obligations (Ginnie Maes). The fund may also invest in other U.S. government securities, which are backed by the full faith and credit of the U.S. government.

(c) These funds seek long-term growth of capital and income. The funds vary between large-growth and large-blend portfolios.

(d) These funds seek capital appreciation. The funds vary between mid-growth and mid-blend portfolios.

(e) These funds seek to maximize capital appreciation. Typically the fund invests at least 80% of its net assets in stocks of small capitalization companies.

(f) See Note 3.

Note 7. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by AXA Equitable and the Company qualify as party-in-interest transactions.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 29, 2009, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 10. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Plan Amendment

On April 1, 2009, the Plan was amended to change the employer matching contribution from a required matching contribution based on the formula described in Note 1 to a discretionary matching contribution that is determined each year by the Company. Pursuant to this amendment, the Company determined that it would make no safe-harbor matching contributions beginning on April 1, 2009.

Note 12. Subsequent Amendment

On January 1, 2010, the Plan was amended to change the definition of wages eligible for elective deferrals from W-2 wages to W-2 wages less year end and length of service bonuses.
