NOTES TO THE FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - Description of Plan

The following description of the Worldwide Oilfield Machine, Inc. 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan was started on January 1, 1993, and was amended and restated effective November 1, 2009. The Plan is a 401(k) profit sharing plan covering all full-time employees of Worldwide Oilfield Machine, Inc. (the Company) who have one year of service and are age twenty one years or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Eligible employees may elect to contribute up to $16,500, participants age 50 or older may elect to contribute an additional $5,500 to the Plan through periodic payroll deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company provided a match of 100 percent of the employee's annual compensation in 2009 and 2008, up to a limit of 5% of employee base compensation as defined in the Plan. Matching contributions are at the Company's discretion each year.

C. Participant Accounts

Each participant account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions and amounted to $45,994 and $66,401 as of December 31, 2009 and 2008, respectfully.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - Description of Plan (Continued)

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant vests 20% per year starting in the second year and is 100 percent vested after six years of service.

E. Investment Options

Upon enrollment in the Plan, a participant may direct the Trustee as to the investment of his or her account balance in any increments in several investment options.

F. Participant Notes

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5% to 9% which are commensurate with local prevailing rates determined by the Plan. Principal and interest is paid ratably through payroll deductions.

G. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participants' vested interest in his or her account in either a lump-sum amount, installments or by annuity. Hardship withdrawals are also allowed.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 - Summary of Accounting Policies

Basis of Accounting -

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Changes in Net Assets Available for Benefits is prepared on a contact value basis.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset values of shares held by the Plan at year-end.

Participant notes and receivables are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis.

NOTE 2 - Summary of Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain reclassifications have been made to the 2008 financials to conform with this year's presentation.

NOTE 3 - Administration of Plan Assets

The Plan is sponsored and administered by the Company and absorbs substantially all administrative expenses on behalf of the Plan. The Plan's record keeper is Standard Retirement Services, who performs certain accounting and tax services. Reliance Trust Company (Reliance) hold and manages all Plan assets and makes distributions to participants.

NOTE 4 - Investments

The following table represents participant directed plan investments. Investments that represent 5 percent or more of the Plan's net assets are separately identified. This information was obtained from data that has been prepared and certified as complete and accurate by Reliance for 2009 and 2008, respectfully.

Interest - participant notes	$23,506	$24,449
Interest - other	420	12,432
	$23,926	$36,881

NOTE 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 - Tax Status

The Plan is an adoption of a standardized prototype. The Internal Revenue Service granted a favorable letter of determination to the prototype plan. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, as amended.

NOTE 7 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

December 31, 2009	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Mutual funds	$6,031,802	$6,031,802	$ -
Investment contract with insurance company	-	-	-
Participant loans	332,416	-	332,416
	$6,364,218	$6,031,802	$332,416
December 31, 2008			
Mutual funds	$4,246,991	$4,246,991	$ -
Investment contract with insurance company	-	-	-
Participant loans	373,310	-	373,310
	$4,620,301	$4,246,991	$373,310

SFAS No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they provide the most reliable evidence of fair value. No level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE 7 - Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the securities held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participants account balance. The following table provides further details of the Level 3 fair value measurements.

December 31, 2009	Investment Contract	Participant Loans	Total
Beginning balance	$ -	$373,310	$373,310
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	23,506	23,506
Purchases, sales, issuances, and settlements (net)	-	(64,400)	(64,400)
Ending balance	$ -	$332,416	$332,416

NOTE 7 - Fair Value Measurements (Continued)

December 31, 2008	Investment Contract	Participant Loans	Total
Beginning balance	$ -	$370,419	$370,419
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	24,449	24,449
Purchases, sales, issuances, and settlements (net)	-	(21,558)	(21,558)
Ending balance	$ -	$373,310	$373,310

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 and 2008 are reported in net appreciation in fair value of investments.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - Subsequent Events and Date of Management's Review

The Plan has evaluated all subsequent events through September 28, 2010, which represents the date of issuance of these financial statements, to ensure that these financial statements includes appropriate disclosure of events both recognized in the financial statements as of December 31, 2009, and events which occurred subsequent to December 31, 2009 but were not recognized in the financial statements.
