Independent Auditor's Report

We were engaged to audit the financial statements of net assets available for benefits of the Marshall, Gerstein & Borun LLP Salary Savings and Profit Sharing Plan as of December 31, 2010, and 2009, and the related statement of changes in net assets available for benefits for the year-ended December 31, 2010. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified by Fidelity Management Trust Company, the trustee of the Plan except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. MARSHALL, GERSTEIN & BORUN LLP
SALARY SAVINGS AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Marshall, Gerstein & Borun LLP Salary Savings and Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service, defined as at least 1,000 hours and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Effective January 1, 2010, participants may contribute after-tax Roth amounts as well. Effective February 1, 2010, employees are eligible to contribute to the Plan beginning the first day of the month after they have reached four consecutive months of employment. Prior to 2010, newer employees contributed via the firm's "New Hire Plan", as discussed in Note 8, which was merged into the Plan effective December 31, 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty-seven options under the Fidelity Management Trust as investment options for participants. Each year the Company may match a portion of participants' contributions and may also make a discretionary profit sharing contribution to the Plan. The discretionary profit sharing contribution is also broken down further into two categories: participants with more than one year of service and participants with more than two years of service. In 2010, the Company match was 1%. In 2010, the Company profit sharing contribution was 5% if the employees had one year of service. For employees with two or more years of service, the company profit sharing contribution was 9% for those hired before 2002 and 7% for those who were hired after 2001. These percents are applied against gross compensation up to a maximum of $150,000.

Participant's Accounts - Each participant's account is credited with the participant's contribution and the Company's matching contribution, as well as an allocation of any discretionary Company contribution.

Vesting - Participants are immediately fully vested in their contributions, plus actual earnings thereon. Participants are also immediately fully vested in their entire account upon their death during employment. If, however, an employee terminates their employment with the Company for any other reason before reaching normal retirement age, then the amount attributable to the Company's match and the Company's profit sharing contribution and any earnings thereon will vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6 or More	100

Employees hired prior to January 1, 2002 are 100% vested in their entire accounts.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Participant Loans - Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the present value of the participant's accrued benefit in the plan. The loans may be secured by the participant's vested accrued benefit to the extent of 50% of the vested account balance. Loans shall bear interest at the prime rate plus 0.5%. Loans taken prior to August 1, 2007 bear interest at varying rates based on loan term.

Payment of Benefits - On termination of service for any reason other than death, the participants shall receive the full amount of their accounts either in one lump sum or in a series of installments not less frequently than once each calendar year, or if the participant's account balance exceeds $1,000, such participant shall have the right to elect to defer the payment until the earlier of the participant's death or attainment of his normal retirement age.

Forfeitures - Forfeitures are retained in the Plan and are first used to pay administrative expenses. Any remaining amounts are used to reduce future employer contributions payable under the Plan. During 2010, $60,000 of forfeitures was used to reduce employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits – Benefits are recorded when paid.

FASB ASC 820-10, Fair Value Measurements, establishes a fair value hierarchy that provides the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 2 or 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, preferred stock, corporate bonds and US government securities are based on quoted market prices. The fair values of interest-bearing and non-interest bearing cash are based on actual cash invested at year-end.

NOTE 6 – LOANS TO PARTICIPANTS

ASU 2010-25 has been adopted in the current period to show Loans to Participants separate from investments. This adoption is retrospectively applied to the prior period we show for comparative purposes.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated May 19, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely that not would not be sustained upon examination by the internal revenue service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administration believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 – TRANSFER OF PLAN ASSETS

During 2002, the Company created a separate and distinct Plan for the benefit of new hires of the Company. That Plan, the Marshall, Gerstein & Borun LLP "New Hire Plan", allowed employees to participate in elective deferrals only. Upon meeting the criteria for entry into the Salary Savings and Profit Sharing Plan, participants with balances in the New Hire Plan were transferred to the Salary Savings and Profit Sharing Plan. As of December 31, 2009, the New Hire Plan was merged into the Plan and all assets were transferred to the Plan. The amount transferred in from the New Hire Plan in 2009 was $126,116.

NOTE 10 – DERIVATIVE FINANCIAL INSTRUMENTS

The Plan has no instrument that, in whole or in part, is accounted for as a derivative instrument under FASB statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* during the current plan year.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities through investments in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued, and believe no subsequent events have occurred since December 31, 2010, which would be required to be disclosed in these financial statements.
