Plan Administrator
Semblex Corporation
Employee Profit Sharing & 401(k) Plan

We were engaged to audit the financial statements of the Semblex Corporation Employee Profit Sharing & 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note G, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Semblex Corporation Employee Profit Sharing & 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time salaried and hourly employees of Semblex Corporation (the "Company") who have attained age 21 and completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute from 1% to 60% of their pretax annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The first 5% of the participant's compensation contributed to the Plan is matched by the Company at a rate of 25%. In addition, the Company may make a discretionary profit-sharing and qualified non-elective contribution (discretionary contributions), which are not dependent upon employee contributions to the Plan. During the year ended December 31, 2009, the Company did not make discretionary profit-sharing contributions, discretionary qualified non-elective contributions, or any Employer matching contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions, Company matching contributions, and allocations of the Company's discretionary profit-sharing and discretionary qualified non-elective contributions, if any, and Plan earnings or losses. Allocations of Company discretionary profit-sharing contributions, Company discretionary qualified non-elective contributions, and earnings are based on participants' compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are immediately vested in their elective deferral contributions, Company matching contributions, and Company discretionary qualified non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary profit-sharing contribution is based on years of continuous service and is calculated as follows:

Years of service	Vested percentage
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Forfeited Accounts

Forfeited non-vested accounts are used annually to reduce Company contributions. In 2009, as there were no Company contributions, the forfeited non-vested accounts were not used. As of December 31, 2009 and 2008, the forfeited non-vested account balance totaled $16,779 and $3,260, respectively.

Payment of Benefits

Upon termination of service, death, disability or retirement, any benefit payable to a participant that, in total, is $5,000 or less shall be distributed in a lump sum. For distributions greater than $5,000, the participant may elect one of the following methods of payment:

1. Equal annual installments distributed over a period of time not greater than the participant's life expectancy or the joint life expectancy of the participant and participant's beneficiary, adjusted periodically for gains and losses.

2. A single-sum payment.

Upon financial hardship, as defined by the Plan document, distributions are permitted prior to termination of service.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Financial Accounting Standards Board ("FASB") has issued guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fair Value Measurements - Continued

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds - Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Collective trust - Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active.

Participant loans - Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

New fair value measurement guidance that became effective for periods ending after June 15, 2009, requires disclosure of the inputs and valuation techniques used, as well as any changes in valuation techniques and inputs used during the period, to measure fair value in interim and annual periods. In addition, the presentation of the fair value hierarchy is required to be presented by major security type.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fair Value Measurements - Continued

The Plan also adopted the FASB guidance in its December 31, 2009 financial statements and changed its valuation technique for its investment in a collective trust fund. The new guidance affects how the Plan measures the fair value of investments in certain entities that do not have a quoted market price but calculate NAV per share or its equivalent. As a practical expedient, the guidance permits, but does not require, the Plan to measure the fair value of an investment in an investee within the scope of the guidance based on the investee's NAV per share or its equivalent. As a result of applying the practical expedient, the fair value of the Plan's investment in a collective trust fund was determined based on the NAV beginning with the December 31, 2009 valuation. Adoption did not have a material impact on the fair value determination of the collective trust; however, it did require additional disclosures as follows.

Investments valued at NAV as of December 31, 2009, consisted of the collective trust fund in the Fidelity MIP. This fund seeks to preserve principal investment while earning interest income. The MIP will try to maintain a stable $1 unit price, but it cannot guarantee that it will be able to do so. The yield of MIP will fluctuate. The MIP invests in investment contracts (wrap contracts) issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity.

The NAV of the MIP is determined using the market value or fair value, if market data is unavailable, of the underlying securities. The fund allows for daily liquidity with no additional days notice required for redemption for participant-directed transactions. The fair value of the fund at December 31, 2009, was $2,452,650. Were the Plan to initiate a full redemption of the MIP, the investment advisor reserves the right to temporarily delay withdrawal from the trust for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly manner.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

Participant loans	
Balance, beginning of year	$572,689
Purchases, sales, issuances and settlements, net	(98,721)
Balance, end of year	$473,968

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of mutual funds.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

Certain expenses incurred in the administration of the Plan are paid by the Company. To the extent not covered by the Company, all other expenses are paid by the Plan.

NOTE C - INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are as follows at December 31:

	2009	2008
Common collective trust fund		
Fidelity Managed Income Portfolio*	$2,498,258	$2,816,342
Mutual funds		
Fidelity Blue Chip Growth Fund	N/A	424,136
Fidelity Diversified International Fund	653,550	582,051
Fidelity Freedom 2030 Fund	690,948	516,867
Fidelity U.S. Bond Index Fund	828,103	781,505
Fidelity Freedom 2020 Fund	557,863	424,186

* Fair market value of the Fidelity Managed Income Portfolio is $2,452,650 and $2,672,198 as of December 31, 2009 and 2008, respectively.

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D - PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are funds managed by Fidelity Investments, an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE E - TAX STATUS

The Plan is a Flexible Nonstandardized Safe Harbor 401(k) Profit Sharing Prototype Plan ("Prototype Plan") sponsored by Fidelity Management & Research Company and adopted by the Company. The Prototype Plan obtained its latest opinion letter on October 9, 2003, in which the Internal Revenue Service ("IRS") stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not requested its own determination letter from the IRS. The Plan administrator believes that the Plan is currently designed and being operated in all material respects in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and that the related trust was tax exempt as of the financial statement dates.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company discretionary profit-sharing portion of their account balances.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2009.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2009	2008
Net assets available for benefits per financial statements	$9,615,595	$8,480,972
Less adjustment from contract value to fair value for fully benefit-responsive investment contracts through a collective trust	(45,607)	(144,144)
Net assets available for benefits per Form 5500	$9,569,988	$8,336,828

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the year ended December 31, 2009:

Total net investment income per financial statements	$1,520,985
Less adjustment from contract value to fair value for fully benefit-responsive investment contracts through a collective trust for 2009	(45,607)
Plus adjustment from contract value to fair value for fully benefit-responsive investment contracts through a collective trust for 2008	144,144
Total net investment income per Form 5500	$1,619,522

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J - SUBSEQUENT EVENTS

Plan management has determined that no material events or transactions occurred subsequent to December 31, 2009, and through September 16, 2010, the date the Plan's financial statements were available for issuance, that would require adjustments and/or additional disclosures in the Plan's financial statements.
