REPORT OF INDEPENDENT AUDITORS

To the Participants and
Plan Administrator of the
R.S. Hughes Co., Inc.
Employee Stock Ownership Plan

We have audited the financial statements of the R.S. Hughes Co., Inc. Employee Stock Ownership Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules, as listed in the accompanying table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

R.S. HUGHES CO., INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the R.S. Hughes Co., Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is an employee stock ownership plan that was established in 1976 by R.S. Hughes Co., Inc. (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - Under the terms of the Plan, a designated officer of the Company acts as the trustee. The Company has appointed an ESOP Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator who processes and maintains the records of participant data. The Plan pays for Plan administrative expenses, which consist primarily of third-party administrator, audit and independent appraisal fees.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock, which is the primary Plan investment.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts are allocated to eligible participants employed by the Company at each year end.

Investments - Plan assets, which consist principally of Company common stock, are nonparticipant-directed and are maintained by the trustee under the R.S. Hughes Co., Inc. Employee Stock Ownership Trust (the Trust).

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Income taxes - The Plan has been amended since receiving a favorable determination letter dated February 11, 2009. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The value of the Company's common stock is directly related to the annual operating results and financial position of the Company. It is at least reasonably possible that changes in the value of the Company's common stock in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through June 30, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

Following is a description of the valuation methodology used for common stock measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The fair value of common stock of the Company is determined annually by an independent appraisal (Note 5). The methodology used by the independent appraiser is a combination of an income approach (discounted cash flow method) and a market approach (guideline company method).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$89,136,210	$89,136,210

	Assets at fair value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$95,458,472	$95,458,472

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Common stock
Balance, beginning of year	$95,458,472
Unrealized gains relating to common stock still held at the reporting date	1,068,779
Purchases, sales, issuances and settlements (net)	(7,391,041)
Balance, end of year	$89,136,210

NOTE 3 - PARTICIPATION AND BENEFITS

Employer contributions - For each Plan year, the amount of the Company's contribution is at the discretion of the Company's Board of Directors. During 2009 and 2008, the Company contributed approximately $21,000 for each year, which was used to pay Plan administrative expenses.

Vesting - Any participant who terminates service with the Company on or after January 1, 2004 is 100% vested in shares allocated to their account. Prior to that, allocated shares became 100% vested after five years of service.

Participant accounts - Each participant's share of Plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the Company's shares included in the Plan assets, and the Other Investment Account, which generally represents the participant's share of Company contributions and forfeitures in other than Company common stock.

Each participant's account is credited (or debited) with an allocation of: a) the Company's contribution, b) forfeitures of terminated participants' nonvested accounts, c) net income (or loss) of the Trust and d) unrealized appreciation (depreciation) in the value of the Plan's investment in Company stock. Employer contributions and forfeitures are allocated to all participants in equal amounts without regard to compensation; however, no allocation is made to any participant whose annual compensation is $300,000 or higher. Generally, a participant will share in the current year allocation of Plan contributions and forfeitures only if the participant is still employed on the last day of the Plan year and has accumulated 1,000 or more hours of service during that year.

Dividend income on unallocated shares and forfeitures are contributed to the Plan and are held by the Trust. Cash dividends on allocated shares are paid by the Company directly to the participants and are therefore not recorded in the Plan's financial statements as dividends and distributions. During 2009 and 2008, the Company paid total dividends on allocated shares of approximately $1,283,000 and $1,390,000, respectively.

Payment of benefits - Participants are eligible for a distribution at the time of their termination of employment from the Company, upon retirement, as defined in the Plan document, or upon attaining age 65. Distributions may be made in shares of Company common stock or cash as determined by the Committee. The Committee pays benefits from participants' Company stock accounts in shares of stock in conformity with applicable provisions of the Code. Shares distributed are subject to a "right of first refusal" in favor of the Trust or the Company. At the time of distribution, participants are entitled to a "put" option, as defined in the Plan document, which gives them a right to have the Company repurchase their shares within 60 days after the shares are distributed. If not exercised at that time, a second 60-day "put" option will begin as soon as the following year's stock valuation is completed. During 2009 and 2008, approximately 1,794,000 and 1,341,000 shares, respectively, were distributed by the Plan. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $5,000.

Participants who are age 55 or over and have completed ten years of participation under the Plan may diversify a portion of the shares in Company common stock, subject to certain restrictions as outlined in the Plan document.

NOTE 4 - PLAN OBLIGATIONS

Included in net assets available for benefits at December 31, 2009 are benefits due to terminated participants of approximately $19,000,000. Participants whose service terminates for reasons other than retirement or death will normally receive their benefit as soon as possible after attaining age 65. The Committee may, at its sole discretion, after considering a participant's wishes, direct Plan benefits to be distributed in a lump sum or installments over a period of time not to exceed ten years.

NOTE 5 - INVESTMENTS

The value of the Plan's investment in Company common stock is determined by an independent appraisal, in the absence of readily ascertainable market values, and was as follows at December 31:

	2009	2008
Number of shares	21,375,590	23,169,532
Cost	$ 2,112,621	$ 2,289,922
Fair value	$89,136,210	$95,458,472
Price per share	$ 4.17	$ 4.12

NOTE 6 - PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
