REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
The Dynamic Network 401(k) Plan
San Antonio, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of The Dynamic Network 401(k) Plan (the Plan) as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the years then ended, and the supplementary schedules of assets (held at end of year) and nonexempt transactions as of, and for, the year ended December 31, 2009. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan during 2009 and 2008, except for comparing the information with the related information included in the 2009 and 2008 financial statements and supplementary information. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of, and for, the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with United States generally accepted auditing standards, and in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Plan Description

The following description of The Dynamic Network 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, adopted on July 1, 1999, is a defined contribution plan with a 401(k) option covering all eligible employees of Touchstone Communities, Inc., (the Company), and any eligible employee of an affiliated employer who has adopted the Plan. The Plan was amended and restated effective January 1, 2008, to include a 401(k) Safe Harbor provision. Effective for plan years beginning on or after January 1, 2008, the Plan was operating under the elective Safe Harbor provision. To be eligible to participate in the Plan, an employee must have completed 90 days of service and must be twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, eligible employees may contribute up to the maximum percentage allowable, not to exceed the limits as determined by the Internal Revenue Code, through payroll deduction. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are permitted to make catch-up contributions. Under the Safe Harbor provision, effective for the Plan years beginning on or after January 1, 2008, the Plan sponsor will contribute 100 percent of the first 1 percent of eligible compensation that a participant contributes to the Plan, and an additional 50 percent of contributions greater than 1 percent up to 6 percent. In any plan year, during which the Safe Harbor provision has not been elected, the Plan sponsor may contribute a discretionary matching contribution as determined on an annual basis. No such discretionary contributions were made during 2009 and 2008.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, and an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested at all times in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's 401(k) Safe Harbor provision and discretionary matching contributions plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after two years of credited service. Vesting in the Company's discretionary profit-sharing contributions portion of their accounts, plus earnings thereon, is based on six years of continuous service, at which time the participant is 100 percent vested.

Note 1: Plan Description (Continued)

Vesting (Continued)

Safe Harbor & Discretionary Matching Contributions		Discretionary Profit Sharing Contributions	
Vesting Service (Whole Years)	Vesting Percentage	Vesting Service (Whole Years)	Vesting Percentage
2	100%	2	20%
		3	40%
		4	60%
		5	80%
		6	100%

Investment Options

Upon enrollment in the Plan, participants may direct employee contributions in any of the designated investment options with ING Life Insurance and Annuity Company (ING). Participants should refer to the Plan document for a complete listing of investment options. Participants may change their investment options, at their discretion, in accordance with the Plan provisions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

Forfeitures

In 2009 and 2008, forfeited non-vested accounts totaled $30,341 and $3,785, respectively. These amounts will be used to reduce future employer contributions.

Note 2: Summary of Significant Accounting Policies

Plan Administration

The Company is the Plan administrator. Expenses incidental to the administration of the Plan, such as administrative services, are paid by the Company.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles (GAAP), requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 3: Plan Termination

While it is the intention of the Company to continue the Plan, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their accounts.

Note 4: Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Under this method of compliance, no audit procedures were performed by independent certified public accountants with respect to information certified to be complete and accurate by ING.

Information regarding investments and related transactions, and revenue included in the accompanying financial statements and supplementary information, has been certified by ING to be complete and accurate.

Note 5: Tax Status

The Internal Revenue Service has determined and informed The Allocation Company (third party administrator for the Plan) by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. The Plan relies on The Allocation Company's determination letter. The Plan is a prototype plan and an individual determination letter is not considered necessary.

Note 6: Investments

The following table presents the individual investment securities that exceeded 5% of the Plan's net assets available for benefits at December 31, 2009 and 2008:

December 31, 2009

Investments at Fair Value	Number of Shares	Per Share Net Value	Fair Value
EuroPacific Growth Fund	17,107.78	15.3885	$ 263,263

During the Plan years ended December 31, 2009 and 2008, the Plan's net appreciation/(depreciation) in fair value of investments (including investments bought, sold, and held during the year) as determined by the unit value reported by ING, was $425,356 and ($363,747), respectively.

The net appreciation/(depreciation) in fair value of investments includes both realized and unrealized gains/(losses) and is being computed using the current value of assets as of the end of the years indicated above.

Note 7: Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 7: Fair Value Measurement (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Investment Contract

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 8).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009	Level 1	Level 2	Level 3	Total

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

December 31, 2009	Level 3
Guaranteed investment contract:	
Balance, beginning of year	$ 261,876
Realized gains/(losses)	--
Unrealized gains/(losses) relating to instruments still held at the reporting date	(7,085)
Purchases, sales, issuances, and settlements (net)	249,613
Balance, End of Year	$ 504,404
The amount of total gains/(losses) for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (7,085)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation/(depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note 8: Investment Contract with Insurance Company

In 2006, the Plan entered into a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals, and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008, was $504,404 and $261,876, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2009	2008
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 9: Benefits Payable to Terminated and Retired Employees

The Plan assets include vested benefits payable to terminated and retired employees at December 31, 2009 and 2008, of $228,129 and $70,575, respectively. These benefits are expensed when paid. The Plan administrator does not distinguish whether an employee has retired and thus reports all former employees as terminated employees.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 11: Reconciliation of Financial Statements to Schedule H of Form 5500

There were no differences between the audited financial statements and Schedule H of Form 5500 at December 31, 2009.

Note 12: Subsequent Events

No material subsequent events were identified that would affect the financial statements for the year ended December 31, 2009. Subsequent events were evaluated through the date of this report.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
The Dynamic Network 401(k) Plan
San Antonio, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of The Dynamic Network 401(k) Plan (the Plan) as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the years then ended, and the supplementary schedules of assets (held at end of year) and nonexempt transactions as of, and for, the year ended December 31, 2009. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan during 2009 and 2008, except for comparing the information with the related information included in the 2009 and 2008 financial statements and supplementary information. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of, and for, the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with United States generally accepted auditing standards, and in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Plan Description

The following description of The Dynamic Network 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, adopted on July 1, 1999, is a defined contribution plan with a 401(k) option covering all eligible employees of Touchstone Communities, Inc., (the Company), and any eligible employee of an affiliated employer who has adopted the Plan. The Plan was amended and restated effective January 1, 2008, to include a 401(k) Safe Harbor provision. Effective for plan years beginning on or after January 1, 2008, the Plan was operating under the elective Safe Harbor provision. To be eligible to participate in the Plan, an employee must have completed 90 days of service and must be twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, eligible employees may contribute up to the maximum percentage allowable, not to exceed the limits as determined by the Internal Revenue Code, through payroll deduction. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are permitted to make catch-up contributions. Under the Safe Harbor provision, effective for the Plan years beginning on or after January 1, 2008, the Plan sponsor will contribute 100 percent of the first 1 percent of eligible compensation that a participant contributes to the Plan, and an additional 50 percent of contributions greater than 1 percent up to 6 percent. In any plan year, during which the Safe Harbor provision has not been elected, the Plan sponsor may contribute a discretionary matching contribution as determined on an annual basis. No such discretionary contributions were made during 2009 and 2008.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, and an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested at all times in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's 401(k) Safe Harbor provision and discretionary matching contributions plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after two years of credited service. Vesting in the Company's discretionary profit-sharing contributions portion of their accounts, plus earnings thereon, is based on six years of continuous service, at which time the participant is 100 percent vested.

Note 1: Plan Description (Continued)

Vesting (Continued)

Safe Harbor & Discretionary Matching Contributions		Discretionary Profit Sharing Contributions	
Vesting Service (Whole Years)	Vesting Percentage	Vesting Service (Whole Years)	Vesting Percentage
2	100%	2	20%
		3	40%
		4	60%
		5	80%
		6	100%

Investment Options

Upon enrollment in the Plan, participants may direct employee contributions in any of the designated investment options with ING Life Insurance and Annuity Company (ING). Participants should refer to the Plan document for a complete listing of investment options. Participants may change their investment options, at their discretion, in accordance with the Plan provisions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

Forfeitures

In 2009 and 2008, forfeited non-vested accounts totaled $30,341 and $3,785, respectively. These amounts will be used to reduce future employer contributions.

Note 2: Summary of Significant Accounting Policies

Plan Administration

The Company is the Plan administrator. Expenses incidental to the administration of the Plan, such as administrative services, are paid by the Company.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles (GAAP), requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 3: Plan Termination

While it is the intention of the Company to continue the Plan, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their accounts.

Note 4: Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Under this method of compliance, no audit procedures were performed by independent certified public accountants with respect to information certified to be complete and accurate by ING.

Information regarding investments and related transactions, and revenue included in the accompanying financial statements and supplementary information, has been certified by ING to be complete and accurate.

Note 5: Tax Status

The Internal Revenue Service has determined and informed The Allocation Company (third party administrator for the Plan) by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. The Plan relies on The Allocation Company's determination letter. The Plan is a prototype plan and an individual determination letter is not considered necessary.

Note 6: Investments

The following table presents the individual investment securities that exceeded 5% of the Plan's net assets available for benefits at December 31, 2009 and 2008:

December 31, 2009

Investments at Fair Value	Number of Shares	Per Share Net Value	Fair Value
EuroPacific Growth Fund	17,107.78	15.3885	$ 263,263

Wanger Select	8,212.03	7.7965	64,025
Investments at Contract Value			
ING Fixed Income Account			$ 254,638

During the Plan years ended December 31, 2009 and 2008, the Plan's net appreciation/(depreciation) in fair value of investments (including investments bought, sold, and held during the year) as determined by the unit value reported by ING, was $425,356 and ($363,747), respectively.

The net appreciation/(depreciation) in fair value of investments includes both realized and unrealized gains/(losses) and is being computed using the current value of assets as of the end of the years indicated above.

Note 7: Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 7: Fair Value Measurement (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Investment Contract

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 8).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

December 31, 2009	Level 3
Guaranteed investment contract:	
Balance, beginning of year	$ 261,876
Realized gains/(losses)	--
Unrealized gains/(losses) relating to instruments still held at the reporting date	(7,085)
Purchases, sales, issuances, and settlements (net)	249,613
Balance, End of Year	$ 504,404
The amount of total gains/(losses) for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (7,085)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation/(depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note 8: Investment Contract with Insurance Company

In 2006, the Plan entered into a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals, and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008, was $504,404 and $261,876, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2009	2008
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 9: Benefits Payable to Terminated and Retired Employees

The Plan assets include vested benefits payable to terminated and retired employees at December 31, 2009 and 2008, of $228,129 and $70,575, respectively. These benefits are expensed when paid. The Plan administrator does not distinguish whether an employee has retired and thus reports all former employees as terminated employees.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 11: Reconciliation of Financial Statements to Schedule H of Form 5500

There were no differences between the audited financial statements and Schedule H of Form 5500 at December 31, 2009.

Note 12: Subsequent Events

No material subsequent events were identified that would affect the financial statements for the year ended December 31, 2009. Subsequent events were evaluated through the date of this report.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
The Dynamic Network 401(k) Plan
San Antonio, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of The Dynamic Network 401(k) Plan (the Plan) as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the years then ended, and the supplementary schedules of assets (held at end of year) and nonexempt transactions as of, and for, the year ended December 31, 2009. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan during 2009 and 2008, except for comparing the information with the related information included in the 2009 and 2008 financial statements and supplementary information. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of, and for, the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with United States generally accepted auditing standards, and in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Plan Description

The following description of The Dynamic Network 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, adopted on July 1, 1999, is a defined contribution plan with a 401(k) option covering all eligible employees of Touchstone Communities, Inc., (the Company), and any eligible employee of an affiliated employer who has adopted the Plan. The Plan was amended and restated effective January 1, 2008, to include a 401(k) Safe Harbor provision. Effective for plan years beginning on or after January 1, 2008, the Plan was operating under the elective Safe Harbor provision. To be eligible to participate in the Plan, an employee must have completed 90 days of service and must be twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, eligible employees may contribute up to the maximum percentage allowable, not to exceed the limits as determined by the Internal Revenue Code, through payroll deduction. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are permitted to make catch-up contributions. Under the Safe Harbor provision, effective for the Plan years beginning on or after January 1, 2008, the Plan sponsor will contribute 100 percent of the first 1 percent of eligible compensation that a participant contributes to the Plan, and an additional 50 percent of contributions greater than 1 percent up to 6 percent. In any plan year, during which the Safe Harbor provision has not been elected, the Plan sponsor may contribute a discretionary matching contribution as determined on an annual basis. No such discretionary contributions were made during 2009 and 2008.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, and an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested at all times in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's 401(k) Safe Harbor provision and discretionary matching contributions plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after two years of credited service. Vesting in the Company's discretionary profit-sharing contributions portion of their accounts, plus earnings thereon, is based on six years of continuous service, at which time the participant is 100 percent vested.

Note 1: Plan Description (Continued)

Vesting (Continued)

Safe Harbor & Discretionary Matching Contributions		Discretionary Profit Sharing Contributions	
Vesting Service (Whole Years)	Vesting Percentage	Vesting Service (Whole Years)	Vesting Percentage
2	100%	2	20%
		3	40%
		4	60%
		5	80%
		6	100%

Investment Options

Upon enrollment in the Plan, participants may direct employee contributions in any of the designated investment options with ING Life Insurance and Annuity Company (ING). Participants should refer to the Plan document for a complete listing of investment options. Participants may change their investment options, at their discretion, in accordance with the Plan provisions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

Forfeitures

In 2009 and 2008, forfeited non-vested accounts totaled $30,341 and $3,785, respectively. These amounts will be used to reduce future employer contributions.

Note 2: Summary of Significant Accounting Policies

Plan Administration

The Company is the Plan administrator. Expenses incidental to the administration of the Plan, such as administrative services, are paid by the Company.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles (GAAP), requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 3: Plan Termination

While it is the intention of the Company to continue the Plan, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their accounts.

Note 4: Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Under this method of compliance, no audit procedures were performed by independent certified public accountants with respect to information certified to be complete and accurate by ING.

Information regarding investments and related transactions, and revenue included in the accompanying financial statements and supplementary information, has been certified by ING to be complete and accurate.

Note 5: Tax Status

The Internal Revenue Service has determined and informed The Allocation Company (third party administrator for the Plan) by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. The Plan relies on The Allocation Company's determination letter. The Plan is a prototype plan and an individual determination letter is not considered necessary.

Note 6: Investments

The following table presents the individual investment securities that exceeded 5% of the Plan's net assets available for benefits at December 31, 2009 and 2008:

December 31, 2009

Investments at Fair Value	Number of Shares	Per Share Net Value	Fair Value
EuroPacific Growth Fund	17,107.78	15.3885	$ 263,263
ING Solution 2015 Portfolio	14,848.44	9.8030	145,559
ING Solution 2025 Portfolio	19,845.82	9.1885	182,353
ING Solution 2035 Portfolio	16,595.69	9.0666	150,466
ING Solution 2045 Portfolio	29,665.27	8.8308	261,969
The Growth Fund of America	17,961.60	11.7940	211,839
Wanger Select	10,082.87	12.9917	130,994
Investments at Contract Value			
ING Fixed Income Account			$ 504,250

December 31, 2008

Investments at Fair Value	Number of Shares	Per Share Net Value	Fair Value
EuroPacific Growth Fund	10,507.76	11.0309	$ 115,910
ING Solution 2025 Portfolio	9,086.43	7.3078	66,402
ING Solution 2045 Portfolio	15,570.38	6.8027	105,920
The Growth Fund of America	11,269.69	8.7434	98,536
Wanger Select	8,212.03	7.7965	64,025
Investments at Contract Value			
ING Fixed Income Account			$ 254,638

During the Plan years ended December 31, 2009 and 2008, the Plan's net appreciation/(depreciation) in fair value of investments (including investments bought, sold, and held during the year) as determined by the unit value reported by ING, was $425,356 and ($363,747), respectively.

The net appreciation/(depreciation) in fair value of investments includes both realized and unrealized gains/(losses) and is being computed using the current value of assets as of the end of the years indicated above.

Note 7: Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 7: Fair Value Measurement (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Investment Contract

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 8).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009	Level 1	Level 2	Level 3	Total

Total Assets at Fair Value	$ 867,680	--	261,876	$ 1,129,556

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

December 31, 2009	Level 3
Guaranteed investment contract:	
Balance, beginning of year	$ 261,876
Realized gains/(losses)	--
Unrealized gains/(losses) relating to instruments still held at the reporting date	(7,085)
Purchases, sales, issuances, and settlements (net)	249,613
Balance, End of Year	$ 504,404
The amount of total gains/(losses) for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (7,085)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation/(depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note 8: Investment Contract with Insurance Company

In 2006, the Plan entered into a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals, and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008, was $504,404 and $261,876, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2009	2008
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 9: Benefits Payable to Terminated and Retired Employees

The Plan assets include vested benefits payable to terminated and retired employees at December 31, 2009 and 2008, of $228,129 and $70,575, respectively. These benefits are expensed when paid. The Plan administrator does not distinguish whether an employee has retired and thus reports all former employees as terminated employees.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 11: Reconciliation of Financial Statements to Schedule H of Form 5500

There were no differences between the audited financial statements and Schedule H of Form 5500 at December 31, 2009.

Note 12: Subsequent Events

No material subsequent events were identified that would affect the financial statements for the year ended December 31, 2009. Subsequent events were evaluated through the date of this report.
