To the Administrator of the
Waco International Corporation
401(k) Retirement Savings Plan

We were engaged to audit the financial statements of the Waco International Corporation 401(k) Retirement Savings Plan as of and for years ended December 31, 2010 and 2009, and the supplemental schedule as of December 31, 2010 as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Great-West Life & Annuity Insurance Corporation, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WACO INTERNATIONAL CORPORATION
401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Waco International Corporation 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan, established on January 1, 1989, is a defined contribution plan covering eligible employees of Waco International Corporation and certain subsidiaries (the Company). The Company is the plan sponsor. Assets of the Plan are held by the trustee, Great-West Life & Annuity Insurance Corporation (Great West). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation
Employees are eligible to participate in the Plan if they are not covered by a collective bargaining agreement (unless such agreement provides for coverage under the Plan) and are 18 years old and have six consecutive months of service. Participation begins on the next open enrollment date, as defined in the plan document, coinciding with or next following the date the eligibility requirements are met.

Participant Accounts and Contributions
Each participant's account is credited with the participant's contributions, matching Company contributions, if any, and investment fund earnings. Plan participants may make contributions to the Plan, pursuant to a salary deferral agreement, which are considered to be before tax contributions. The amount deferred may not be less than 1% nor more than 85% of the participant's total compensation, and may not exceed the maximum allowable deferral under the Internal Revenue Code (IRC). The Plan also allows Roth elective deferrals.

Company matching contributions are discretionary. The Company matched 25% of each participant's salary deferral, up to 6% of total compensation, through the end of February 2009. Effective March 1, 2009, the Company discontinued matching contributions indefinitely.

Rollover Contributions
Distributions from another qualified plan may be transferred into the Plan.

Investment Options
Participants may direct the manner in which their contributions are to be allocated among the investment options available under the Plan. The Company matching contributions are allocated based upon the participant investment elections.

Plan Expenses
Expenses of the Plan may be paid by either the Plan or the Company.

Vesting
Participants are immediately vested in their pretax or rollover contributions. Vesting in Company matching contributions occurs ratably over five years.

Forfeitures
Forfeitures of nonvested account balances shall be used to reduce employer matching contributions or plan expenses. These balances totaled $9,600 and $6,700 at December 31, 2010 and 2009, respectively. For the years ended December 31, 2010 and 2009, no forfeitures were used to offset employer contributions or plan expenses.

Notes Receivable from Participants
The Plan allows for participants to borrow from their accounts a maximum of 50% of their vested account balance up to $50,000. Loans outstanding earn interest at the prime rate in effect at the time the loan is approved plus one-half percent. Interest on loans outstanding at December 31, 2010, ranged from 4.25% to 9.25%. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all amounts credited to participant accounts shall become fully vested.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Benefit Payments
Benefit payments are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Accounting Change

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $553,504 and $625,645 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

Investments in Insurance Contracts

As described in Accounting Standard Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive contacts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Guaranteed Portfolio Fund is a fully benefit-responsive fixed annuity contract. Using the discounted cash flow methodology, the fair value of the investment contract equals the contract value.

3. INVESTMENTS

The Plan's investments are all participant-directed. The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2010 and/or 2009.

	2010	2009
Guaranteed Portfolio Fund	$ 1,431,544	$ 1,795,074
American Funds Washington Mutual	714,240	835,121
Columbia Acorn Fund Z	508,719	559,164
American Funds EuroPacific Fund	424,374	606,786
Lazard Emerging Markets	492,004	379,573
PIMCO Total Return Admin Fund	402,065	529,017
Lord Abbett Small Cap Value Fund	568,124	650,954
American Funds Growth Fund	1,250,674	1,233,733
Davis New York Venture	770,655	1,225,230
Pioneer Cullen Value Fund	625,416	468,013

The net investment gain on the statements of changes in net assets available for benefits reflects the net gains and losses on the investments, which are invested primarily in mutual funds.

The plan administrator has obtained certification from the trustee that the above information, the interest and dividend income reported on the statements of changes in net assets available for benefits and the data included in the accompanying supplemental schedule of assets (held at end of year), is complete and accurate.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures, establishes* a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as held by the Plan. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed Portfolio Fund: Valued daily using the valuation method disclosed in the annuity contract as calculated by the provider.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Level 1	Level 2	Level 3	Total
December 31, 2010				
Mutual Funds	$ 7,424,428	$ -	$ -	$ 7,424,428
Guaranteed Portfolio Fund	-	1,431,544	-	1,431,544
Total assets at fair value	$ 7,424,428	$ 1,431,544	$ -	$ 8,855,972
December 31, 2009				
Mutual Funds	$ 8,112,567	$ -	$ -	$ 8,112,567
Guaranteed Portfolio Fund	-	1,795,074	-	1,795,074
Total assets at fair value	$ 8,112,567	$ 1,795,074	$ -	$ 9,907,641

5. INVESTMENT IN GROUP ANNUITY CONTRACT

The Plan invests in a benefit responsive fixed annuity contract with Great-West Life & Annuity Insurance Company. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specific period of time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West Life & Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or apportion of their investment at contract value. The contract has certain termination provisions, which could limit the ability of the Plan to transact at contract value. The Plan administrator does not believe that the occurrence of any such value event is probable.

The crediting interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Such interest rates are reset on a quarterly basis. The crediting interest rate and current yields at December 31, 2010 and 2009 were approximately 3.1% and 3.2%, respectively.

6. FEDERAL INCOME TAXES

In a letter dated November 17, 2001, the Internal Revenue Service notified Great West that Great West's Prototype Non-Standardized Profit Sharing Plan with CODA is designed in accordance with applicable sections of the IRC.

In June 2007, the Plan was amended and adopted the above mentioned prototype design and the Company has decided to rely on this letter with respect to qualification of its plan under the applicable sections of the IRC. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In order for the Plan to satisfy the non-discrimination tests required under Section 401(k) of the Code, certain participants were entitled to refunds of contributions made and earnings on those contributions at December 31, 2010 and 2009. These refunds are recorded as a liability in the accompanying financial statements when incurred and on the Form 5500 when they are paid.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 9,405,209	$ 10,521,833
Refunds due of participant contributions	4,267	11,453
Net assets available for benefits per the Form 5500	$ 9,409,476	$ 10,533,286

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500:

	2010
Benefits paid to participants per the financial statements	$ 2,523,103
Change in refunds due of participant contributions	7,186
Benefits paid to participants per the Form 5500	$ 2,530,289

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 12, 2011, the date which the financial statements were available to be issued. Other than the matter discussed below, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

On September 9, 2011, the Company filed a voluntary petition for relief under Chapter 11 of the Bankruptcy Code. The Company continues to operate its business and manage its property and assets as a debtor in possession. On September 14, 2011, the Company entered into an agreement to sell substantially all of its assets to an unrelated company. The ultimate outcome of these proceedings cannot be predicted at this time, but the Plan is not expected to be significantly impacted.
