Independent Auditors' Report

October 10, 2011

To the Administrative Committee
Neuroscience Consultants, LLC 401(K) Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Neuroscience Consultants, LLC 401(K) Plan (the Plan) as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Reliance Trust Company, the trustee of the Plan. Their report, dated October 11, 2010 indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note III, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NEUROSCIENCE CONSULTANTS, LLC
401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2010 and 2009

NOTE I - DESCRIPTION OF PLAN

The following description of the Neuroscience Consultants, LLC 401K Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General.

The Plan is a defined contribution plan covering all eligible employees of Neuroscience Consultants, LLC (the Company) who have at least one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions.

For 2010 and 2009, participants may contribute up to $16,500 of pretax annual compensation, as limited by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 for 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds, and equity security and one guaranteed investment contract. Discretionary employer contributions may be contributed at the option of the Company's Board of Directors and are invested in a portfolio of investments as directed by the employees. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocations of (a) the Company's contribution and, (b) Plan earnings of losses, and (c) forfeitures of terminated Participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE I - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested 100% in all of their voluntary contributions and employer safe harbor contributions plus actual earnings thereon. Vesting in any additional Company profit sharing contributions is based on years of service as follows:

Years of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service for any reason, including disability or retirement, a participant may elect, if the account balance exceeds $1,000, to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or remain in the plan. If the account balance is $1,000 or less, the participant will receive the value of his or her account as a lump-sum distribution.

Costs and Fees

The Company is absorbing the fees charged by the Plan's third-party administrator, but reserves the right to amend the Plan at any time, and allocate such fees to Plan participants. Other fees assessed by the asset custodian are charged to participant accounts.

NOTE II - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value and consist of mutual funds and a guaranteed investment contract as of December 31, 2010 and 2009. In addition, the Plan held equity securities as of December 31, 2010 and 2009

Shares of mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year end. Net increase (decrease) in fair value of investments includes realized and unrealized gains and losses. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis.

The guaranteed investment contract is reported at fair value, to the Plan, by the Trustee (See Note IV).

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP),* investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plans attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, the FSP requires, for material differences between the fair value and contract value amounts, that the Statement of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair market value basis because the difference between fair value and contract value is immaterial.

Payment of Benefits

Benefits are recorded when paid.

Forfeitures

Forfeitures of the non-vested portion of participant accounts related to the Company's contribution are used first to pay Plan expenses and then to offset future Company contributions.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE III - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The investments and related income, expense and loss information included in the accompanying financial statements as of and for the years ended December 31, 2010 and 2009 were obtained from data prepared and certified to as complete and accurate by Reliance Trust Company, the Plan's trustee.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

Guaranteed Investment Contract	353	123
	$ 227,956	$ 287,740

NOTE IV - INVESTMENTS (Continued)

Guaranteed Investment Contract

One of the Plan's investment options includes a fully benefit-responsive guaranteed investment contract with Morley Financial Services (Morley). Contributions to this contract are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. As of December 31, 2010 and 2009, the contract value for this contract amounted to $38,725 and $23,839 and the fair value amounted to $39,476 and $23,951, respectively. Due to the immateriality of the adjustment required to bring the guaranteed investment contract from fair value to contract value, no adjustment was made to the financial statements.

As described in Note II, the guaranteed investment contract is fully benefit-responsive, making it eligible for contract value accounting as its relevant measurement attribute. There are no reserves against contract value for credit risk of the contract issuer of otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. Morley will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the investments.

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Certain events will limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value, is probable.

The guaranteed investment contract does not permit the trustee to terminate the agreement prior to the scheduled maturity date.

The average yield for 2010 and 2009 based on actual earnings was 2.66% and 2.25% and interest credited to participants amounted to 2.75% and 2.52%, respectively.

Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is a least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE V - FORFEITED ACCOUNTS

As of December 31, 2010 and 2009, there were 12 and 14 withdrawn participants, respectively, with either forfeited or vested balances. The following table presents the forfeited and vested amounts of withdrawn participants for the years ended December 31, 2010 and 2009:

	2010	2009
Forfeited	$ 173	525
Nonvested and unallocated. These accounts will be used to reduce future employer contributions, pay plan expenses or to be reallocated to remaining participants at a future date.		
Vested		
Allocated to withdrawn participants	35,929	43,754
Total	$ 36,102	$ 44,279

NOTE VI - PLAN TERMINATIONPLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE VII - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

For the year ended December 31, 2010, no reconciliation is required. Net assets available for benefits per the financial statements is in agreement with Schedule H of Form 5500.

NOTE VIII - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 29, 2011 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE IX - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board Statement No. 157, Fair Market Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Pan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted process that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Equity: Valued at quoted price from independent pricing vendors based on recent trading activity.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

NOTE IX - FAIR VALUE MEASUREMENT (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

	2010			
	Level 1	Level 2	Level 3	Total
Mutual Fund/Equity	$ 3,424,465	$ -	$ -	$ 3,424,465
Guaranteed Investment Contract	-	39,476	-	39,476
	$ 3,424,465	$ 39,476	$ -	$ 3,463,941

	2009			
	Level 1	Level 2	Level 3	Total
Mutual Fund/Equity	$ 2,551,079	$ -	$ -	$ 2,551,079
Guaranteed Investment Contract	-	23,839	-	23,839
	$ 2,551,079	$ 23,839	$ -	$ 2,574,918

NOTE X - SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2010, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustments to the financial statements or disclosure is October 10, 2011 which is the date on which the financial statements were available to be issued.
