NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF PLAN

The following description of the Spine Team Texas, PA Profit Sharing 401(k) Plan and Trust ("the Plan") provides only general information. Participants and readers should refer to the Plan agreement for a more detailed description of the Plan provisions.

General

The Plan is a savings plan adopted for the purpose of rewarding long and loyal service and for the benefit of the employees of Spine Team Texas, PA and its related entities (collectively, "the Company") and qualifies as a deferred compensation plan under Section 401(k) of the Internal Revenue Code. The Plan is subject to the *Employee Retirement Income Security Act of 1975* (ERISA). The Plan was originally effective on November 1, 2003, and the amended and related provisions of the Plan became effective as of January 1, 2009.

For elective deferrals, participation is voluntary on the part of each employee (excluding certain union employees, non-residents, and leased employees) after completing three months of service and reaching the age of 21, according to the specific guidelines further detailed in the Plan. For employer matching, profit sharing, and safe harbor contributions, employees are eligible after completing one year of service and attaining the age of 21. Eligibility qualifications are according to specific guidelines further detailed in the Plan.

Contributions and Vesting

There are 4 different contributions available in the Plan:

1.) Elective Deferrals: Employees may elect to contribute a percentage of their compensation into the Plan, subject to parameters defined by the Internal Revenue Service. These contributions are 100% vested from the day they are made.

2.) Employer Matching: The employer makes these contributions based on the salary deferrals contributed by the participant. This contribution is discretionary, and salary deferrals for each year that exceed 6% of compensation will not be considered. After two Years of Service, participants vest 20% in these contributions, with an additional 20% vesting thereafter until 100% vesting is reached after six Years of Service.

3.) Profit Sharing: The employer will, at its discretion, make a contribution to the Plan. The amount allocable to individual participants is based on a proportional formula and other provisions outlined in the Plan. After two Years of Service, participants vest 20% in these contributions, with an additional 20% vesting thereafter until 100% vesting is reached after six Years of Service.

4.) Safe Harbor: The employer may annually make a safe harbor contribution according to one of the variety of methods detailed in the Plan. Per a 2009 amendment, for the Plan Year commencing January 1, 2010, and for each Plan Year thereafter, the Plan will use the Basic Matching Formula. Participants are always 100% vested in these contributions.

Additionally, the Plan may accept rollover contributions. Participants will always be 100% vested in their rollover accounts, though those funds will be affected by any investment gains or losses.

NOTE A – DESCRIPTION OF PLAN (continued)

Participants' Accounts

Each participant's account is credited with the respective participant's contributions, any employer contributions, and allocated Plan earnings, as set forth in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's set of accounts.

Participant Loans

The Plan does not permit loans.

Hardship Withdrawals

Hardship withdrawals may be made to satisfy certain immediate financial needs, according to specific types of costs and set conditions designated in the Plan. Hardship distributions can only be made from accounts which are 100% vested.

Payment of Benefits

The Plan provides for a variety of distribution options upon termination of service due to death, disability, retirement, or termination of employment. Additionally, the Plan allows employees to receive in-service distributions after they have reached Normal Retirement Age. Certain restrictions apply to receiving such distributions.

Forfeitures

If a participant terminates employment before being fully vested, then the non-vested portion of the terminated participant's account balance remains in the Plan as a forfeiture. Forfeitures may be used by the Plan for several purposes and are allocated in the following order:

1.) Forfeitures may first be used to pay any administrative expenses.
2.) Any remaining forfeitures attributable to amounts other than employer matching contributions will be used to reduce any employer contribution.
3.) Any remaining forfeitures attributable to matching contributions will be used to reduce any employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The annual, year-end financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's market investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administration Costs

Certain administrative functions are performed by one or more shareholders and employees of the Company. No such shareholder or employee receives compensation from the Plan. Certain administrative expenses and fees for the Plan are paid directly by the Company. In some years, the administrative fees may be paid from Plan forfeitures.

NOTE C – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will be entitled to the full amounts in their accounts as of the date of termination, regardless of the percent vested at the time of termination.

NOTE D – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31st but not yet paid as of that date.

	December 31, 2010
Net assets available for benefits per the financial statements	$ 2,525,572
Benefit obligations currently payable	-
Net assets available for benefits per Form 5500	$ 2,525,572

NOTE E – TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated March 31, 2008, that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE F – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan's Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the *Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.* Accordingly, the John Hancock Life Insurance Company (U.S.A.), the Custodian of certain Plan assets, has certified to the completeness and accuracy of the market investments and related transactions in those investments.

NOTE G – INVESTMENTS

The following presents investments that represent five (5) percent or more of the Plan's net assets:

	December 31, 2010	
LS-AGGRESSIVE FUND	$	239,485
LS-BALANCE FUND		214,124
LS-GROWTH FUND		638,961
LS-MODERATE FUND		131,940
MONEY FUND		151,647
TOTAL RETURN		129,567

NOTE H – FAIR VALUE OF MARKET INVESTMENTS

The Plan follows the Financial Accounting Standards Board's Accounting Standards Codification 820, *Fair Value Measurements* ("FASB ASC 820"), which establishes a single definition of fair value and a framework for measuring fair value, sets out a fair value hierarchy to be used to classify the source of information used in fair value measurements, and expands disclosures about fair value measurements required under other accounting pronouncements. It does not change existing guidance as to whether or not an instrument is carried at fair value.

Fair value is the price that would be received upon sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 established market and observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transaction(s) in the absence of market inputs.

NOTE H – FAIR VALUE OF MARKET INVESTMENTS (continued)

The valuation techniques required by ASC 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable, directly or indirectly, or can be corroborated by observable market data.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability and should be developed based on the best information available in the circumstances (which may include the Plan's own data). This includes certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes from the prior year regarding the methodologies used at December 31, 2010.

Assets are valued at the total market value, which represents prices obtained from various sources. Prices received from pricing vendors are generally based on current market quotes; but when such quotes are not available, the pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed income securities, may be based on certain minimum principal amounts (e.g. $1 million) and may not reflect all of the factors that affect the value of the security, including liquidity risk.

The various mutual fund offerings of which the market investments are comprised are valued at the net asset value (NAV) of shares held by the entity at year end.

The preceding approach described might produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE H – FAIR VALUE OF MARKET INVESTMENTS (continued)

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of the end of the year:

	December 31, 2010			
Description	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,329,473	-	-	$ 2,329,473
Guaranteed Investment Contracts	-	-	3,126	3,126
Total Assets at Fair Value	$ 2,329,473	$ -	$ 3,126	$ 2,332,599

The table below presents a reconciliation for all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3 assets) and presents related changes in realized and unrealized gains or losses recorded in the change in net assets for the year ended December 31, 2010.

Balance – January 1, 2010	$ 1,909
Purchases, Deposits, & Contributions	1,189
Transfers	-
Sales, Exchanges, & Withdrawals	-
Realized and Unrealized Gains (Losses) – Net	28
Balance – December 31, 2010	$ 3,126
The amount of total gain (loss) for the year included in changes in net assets attributed to the change in value relating to Level 3 assets still held at December 31, 2010	$ 28

NOTE I – CONCENTRATIONS

Due to the nature of the assets of the Plan, there is inherent risk tied to market performance. However, because participants direct their investment options within the Plan, they are able to select a portfolio aligned to their personal risk tolerance, investment strategy, and/or other goals.

NOTE J – RISKS AND UNCERTAINTIES

Due the nature of the Plan's assets and the uncertainty related to market activities in general, there is the potential for the value of the Plan's assets to be substantially affected by adverse market circumstances.

NOTE K – PARTIES IN INTEREST

The Plan is sponsored by the employer, Spine Team Texas, PA; and two of the shareholders thereof are Plan's trustees. As referenced in Note B, certain functions are performed by one or more shareholders and employees of the Company. Third-party service providers perform customary custodial, administrative, and consulting activities.

NOTE L – SUBSEQUENT EVENTS

The management of the Plan has evaluated events subsequent to the statement of net assets available for benefits date of December 31, 2010, through October 6, 2011, the date the financial statements were available to be issued. It has concluded that there are no effects that provide additional evidence about conditions that existed at the statement of net assets available for benefits date that require recognition in the 2010 financial statements or related note disclosures in accordance with FASB ASC 855, *Subsequent Events.*
