INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of The Orthomerica Products, Inc. 401(k) Retirement Savings Plan:

We were engaged to audit the accompanying statement of net assets available for plan benefits of The Orthomerica Products, Inc. 401(k) Retirement Savings Plan (the "Plan") as of December 31, 2009, and the related statement of changes in net assets available for plan benefits for the year then ended, and the supplemental Schedule H, Line 4i – Schedule of Assets (Held At End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management. Other auditors were engaged to audit the financial statements of the Plan for the year ended December 31, 2008, whose report dated October 12, 2009 disclaimed an opinion on the 2008 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Hartford Life Insurance Company and Principal Life Insurance Company, the custodians of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedule. The plan administrator informed us that Principal Life Insurance Company held the Plan's investment assets as of January 1, 2009 and through September 11, 2009, at which time substantially all investment assets were transferred to the Hartford Life Insurance Company. The plan administrator has obtained certifications from the custodians that the information as of December 31, 2009 and 2008 and for the year ended December 31, 2009 provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2009 financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009AND 2008

NOTE A - DESCRIPTION OF PLAN

The following description of The Orthomerica Products, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Orthomerica Products, Inc. (the "Company") who have six months of service and are age eighteen or older. In 2009, the Plan was amended and restated and a new custodian was appointed. Substantially all plan assets were transferred to the new custodian into funds comparable to those offered by the previous custodian. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Each year, participants may contribute from 1 to 100% of their compensation, as defined in the plan, subject to certain Internal Revenue Code limitations. Unless the participant elects otherwise, an automatic deferral of 2% will apply. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company provides a discretionary matching contribution equal to 25% of each employee's elective deferral contributions up to 15% of an employee's compensation. The Company can elect to make an additional discretionary contribution to the Plan each year at the option of the Company's board of directors. Contributions are subject to certain limitations.

Investment Options - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan is currently invested in a group annuity contract consisting of pooled separate accounts and a guaranteed interest account. The underlying investments held in the pooled separate accounts are primarily held in mutual funds. The guaranteed interest account primarily invests in investment grade fixed income securities and provides for a guaranteed minimum interest rate as specified in the contract.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance.

The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2009, interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan.

For termination of service due to other reasons, and if the vested account balance exceeds $5,000, a participant may elect to receive a lump sum distribution or to remain in the Plan. If the vested account balance is less than $5,000 but more than $1,000, the plan administrator will distribute the participant's entire vested account balance, either as a lump-sum distribution or as a direct rollover to an individual retirement account or to another employer's tax qualified plan. If the vested account balance is less than $1,000, the plan administrator will distribute the participant's entire vested account balance as a lump-sum distribution as soon as administratively feasible.

Forfeitures – Forfeitures are used to pay plan expenses. At December 31, 2009 and 2008, there was no balance in the forfeited non-vested accounts. During 2009, forfeitures of $301 were used to pay plan expenses.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statements of net assets available for plan benefits present the fair values of the investment contracts as well as the adjustment to the fully benefit responsive investment contracts from fair value to contract value. The accompanying statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as

held during the year.

Payment of Benefits - Benefits are recorded when paid.

Risks and Uncertainties - The Plan invests in various investment securities primarily through pooled separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

Operating Expenses and Party-In-Interest Transactions – Certain plan investments are units owned in pooled separate accounts which are primarily managed and invested by Hartford Life Insurance Company ("Hartford"), a custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were approximately $39,700 for the year ended December 31, 2009.

The Plan's administrative expenses are paid in part by the Plan and in part by the Company, as provided by the plan document. In addition, certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events – The Plan has evaluated subsequent events through October 12, 2010, the date which the financial statements were available to be issued.

Reclassifications – Certain amounts reflected in the notes to the financial statements as of December 31, 2008 have been reclassified to conform to the presentation in the 2009 financial statements.

NOTE C – INVESTMENTS AND INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The following is a summary of the investment information regarding the Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Hartford and Principal Life Insurance Company ("Principal") and as directed by the plan administrator, is unaudited. The plan administrator has obtained certifications from Hartford and Principal that the information is complete and accurate.

Net appreciation in fair value of investments	$ 570,379

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Pooled Separate Accounts - These separate accounts invest mainly in mutual funds and fixed securities. Although the underlying investments may have Level 1 pricing inputs, the net asset value of the pooled separate accounts are not publicly quoted and accordingly these investments are classified within Level 2 of the valuation hierarchy. There is one pooled separate account held in a custodial account with Principal which is invested mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. These underlying real estate investments have unobservable level 3 pricing inputs and accordingly are classified as Level 3 of the valuation hierarchy.

Guaranteed Interest Account - The guaranteed interest account is a fixed account invested in the general asset account of Hartford and reported at fair value based upon information reported by Hartford. The fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. The contracts are classified within Level 2 of the valuation hierarchy.

Common Collective Investment Trust - This investment held by the Principal Life Insurance Company as of December 31, 2008 is a collective investment trust for which the net asset value is based on the market value of its underlying investment. The fund contains synthetic investment contracts comprised of both underlying investments and contractual components. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Investment Contract - The general insurance contract with Principal Life Insurance Company is a flexible investment annuity consisting of guaranteed interest accounts reported at fair value. The fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. The contracts are classified within Level 3 of the valuation hierarchy.

Participants Notes Receivable - Loans to participants are valued at amortized cost, which approximates fair value and are classified within Level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE E - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

Guaranteed Interest Account - Through the group annuity contract entered into with Hartford during 2009, the Plan offers a fixed account investment option. The objective of this fund is to maintain a competitive fixed interest rate and a minimum guaranteed rate of return. The fixed account is invested in the general asset account of Hartford and is guaranteed by the Hartford's claims paying ability. Hartford's general account is primarily invested in investment grade fixed income securities. Hartford credits the fixed account value with interest at a rate declared each calendar quarter, but not less than the minimum interest rate of 3% as specified in the contract. The actual annualized yield on this account approximated the minimum interest rate of 3%. The contract has certain restrictions that impact the participants' ability to collect the full contract value. The agreement does not allow transfers and surrenders from the fixed account if the transactions in any 12 month period exceed one-sixth of the fixed account values under the agreement as of the most recent month-end value from one year prior, unless the Hartford consents.

Guaranteed Investment Contract – Prior to the change in custodian to the Hartford, the Plan had entered into an investment contract with Principal. Principal maintained the contributions in a general fixed account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan, unless the funds were withdrawn prior to maturity in which case there may have been a market value adjustment.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company's contribution portion of their accounts.

NOTE G - TAX STATUS

Prior to January 1, 2009, the Plan operated under a standardized prototype plan document, which the Internal Revenue Service had determined and informed the trustee by a letter dated July 22, 2003 that the prototype plan document was designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the plan was amended and restated January 1, 2009, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

NOTE H – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
