Report of Independent Auditors

To the Participants and Administrator of Hanger Orthopedic Group, Inc. and Selected Subsidiaries Tax Deferred Savings Plan:

We were engaged to audit the financial statements and supplemental schedules of Hanger Orthopedic Group, Inc. and Selected Subsidiaries Tax Deferred Savings Plan (the "Plan") at December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Hanger Orthopedic Group, Inc. and Selected Subsidiaries (the "Company") Tax Deferred Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. The Company's employees become eligible to participate in the Plan immediately upon meeting the Plan's eligibility requirements. Employees are auto-enrolled within the first 30 days of employment at a 6% deferral rate, but can opt for a different deferral rate (or opt out of the Plan entirely). The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). Audit and related expenses are paid by the Company; all other administrative expenses are paid by the Plan. On May 1, 2008, Fidelity Management Trust Company was appointed to serve as trustee and custodian of the Plan and recordkeeping services are provided by Fidelity Investments.

Contributions

Each year, participants may contribute up to 75% of pretax annual eligible compensation. As defined in the Plan, subject to Internal Revenue Code ("IRC") limitations, participant contributions in 2010 and 2009 were limited to $22,000 for participants over 50 years of age and $16,500 for all other participants. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. During 2010 and 2009, the Plan offered 23 and 22 mutual funds, respectively, and one collective trust fund for both years as investment options for participants. The Company contributes a fixed amount equal to 30% of the participant's salary deferrals. In applying this matching percentage, only salary deferrals up to 6% of the participant's compensation paid will be considered.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $223,575 and $78,016, respectively, to apply toward future employer contributions.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balances in the participants' accounts and bear interest at a fixed rate determined at loan origination, commensurate with local prevailing rates determined quarterly by the Plan trustees. Interest paid on the outstanding balances is credited to the participants' accounts. The Company fixes the term of the loan, not to exceed 5 years, unless the loan qualifies as a home loan. The Company may fix the term of a home loan not to exceed 10 years. Loans generally become due and payable in full once a participant terminates employment. Principal and interest are paid ratably through payroll deductions. Participant loan interest rates range from 3.25% to 10.50% and have maturities through August, 2025.

Payment of Benefits
On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, periodic installments over a specified period or annuity payments. If the vested account balance does not exceed $1,000, and a rollover is not requested, a participant must receive the value of the vested interest in his or her account as a lump sum distribution.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined–contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined–contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investments contracts through a collective trust. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
Administrative fees of $117,383 were charged by the Plan to the individual participant accounts during 2010. Additionally during 2010, the Company incurred expenses of approximately $40,000 on behalf of the Plan for audit and related fees.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. See Note 5 for additional information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is accrued when earned.

In the Statement of Changes in Net Assets Available for Benefits, the Plan presents net appreciation in fair value of investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments acquired, disposed, and held during the year.

Risks and Uncertainties
The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increase in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

New Accounting Policies
In January 2010, the Financial Accounting Standards Board ("FASB") issued additional authoritative guidance for fair value measurements and disclosures. This includes the disclosure of significant transfers in and out of Level 1 and 2 measurements and describing the reasons for the transfers, reporting of information separately for purchases, sales, issuances, and settlements within Level 3 measurements, level of disaggregation, and input and valuation techniques. The additional authoritative guidance, except for the reporting of information within Level 3 measurements was effective January 1, 2010. The adoption of the additional guidance on January 1, 2010 did not have a material impact on the Plan's financial statements. The additional authoritative guidance for the reporting of activity for purchases, sales, issuances, and settlements within Level 3 measurements is effective January 1, 2011. The Company adopted the guidance early; however no disclosures were affected as there were no Level 3 measurements at December 31, 2010.

Effective January 1, 2010, the Plan adopted the FASB guidance that requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan has reclassified participant loans of $4,350,283 and $3,343,898 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants.

3. Information Certified by the Plan's Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statement of Net Assets Available for Benefits as of December 31, 2010 and 2009 and the Schedule of Assets (Held at End of Year) as of December 31, 2010, the related investment and notes receivable from participants activity reflected in the Statement of Changes in Net Assets Available for Benefits and the related investment information included in the accompanying notes to the financial statements, except for the leveling required under the

authoritative guidance included in Note 5.

4. Investments

The following are investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009:

	2010	2009
Fidelity Advisor Freedom 2025	$ 19,948,050	$ 16,974,194
Fidelity Advisor Stable Value Portfolio - Class I	16,060,062	16,188,476
Fidelity Advisor Freedom 2020	18,183,228	15,437,802
Fidelity Advisor Freedom 2030	17,049,758	13,688,079
Fidelity Advisor Freedom 2015	15,661,935	13,389,957
Fidelity Advisor Freedom 2035	14,612,954	11,505,313
Fidelity Advisor Freedom 2040	9,512,961	6,726,267
Fidelity Advisor Freedom 2010	-	6,618,534

The Plan's investments, in mutual funds, including realized gains and losses on investments bought and sold, as well as unrealized gains and losses on investments held during 2010, appreciated in value by $14,219,348.

5. Fair Value Measurements

On January 1, 2008, the Plan adopted the authoritative guidance for fair value measurements and disclosures, which establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. The authoritative guidance defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

The authoritative guidance requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy by which assets and liabilities must be grouped. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are as follows:

Level 1 Inputs to the valuation methodology are unadjusted price quotes in active markets for identical assets or liabilities.

Level 2 Inputs to the valuation methodology include:

1. Quoted prices for similar assets or liabilities in active markets;
2. Quoted prices for identical or similar assets or liabilities in inactive markets;
3. Inputs other than quoted prices that are observable for the asset or the liability;

4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable that are supported by little or no market activity and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Valued at the net asset value ("NAV") of shares held by the Plan at year end. These funds are publicly traded on active exchange and valued primarily on the basis of market quotations, official closing prices.

Collective Trust
Valued at the NAV of shares held by the Plan at year end, which is not a publicly quoted price in an active market, is based on the market value of its underlying investments. The Collective Trust does not have any unfunded commitments, has daily liquidity with trades settling between 1 and 3 days, and is not subject to any redemption restrictions at measurement date.

There have been no changes in the valuation methodologies used at December 31, 2010 and 2009 to value the Plan's assets at fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	2010			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds

	$105,913,160	$ 16,167,323	$ -	$122,080,483

The Target Retirement Fund seeks high total return until its target retirement date. Thereafter the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation. Investing in a combination of underlying Fidelity equity, fixed-income, and short-term funds using a moderate asset allocation strategy designed for investors expected to have retired around the target year. The investment risks of each Fidelity Freedom Fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap, commodity-linked, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. In the event of termination, participants immediately become 100% vested in all of their accounts.

7. Related Parties

Certain Plan investments are shares of mutual funds and collective trust funds managed by the Plan trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. The Plan trustee was paid approximately $117,000 by the Plan related to party-in-interest transactions during 2010.

8. Tax Status

The Internal Revenue Service has determined and informed Fidelity Management & Research Co., the sponsor of the Plan adopted by the Company, by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Per Revenue Procedure 2005-16, an employer adopting such a plan may rely on the Plan's letter if the terms of the plan are followed in operation. The Company believes that the Plan has met the criterion in Revenue Procedure 2005-16. Accordingly, this reliance on the favorable opinion letter obtained by Fidelity Management & Research Co. is equivalent to a favorable determination letter issued to the Company. The prototype plan adopted has been amended since receipt of the IRS letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the plan is no longer subject to IRS examination for plan years prior to 2007.

9. Reconciliation of Financial Statements to Form 5500

The following reconciles net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2010	**2009**
Net assets available for benefits per financial statements	$155,298,898	$126,331,866
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	306,059	(21,154)
Net assets available for benefits per the Form 5500	$155,604,957	$126,310,712

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	Year Ended December 31, 2010
Total investment income per the financial statements	$ 17,634,261
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	
Plus: Prior year adjustment increase	21,154
Current year adjustment decrease	306,059
Interest from notes receivable from participants	189,839
Total investment income per Form 5500	$ 18,151,313

10. Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.
