We were engaged to audit the financial statements and supplemental schedules of the First Continental Mortgage Ltd. Traditional 401(k) Plan (the "Plan") as of December 31, 2009, and for the year then ended, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2008 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee of the Plan. Their report, dated October 9, 2009, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to investment income and investments, which was certified by John Hancock Life Insurance Company (the "trustee"), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the First Continental Mortgage Ltd. Traditional 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering employees of First Continental Mortgage Ltd. (the "Company"). Employees are eligible to become a participant of the Plan as of the entry date (the first day of the quarter coinciding with or following the date) when the employee first meets the requirements of six months of eligible service and attainment of 21 years of age. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Tax Status

The Plan obtained its latest determination letter on September 4, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocation of

- The Company's discretionary contributions, and
- Plan earnings and losses

Investments

The Plan's investments in pooled separate investment accounts are stated at fair value. The Funds are valued on a daily basis based upon the quoted market prices of the mutual funds. Participant loans are valued at cost, which approximates fair value. Investments representing 5% or more of assets are separately identified in Note C.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis, which approximates the accrual basis. Dividends are recorded on the ex-dividend date.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions

Participants have the option to make before-tax contributions to the Plan of up to 100% of each participant's compensation for the contribution period, subject to certain Internal Revenue Service limitations. The Company may make a matching contribution each year at its discretion. For the year ended December 31, 2009, the Company made matching contributions equal to 50% of the participants' first 3% of salary deferrals up to a maximum of $3,675. The Company elected not to make a matching contribution for the year ended December 31, 2008. The Company may make a profit sharing contribution each year at its discretion. No Company profit sharing contributions were made for the years ended December 31, 2009 or 2008.

Vesting

Participants are immediately vested in their contributions. For purposes of vesting in Company contributions, a year of service is defined as a 12-month vesting service period in which a participant completes at least 1,000 hours of service in a Plan year. Company contributions thereon vest pursuant to the following schedule:

Years of Service	Vesting Percentage
Less than 1 years	0%
1 years but less than 2 years	20%
2 years but less than 3 years	40%
3 years but less than 4 years	60%
4 years but less than 5 years	80%
5 years or more	100%

Forfeiture Provisions

Forfeitures are to be used as a reduction of future employer contributions. Forfeitures amounted to $4,340 and $3,067 at December 31, 2009 and 2008, respectively.

Payment of Benefits

At termination of service, a participant may receive the value of his or her account as a lump sum payment, as installment payments over a specified period of time (annually, quarterly or monthly), not exceeding the participants' life expectancy or joint life expectancy with their designated beneficiary, or as a purchase of a single premium annuity contract. The vested account balances of terminated participants amounted to $411,175 as of December 31, 2009.

Plan Termination

Although it does not intend to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued FASB ASC 820 "Fair Value Measurements" which is effective for fiscal years beginning after November 15, 2007. FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The Company's adoption of FASB ASC 820 effective January 1, 2008 had no material effect on the Plan's financial position or results of changes in net asset.

Reclassifications

Certain reclassifications have been made to prior year balances to conform to the current year presentation.

B. TRUSTEE AND ADMINISTRATIVE SERVICES

The Company pays the Plan's accounting fees and certain administrative fees. The Plan pays the remainder of the administrative fees. The Company incurred $12,666 for accounting fees and certain administrative fees during the year ended December 31, 2009. These fees are not reflected in the accompanying financial statements.

John Hancock Life Insurance Company serves as the trustee whereby its services included executing participants' investment transactions and the payment of benefits. John Hancock Life Insurance Company provided 2009 and 2008 fund summaries by investment type to the administrators, which were used to prepare the Plan's financial statements. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee for the years ended December 31, 2009 and 2008:

	2009	2008
Investments in pooled separate accounts, at fair value	$2,812,034	$1,961,946
Participant loans	$119,883	$98,936
Net (depreciation) appreciation on investments	$649,063	($881,609)
Interest and dividends	$7,457	$7,775

C. FAIR VALUE OF FINANCIAL INSTRUMENTS

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Financial Accounting Standards Board ASC 820 "Fair Value Measurements", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy fives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that his significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ('NAV') of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
