1. DESCRIPTION OF PLAN

The following description of the Pioneer Circuits, Inc. Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on December 1, 2000. All employees of the Company who have completed six months of service are age twenty-one or older, and work a minimum of 501 hours are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Participants may elect to contribute up to the maximum percentage allowable not to exceed the maximum amount allowed by the Internal Revenue Code. The Company may make discretionary contributions, if any, in an amount to be determined by the Board of Directors at the end of the plan year.

Participant Accounts – Each participant's contribution is segregated into individual participant accounts. Each participant may elect to have his or her individual account invested in any combination of the funds described under plan assets.

Vesting – Participants are immediately vested in their voluntary contributions and earnings thereon. For all employees, the employer contributions vest based upon completed years of service according to the following schedule:

Years of service	Percentage
1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

Payment of Benefits – Upon retirement, termination, disability, or death, the vested value of the participant's account may be distributed under a systematic withdrawal plan (installments).

1. DESCRIPTION OF PLAN - CONTINUED

Participant Loans – A participant may borrow from his or her account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account. Principal and interest are paid through payroll deductions.

2. SUMMARY ACCOUNTING POLICIES

Basis of Accounting –The financial statements of the plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value.

Payment of Benefits – Benefits are recorded when paid.

Date of Management Review – Subsequent events were evaluated through June 22, 2010, which was the date the financial statements were available to be issued.

Operating Expenses – All expenses of maintaining the Plan are paid by the Company.

3. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

5. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 9, 2003, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

6. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2009 and 2008, the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statement based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2009 and 2008, as reported by the trustee is summarized as follows:

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $109,733 as follows:

Mutual funds	$ 109,733

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
