Report of Independent Auditors

To the Participants and Administrator of
New York Life Insurance Company
NYLIC Retirement Plan

We were engaged to audit the financial statements and supplemental schedules of New York Life Insurance Company NYLIC Retirement Plan (the "Plan") at December 31, 2009 and December 31, 2008 and for the years then ended, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by New York Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's immediate participation guarantee contract and pooled separate accounts investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2009 and December 31, 2008 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NEW YORK LIFE INSURANCE COMPANY
NYLIC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Nylic Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

A. General

The Plan is a defined benefit pension plan covering substantially all eligible agents under contract with New York Life Insurance Company (the "Company") or its domestic life insurance subsidiaries on or after the effective date of the Plan, January 1, 1982. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code of 1986, as amended ("Code").

B. Pension Benefits

Plan participants are entitled to annual pension benefits beginning at normal retirement date, which is the later of the last day of the month in which age 65 is attained or the completion of 5 years of vesting service. The benefit generally is the sum of the agent's Frozen Accrued Benefit, if applicable, and his/her Earnings-Related Benefit Accruals ("ERBA"). The Frozen Accrued Benefit is the amount accrued as of December 31, 1990, for service, if any, on or prior to that date under the production-related benefit formula. For periods of service after December 31, 1990, the agent's ERBA are calculated by multiplying the sum of his/her Pensionable Earnings credited after 1990 by 2.75%. The Plan also provides benefits to certain eligible participants whose retirement benefit under the Plan is less than their Senior NYLIC Income (i.e., compensation under certain agents' contracts for agents who have completed 20 Nylic years) so that their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior NYLIC Income.

The Plan permits early retirement if the agent has completed at least 20 years of vesting service. In addition, the Plan provides for a deferred vested benefit for participants who do not qualify for a normal or early retirement benefit, but have completed at least 5 years of vesting service at termination. Agents may elect to receive their pension benefits on a single life basis, a 50% joint and survivor basis, or effective as of January 1, 2009, a 75% joint and survivor basis. Single sum cash payments will be made in cases where the commuted value of retirement income payments would be $1,000 or less.

C. Death and Disability Benefits

The Plan provides for a pre-retirement survivor annuity payable to a participant's surviving spouse in the event of the death of an active agent who has completed at least 5 years of vesting service, and a survivor annuity payable to the surviving spouse of a participant who dies while receiving benefits in the form of a joint and survivor annuity.

Participants with 10 years of vesting service who become totally and permanently disabled may retire at any time and are eligible to receive a disability retirement benefit after the disability has existed continuously for 30 days.

D. 401(h) Account

On January 1, 1990, the Plan established an account under Section 401(h) of the Code to prefund postretirement health care benefits for agents. In accordance with Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retired agents and their beneficiaries.

The related obligations for health benefits under the Section 401(h) account are not included in this Plan's obligations in the Statements of Accumulated Benefits, but are reported as obligations in the financial statements of the Group Plan for New York Life Agents. These assets are held in an immediate participation guarantee contract issued by the Company. Employer contributions or qualified transfers to the 401(h) account are determined annually at the discretion of the Plan sponsor.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

B. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions, including estimates that affect the actuarial present value of accumulated benefits, which adjust for the time value of money and the probability of payment, at the date of the financial statements. Actual results could differ from those estimates. The method for developing the actuarial present value of accumulated benefits for agents is described in Note 2F – Actuarial Present Value of Accumulated Benefits.

C. Valuation of Investments

Under Department of Labor instructions for the filing of Form 5500 and GAAP, immediate participation guarantee ("IPG") contracts entered into before March 20, 1992 may be valued at fair value or at amounts reported by the insurance company, that is contract value. The Company has elected to use contract value as the basis for valuing the Plan's IPG contract, which was executed on April 30, 1982. Contract value represents contributions made under the contract, plus interest earned, less funds used to pay benefits to participants and their beneficiaries and expenses. The valuation of investments in separate accounts, excluding the Private Equity separate account described below, is based on the aggregate net asset value of the units held at the valuation date, which represents fair value.

The Plan's Private Equity separate account includes all cash transactions (e.g. contributions, distributions, income and gain distributions) plus mark to market adjustments based on the year-end audited financial statements for the partnerships/LLCs owned by the separate account.

Purchases and sales of investments are recorded on a trade-date basis.

D. Income recognition

Net increases or decreases in the market value of invested assets include realized gains or losses on investments sold and unrealized gains or losses on investments held during the year. Interest income is recorded on the accrual basis.

E. Benefits

Benefit payments to participants are recorded upon distribution.

F. Actuarial Present Value of Accumulated Benefits

Accumulated benefits represent the future periodic payments that are attributable to the service rendered by agents. Under the Plan's provisions, accumulated benefits include benefits expected to be paid to (a) retired or terminated agents or their beneficiaries, (b) beneficiaries of agents who have died, and (c) active agents or their beneficiaries. With respect to service credited, the accumulated benefits under the Plan are based on the agent's sales production and persistency of that production during their period of credited service through December 31, 1990. For credited service after December 31, 1990, benefits are based on pensionable earnings.

For certain eligible participants, if their benefit under the Plan is less than their Senior NYLIC Income, their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior NYLIC Income.

The actuarial present value of accumulated benefits is determined by Hewitt Associates, LLC, the Plan's actuary. The actuarial present value of accumulated benefits is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money and the probability of payment. The significant actuarial assumptions used in the valuation as of January 1, 2009 were (a) life expectancy (RP-2000 Combined Healthy Participant Table projected to 2009 and then projected an additional 7 years for annuitants and 15 years for non-annuitants using the sex-distinct RP-2000 Scale AA table for healthy participants and the Revenue Ruling 96-7 mortality table for disability after December 31, 1994 for disabled participants), (b) retirement rates (rates vary by age), (c) disability rates (15% of the 1987 Commissioners Group Disability Table), (d) turnover rates (rates vary by contract year until age 65), and (e) the valuation interest rate. The significant actuarial assumptions used in the valuation as of January 1, 2009 changed from those used as of January 1, 2008 as described below.

The healthy mortality assumption changed from the RP-2000 Combined Healthy Participant Table projected to 2008 and then projected an additional 7 years for annuitants and 15 years for non-annuitants using the sex-distinct RP-2000 Scale AA table for 2008 to the RP-2000 Combined Healthy Participant Table projected to 2009 and then projected an additional 7 years for annuitants and 15 years for non-annuitants using the sex-distinct RP-2000 Scale AA table for 2009. The disabled mortality assumption changed from the RP-2000 Combined Healthy Participant Table projected to 2008 and then projected an additional 7 years for annuitants and 15 years for non-annuitants using the sex-distinct RP-2000 Scale AA table for 2008 to the Revenue Ruling 96-7 mortality table for disability after December 31, 1994. The retirement and turnover rates changed from combined termination and retirement rates that varied by contract year until age 60 and then by age after that to separate age-related retirement rates and contract-year-related turnover rates. The disability rates were changed from 25% of the 1987 Commissioners Group Disability Table for 2008 to 15% of the 1987 Commissioners Group Disability Table for 2009. The valuation interest rate used to determine the actuarial present value of accumulated benefits was changed from 6.50% for 2008 to 6.90% for 2009. These assumption changes resulted in a decrease of approximately $83 million in the present value of accumulated benefits.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

G. Administration

The Plan Administrator is responsible for administration of the Plan. The Plan pays certain expenses of service providers unrelated to the Company and certain direct expenses incurred by the Company with respect to the Plan. The group annuity contract issued with respect to the general account provides for the payment of an annual administration charge, based on a percentage of assets maintained in the fixed account under the contract. The group annuity contract issued with respect to the separate accounts provides for the payment of annual fees for the management of each separate account.

Separate account unit values are reduced by the management fees attributable to such separate account, except that the management fees for the Private Equity Separate Accounts are direct payments to the manager. The Company pays all remaining administrative expenses of the Plan.

H. New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance that requires new disclosures related to fair value measurements and clarifies existing disclosure requirements about the level of disaggregation, inputs and valuation techniques used to measure fair value for each class of assets and liabilities. It also requires entities to disclose separately significant transfers in and/or out of Levels 1 and 2, and describe the reasons for the transfers. The guidance also requires disclosures about purchases, sales, issuances and settlements in the reconciliation for Level 3 fair value measurements. This guidance is effective January 1, 2010, except for the portion requiring gross presentation of purchase, sales, issuance and settlements, which will be effective January 1, 2011. The Company adopted the effective portions of this guidance on January 1, 2010.

In September 2009, the FASB issued new accounting guidance for the fair value measurement of investments in certain entities that calculate net asset value ("NAV") per share, including certain alternative investments such as hedge funds and private equity funds. The guidance allows companies to determine the fair value of such investments using NAV as a practical expedient, without further adjustments, if the fair value of the investment is not readily determinable and the investee entity issues financial statements in accordance with measurement principles for investment companies. If it is probable that the investment will be sold at a price other than NAV, the use of this practical expedient is prohibited. This guidance also requires additional disclosures for each major category of alternative investments. The Plan's adoption of this guidance effective December 31, 2009 did not have a material impact on the Plan's financial statements.

In June 2009, the FASB issued authoritative guidance for, and on July 1, 2009 launched, the FASB's Accounting Standards Codification as the source of authoritative GAAP to be applied by nongovernmental entities. The Codification is not intended to change GAAP but is a new structure which takes accounting pronouncements and organizes them by accounting topic. This guidance is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Plan's adoption of this guidance impacts the way the Plan references GAAP accounting standards in the financial statements but has no impact on the financial statements.

In May 2009, the FASB issued authoritative guidance for subsequent events, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued. The Plan's adoption of this guidance, effective with the annual reporting period ended December 31, 2009, did not have a material effect on the Plan's financial statements. The required disclosure of the date through which subsequent events have been evaluated is provided in Note 11 – Subsequent Events.

In April 2009, the FASB revised the authoritative guidance for fair value measurements and disclosures to provide guidance on (i) estimating the fair value of an asset or liability if there was a significant decrease in the volume and level of trading activity for these assets or liabilities and (ii) identifying transactions that are not orderly. Further, this new guidance requires additional disclosures about fair value measurements. This guidance is effective for interim and annual reporting periods ending after June 15, 2009 with early adoption permitted for periods ending after March 15, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In October 2008, the FASB revised the authoritative guidance for fair value measurements and disclosures to provide guidance on the determination of the fair value of a financial asset in a market that is not active and provides an example to illustrate key considerations in the determination of the fair value of a financial asset when the market for that asset is not active. This guidance was effective upon issuance and did not have a material impact on the Plan's financial statements.

NOTE 3 - PLAN INVESTMENTS

The Plan currently invests in two group annuity contracts issued to the Trustees of the NYLIC Retirement Plan Trust ("Contractholder") by the Company: one contract is an IPG contract relating to the Company's general account ("GA Contract"), and the other relates to pooled separate accounts ("SA Contract").

All of the Plan's investments are held in the NYLIC Retirement Plan Trust. The Company is the issuer of the GA and SA Contracts, and New York Life Investment Management LLC ("New York Life Investments"), an indirect wholly owned subsidiary of the Company, is the investment manager with MacKay Shields LLC and NYLCAP Manager LLC (indirect wholly owned subsidiaries of the Company) as sub-advisors of some of the pooled separate accounts under the SA Contract.

Immediate Participation Guarantee Contract:

The GA Contract is a general account contract, under which a fixed dollar account ("FDA") is maintained that reflects the investment experience of the segment of the Company's general account to which the GA Contract and contracts in its class are assigned, in accordance with the Company's Investment Year Method ("IYM"). The basic principle of the IYM is that the assets purchased by the segment in a calendar year with available net cash flow are accounted for as a separate investment fund. The GA contract is not to be assigned to a third party.

The FDA is credited with contributions, interest, amounts transferred in from other Group Annuity Contract(s) and dividends, if any, and charged with expenses, amounts transferred to other Group Annuity Contract(s), pension benefits, non-pension benefits, amounts withdrawn on discontinuance, and investment selection charges ("ISCs").

As of the last day of each calendar year, the Company, as insurer, credits interest to the FDA by applying a net annual rate of interest (equal to the rate of net investment income earned during the calendar year for the GA Contract, determined in accordance with the Company's IYM) to the average balance in the FDA. The interest rate earned by the Plan in 2009 and 2008 was 6.22% and 6.48%, respectively.

Whenever a payment is to be made from the FDA pursuant to the GA Contract's transfer, non-pension benefit or the discontinuance provisions, the Company, as insurer, determines the ISC, if any, which is to be withdrawn from the FDA. An ISC will apply when the new investment earnings rate exceeds the contract earnings. In 2009 and 2008, there were no ISCs.

In the event the Contractholder elects to discontinue the GA Contract, the Company will determine the amount required to purchase annuities for pensioners and terminated plan participants as of the date of discontinuance on the actuarial basis provided for in the GA Contract, and will withdraw that amount from the FDA. If the amount required exceeds the FDA, then an additional contribution from the Company, as Plan sponsor, in the form of a transfer from the SA Contract will be due. If the amount required is less than the FDA, the remaining balance may be paid out in a single sum, subject to an ISC or an investment selection credit, or in installment payments over 5 years without an ISC.

Group Annuity Contract for Pooled Separate Accounts:

The SA Contract is a multiple separate account contract that provides for the investment of funds in a series of non-guaranteed pooled separate accounts ("Separate Accounts"). The only other contract participating in these separate accounts is a contract issued to the Trustees of the New York Life Insurance Company Pension Plan. Under the SA Contract, the Contractholder bears all investment risk and has no guarantees as to principal and interest. There are also limited guarantees with respect to mortality and expense.

Contractual accounts are maintained under the SA Contract, each of which reflects the investment experience of the Company's corresponding Separate Account. The dollar value of any contractual account as of any day will be equal to the number of units in such account at the end of the day multiplied by the unit value for that day. The dollar amount of a credit or withdrawals from any contractual account as of any day will be converted into a number of units by dividing the dollar amount by the unit value for the day.

Credits to or charges against each separate account are made in connection with each contract participating in that separate account. The investment experience of each separate account is recorded by means of an accounting system involving units and unit values. Units are the measure used to determine the amount in each of the contractual accounts that participate in the corresponding separate account.

The Contractholder may for any reason terminate the SA Contract as of any business day, which day will be the Termination Date. The dollar value of the balance in each of the contractual accounts as of the Termination Date (or the valuation date next following the Termination Date where the assets are not valued on a daily basis) will be transferred to the Contractholder or to another funding medium designated by the Contractholder in a single sum.

NOTE 4 - FEDERAL INCOME TAXES

The Company received a favorable letter of determination, dated August 31, 2005, from the Internal Revenue Service that the Plan meets the qualification requirements of Section 401(a) of the Code and that its trust is exempt from federal income tax under Section 501(a) of the Code. Although the Plan has been amended since receiving the determination letter, the Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is made in the accompanying financial statements.

On January 29, 2010, the Plan was submitted to the Internal Revenue Service for a favorable determination letter that the Plan, as amended and restated through December 16, 2009, continues to meet the qualification requirements of Section 401(a) of the Code and that its trust is exempt from federal income tax under Section 501(a) of the Code. As part of this submission, the Plan was restated to incorporate changes since the Plan's previous determination letter, including legal changes to comply with regulatory and legislative requirements and Plan amendments.

NOTE 5 - FUNDING POLICY

The Plan is funded solely by Company contributions. The Company's funding policy is to make annual contributions that are no less than the minimum amount needed to comply with the requirements of ERISA as amended by the Pension Protection Act of 2006 and the Code ("minimum funding requirements"), and no greater than the maximum amount deductible for federal income tax purposes. In 2009, the Company made a voluntary contribution to the Plan of $290,000,000 which is reflected as a receivable on the Statements of Net Assets Available for Plan Benefits and was deposited into the Plan on September 14, 2010 for the 2009 Plan year. In 2008, no contributions were required to comply with the minimum funding requirements, and the Company made no voluntary contributions to the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Class Action Settlement: On March 5, 2008, the court issued the final order approving the settlement of a class action lawsuit, *Mehling, et al v. New York Life Insurance Company, et al,* and the settlement became effective on April 4, 2008. In accordance with the terms of the settlement agreement, on April 10, 2008, a portion of the settlement proceeds in the amount of $1,329,540 was directed to the Plan, which was invested into the IPG contract. This settlement was not made as part of the Company's ongoing funding policy.

NOTE 6 - PLAN TERMINATION

In the event of the termination of the Plan, the Plan provides that the rights of affected participants to the benefits accrued to the date of termination would be non-forfeitable, but there would be no recourse for these non-forfeitable benefits other than from the Plan's assets or the Pension Benefit Guaranty Corporation ("PBGC").

In the event of Plan termination, the Plan funds would be allocated on the basis of actuarial valuation in the following order prescribed by ERISA:

1. To retired participants, beneficiaries of deceased participants or spouses who were receiving benefits 3 years before the Plan termination date; participants who would have received a benefit 3 years before the Plan termination date if they had retired before that 3-year period; and spouses or

beneficiaries of deceased participants who were receiving benefits 3 years prior to the Plan termination date or who would have been receiving benefits if the deceased participants had retired before such date.

2. To retired participants, spouses or beneficiaries of deceased participants receiving a benefit and each participant eligible to retire on the Plan termination date based on his or her priority benefit credits.

3. To each participant, or former participant not eligible to retire who has met the eligibility requirements for, or is entitled to receive, a deferred vested retirement allowance based on his or her priority benefit credits.

4. To retired participants, spouses or beneficiaries of deceased participants receiving a benefit, and each participant eligible to retire on the Plan termination date based on benefit credits not included above.

5. To each participant or former participant not eligible to retire but eligible to receive a deferred benefit based on benefit credits not included above.

6. To other participants not included in paragraphs 1 through 5 above on the Plan termination date.

If sufficient funds are not available under any paragraph, payments will be reduced on a pro rata basis. If sufficient funds are not available under paragraphs 4, 5 or 6 above, the funds available under these paragraphs will be allocated without regard to any benefits resulting from any Plan amendments, which became effective within 60 months before the Plan termination date and then based on the benefits resulting from each successive amendment.

In the event of Plan termination, a participant’s benefit would be based on his or her priority benefit credits, as referred to in paragraphs 2 and 3. The participants will be notified by the Company of the amount and how it was calculated under the Plan.

If there are more funds than necessary to satisfy all Plan liabilities, the excess will be paid to the Company.

The Plan Administrator may require that any benefits be withdrawn in cash, as an immediate or deferred annuity or other periodic payments as determined by the Plan Administrator.

Vested benefits under this Plan are insured by the PBGC, a U.S. government agency, if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

The PBGC guarantees vested benefits at the level in effect on the date of Plan termination. However, if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's vested benefits or the benefit increase may not be guaranteed to the full extent as would have been paid under the Plan. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees, which is adjusted periodically.

NOTE 7 – RISKS AND UNCERTAINTIES

The pooled separate accounts under the Plan's SA Contract invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Actuarial present values of accumulated benefits are reported based on certain actuarial assumptions, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions could occur in the near term and could be material to the financial statements.

NOTE 8 – CERTIFIED INFORMATION

The Company, as the issuer of the GA Contract and the SA Contract, has certified that the following information stated below and included in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits is complete and accurate in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan currently invests in two group annuity contracts issued by the Company: the GA Contract (an IPG contract relating to the Company's general account) and the SA Contract (relating to pooled separate accounts). The GA Contract provides for the payment of an annual administration charge to the Company, based on a percentage of assets maintained in the fixed account under the contract. Under the SA Contract, the separate accounts are, in whole or in part, managed by the Company and/or New York Life Investments (or a New York Life Investments affiliate), an indirect wholly owned subsidiary of the Company that receives fees for such services. The SA Contract provides for the payment of annual fees for the management of each separate account. Separate account unit values are reduced by the management fees attributable to such separate account, except that the management fees for the Private Equity Separate Account are direct payments to the manager. Both the Company and New York Life Investments are parties-in-interest as defined by ERISA.

NOTE 10 – FAIR VALUE MEASUREMENTS

The Plan's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by the authoritative guidance for fair value measurements and disclosures. This guidance establishes a three level fair value hierarchy that distinguishes between the inputs to valuation techniques (not the valuation techniques themselves) used to estimate fair value, considering the relative reliability of the input. The Plan is including the disclosures required under this guidance.

The levels of the fair value hierarchy are based on the inputs to the valuation as follows:

Level 1 Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market. This would include active exchange-traded equity and derivative securities and open-ended mutual funds with a daily NAV, and no restrictions.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other model driven inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions in pricing the asset or liability. Pricing may also be based upon broker quotes that do not represent an offer to transact.

Inputs used to measure the fair value of an asset or liability may fall into different levels of the fair value hierarchy. The Plan determines the level in which the fair value falls based upon the lowest level input that is significant to the determination of fair value. For most assets or liabilities that are classified into level 3, both observable and unobservable inputs are used in the determination of fair value. The following tables present the fair value of Plan assets (in thousands):

	2009			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Total assets accounted for at fair value on a recurring basis	$ -	$ 594,498	$ 168,689	$ 763,187

The SA contract is a multiple separate account contract that provides for the investment of funds in a series of non-guaranteed pooled separate accounts. Under the SA contract, the Plan bears all investment risk. The investments in the group annuity contract for pooled separate accounts, excluding the Private Equity separate account, are fair valued using the number of units in each separate account at the end of the reporting period multiplied by the unit value at the end of the reporting period. These assets are categorized as level 2 within the fair value hierarchy. The value of the investments in the Private Equity separate account includes all cash transactions (e.g. contributions, distributions, income and gain distributions) plus mark to market adjustments based on the year-end audited financial statements for the partnerships/LLCs owned by the separate account. The Private Equity separate account is categorized as level 3 within the fair value hierarchy.

The table below presents a reconciliation of all level 3 assets and liabilities for the years ended December 31, 2009 and 2008 (in thousands):

	December 31,	
	2009	2008
Fair value, beginning of year	$ 168,689	$ 207,417
Realized and unrealized gains relating to instruments still held at the reporting date	25,922	(56,416)
Purchases, sales, issuances and settlements (net)	2,796	17,688
Fair value, end of year	$ 197,407	$ 168,689

NOTE 11 – SUBSEQUENT EVENTS

As of October 12, 2010, the date the financial statements were available to be issued, there have been no events occurring subsequent to the date of the accompanying financial statements that would require adjustment to or disclosure in the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Valuation Compensation	Determined by applying the Pensionable Earnings Increase Rates to a three-year average of Pensionable Earnings.
Annuity Option	80% of married male agents and 80% of married female agents are assumed to choose a 75% Joint and Survivor Annuity. 100% of single agents choose a single Life Annuity.
Surviving Spouse Benefit	It is assumed that 80% of males and 40% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $195,000 and the 401(a)(17) compensation limit of $245,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% or more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Trustee Expenses Included in Target Normal Cost	Expenses are assumed to be equal to the average of the prior two years' actual administrative expenses paid from the trust (without PBGC premiums), plus the expected PBGC premiums for the current year, rounded to the nearest $10,000 (equal to $700,000 for the 2009 plan year).
Expected Return on Assets	
2007 Plan Year	6.09%
2008 Plan Year	6.43%
Actuarial Method	Standard Unit Credit Cost Method.
Valuation Date	January 1, 2009.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Assumptions Specific to the Valuation of the BOBW Formula Benefits

Current Year Nylic Count Insurance

Nylic Count Insurance for the current Nylic Year is estimated by taking the average of an Agent's production in each of the second, third, and fourth prior Nylic Years to the current Nylic Year and then projecting forward to the current year using the production increase rates.

Production Increase Rates

Rates vary by contract year. See Table D.

Persistency of Nylic Count Insurance

Based on the average persistency of each Agent's production in the last ten Nylic Years relative to the Linton A Policy Lapse rates. The Linton A Policy Lapse Rate for Policy Year 1 is ignored as Nylic Count Insurance by definition does not lapse during the first policy year.

The Linton A Policy Lapse rates are as follows:

Policy Year	Policy Lapse Year Rate	Policy Year	Policy Lapse Year Rate
1	N/A	6	4.4%
2	6.5%	7	4.1%
3	5.6%	8	3.8%
4	5.0%	9	3.7%
5	4.7%	10	3.6%

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Assumptions Specific to the Valuation of the BOBW Formula Benefits

Persistency of Universal Life Nylic Count Insurance

Based on the average persistency of each Agent's production in the last ten Nylic Years relative to the Baseline Universal Life Persistency Rates. The Baseline Universal Life Persistency Rate for the Nylic Year of Sale is ignored as Universal Life Nylic Count Insurance by definition does not lapse during the first year.

The Baseline Universal Life Persistency Rates are as follows:

Nylic Year Since Sale	Baseline Universal Life Persistency Rates
0	N/A
1	45.0%
2	40.0%
3	35.5%
4	31.5%

7	22.5%
8	20.5%
9	19.0%

Benefits Valued

Liabilities for benefits under the Disability Income, Periodic Premium Annuity and Group Plus product lines were deemed immaterial by New York Life Insurance Company and were ignored for purposes of this valuation. All benefits were valued as if calculated under a QN6 contract.

Schedule SB, Part V—Summary of Plan Provisions

Eligible Agent

An Agent with respect to whom a contract or agreement is in effect that the Company determines makes an Agent eligible for benefits under the Plan.

Eligibility for Participation

An Eligible Agent becomes a Participant on the effective date of his Agent Contract.

The following are not eligible to participate:

- Agents who elected not to be Participants when the Plan was introduced in 1982;
- Agents who are not Eligible Agents;
- Canadian residents;
- Common law Employees other than Training Allowance Subsidy Agents; and
- Nonresident aliens with no U.S. source income.

Eligibility for Best of Both Worlds' ("BOBW") Formula

Any Participating Agent who was operating under a Nylic Contract or receiving Nylic Income on December 31, 1990 who is a resident of the United States and who began his Nylic Contract at least five years prior to his Normal Retirement Date.

The Following Provisions Apply to Participants Who Are Not Eligible for the BOBW Formula

Normal Retirement

Eligibility

The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.

Benefit

Accrued Benefit.

Early Retirement

Eligibility

20 years of Vesting Service.

Benefit

Accrued Benefit as of early retirement date reduced for early retirement.

The reduction is 6% for each of the first five years prior to Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter.

Schedule SB, Part V—Summary of Plan Provisions

Late Retirement

Eligibility	Retirement after Normal Retirement Date.
Benefit	Accrued Benefit based on Pensionable Earnings as of the actual date of retirement.

Disability Retirement

Eligibility	Ten years of Vesting Service and totally and permanently disabled such that the participant is thereby prevented from engaging in any occupation or business for remuneration or profit for which the participant may be reasonably fitted by education, training or experience.
Benefit	Same as Early Retirement Benefit payable as a 50% Joint and Survivor Annuity for married participants and as a Life Annuity for unmarried participants.

Vested Termination Benefit

Eligibility	Five years of Vesting Service.
Benefit	Accrued Benefit payable at Normal Retirement Age or payable when the Participant would have had 20 years of Vesting Service had he continued as an active Participant. The Accrued Benefit is reduced for commencement before Normal Retirement Age the same as for the Early Retirement Benefit.

Preretirement Surviving Spouse Benefit

Eligibility	All Vested Participants married at least six months.
Benefit	Benefit as if Participant terminated on his date of death, survived to the benefit commencement date elected by the surviving spouse, commenced a 50% Joint and Survivor Annuity, and then died. The spouse can commence her benefit on the earlier of the date the participant would have attained 20 Years of Vesting Service (immediately if the Participant had 20 Years of Vesting Service at death) and the Participant's Normal Retirement Date.

Schedule SB, Part V—Summary of Plan Provisions

The Following Provisions Apply to Agents Who Are Eligible for the BOBW Formula

Normal Retirement

Eligibility	The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.
Benefit	Accrued Benefit.

Early Retirement

Eligibility for Benefit 1	20 years of Vesting Service.
Benefit 1	Accrued Benefit as of early retirement date reduced for early retirement. *For the CAVG Portion:* The reduction is 6% for each of the first five years prior to Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter. The reduction does not apply to the Frozen Accrued Benefit of Participants who had 20 Nylic Years on December 31, 1990. *For the BOBW Portion:* The reduction is 6% for each of the first five years prior to Old Plan Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter.
Eligibility for Benefit 2	20 Nylic Years.
Benefit 2	The greatest of: (1) The BOBW Formula Amount; (2) The benefit determined under Early Retirement Benefit 1 above; and (3) The benefit calculated using the Accrued Benefit BOBW Portion formula determined as of December 31, 1990. If an Agent had completed 20 Nylic Years as of December 31, 1990, the calculated benefit is reduced for commencement before the Old Plan Normal Retirement Date at the same rate as for the Early Retirement Benefit 1.

Schedule SB, Part V—Summary of Plan Provisions

Late Retirement

Eligibility	Retirement after Normal Retirement Date.
Benefit	The greater of: ■ The BOBW Formula Amount at the date of actual retirement; and ■ The Accrued Benefit at the actual date of retirement.

Disability Retirement

Eligibility for Benefit 1	Ten years of Vesting Service and totally and permanently disabled such that the participant is thereby prevented from engaging in any occupation or business for remuneration or profit for which the participant may be reasonably fitted by education, training or experience.
Benefit 1	Same as Early Retirement Benefit 1, payable as a 50% Joint and Survivor Annuity for married participants and as a Life Annuity for unmarried participants.
Eligibility for Benefit 2	20 Nylic Years.
Benefit 2	The greater of: ■ The BOBW Formula Amount; and ■ The benefit determined under Disability Retirement Benefit 1 above. If the BOBW Formula Amount wins, there can be up to two quinquennial increases in retirement income after retirement, based on NCI sold before retirement. Benefit is payable as a 50% Joint and Survivor Annuity for married participants and as a Life Annuity for unmarried participants.

Vested Termination Benefit

Eligibility	Five years of Vesting Service.

Schedule SB, Part V—Summary of Plan Provisions

Vested Termination Benefit

Benefit	Accrued Benefit payable at Normal Retirement Age or payable when the Participant would have had 20 years of Vesting Service had he continued as an active Participant. The CAVG Portion of the Accrued Benefit is reduced for commencement before Normal Retirement Age at the same rate as for the Early Retirement Benefit. The BOBW Portion of the Accrued Benefit is reduced for commencement before the Old Plan Normal Retirement Date at the same rate as for the Early Retirement Benefit.

Preretirement Surviving Spouse Benefit

Eligibility	All Vested Participants married at least 6 months.
Benefit	Benefit as if Participant terminated on his date of death, survived to the benefit commencement date elected by the surviving spouse, commenced a 50% Joint and Survivor Annuity, and then died. The spouse can commence her benefit on the earlier of the date the participant would have attained 20 Years of Vesting Service (immediately if the Participant had 20 Years of Vesting Service at death) and the Participant's Normal Retirement Date.

Benefit Payment Forms

Automatic Forms	Single: Life Annuity. Married: 50% Joint and Survivor Annuity.
Optional Forms	Life Annuity (for married participants). 75% Joint and Survivor Annuity (for married participants).

Employee Contributions	None.
Post-Termination COLA	Post-termination COLAs to the IRC section 415 limits are reflected for Agents who retired prior to October 12, 2005.

Schedule SB, Part V—Summary of Plan Provisions

Definitions

Accrued Benefit

The sum of (A) and (B), where (A) and (B) are as follows:

(A) Frozen Accrued Benefit; and

(B) 2.75% × Pensionable Earnings after December 31, 1990.

For Agents eligible for the BOBW Formula, the accrued benefit is the greater of the benefit computed above ("CAVG Portion") and the benefit computed by multiplying (a) times (b) where (a) and (b) are as follows ("BOBW Portion"):

(a) The amount of the Participant's Old Formula Normal Retirement Date benefit as computed under Appendix B of the Plan Document if (1) the participant had retired on his or her Normal Retirement Date, (2) the Participant had continued to be credited with periods of service for benefit accrual and (3) in each future Nylic Year he or she produced new Nylic Count Insurance, Target Life Count Insurance, or VLI Nylic Count Insurance at the same rate achieved during the immediately preceding 120 months, and experienced the same level of persistency as the Participant had achieved during all complete Nylic Years within such 120-month period.

(b) A fraction, the numerator of which is the Participant's period of service for benefit accrual and the denominator of which is the period of service for benefit accrual that the Participant would have completed if he or she had continued in the service of the Company as an Agent to his or her Old Plan Normal Retirement Date.

Frozen Accrued Benefit

The Frozen Accrued Benefit is the amount which the participant accrued as of December 31, 1990 for service, if any, on or prior to that date.

BOBW Formula Amount

Senior Nylic Formula Amount determined separately for each product line.

Schedule SB, Part V—Summary of Plan Provisions

Definitions

Pensionable Earnings	Earnings from the following lines of business: ■ Traditional Ordinary Life Insurance; ■ Universal Life; ■ Disability Income; and ■ Periodic Premium Annuity and Group Plus products. Pensionable Earnings includes the Agent's elective contributions to the Agents' Progress-Sharing Investment Plan, contributions to the Deferred First Year Commission Plan attributable to the lines of business included in Pensionable Earnings, and Senior Nylic income. Pensionable Earnings does not include any Training Allowance or Expense Allowance the Agent may receive. Pensionable Earnings shall not be less than zero and shall not exceed the IRC Section 401(a)(17) limitation.
Normal Retirement Date (NRD)	The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.
Old Plan Normal Retirement Date	The Nylic Anniversary immediately preceding an Agent's 65 birthday.
Vesting Service	For periods on or after January 1, 1982, a period of 12 months in active Agent or Employee status. For periods before January 1, 1982, a period of 12 months in active Agent status.
Nylic Year	Each period of 12-consecutive months of operation under an Agent's contract that makes an Agent eligible for a Nylic Contract.
Service for Benefit Accrual	A period of Vesting Service during which the Participant is an Agent eligible to hold a Nylic contract.
Quinquennial Nylic Anniversary	The last day of the 20th Nylic Year and the last day of each additional period of five Nylic Years.
Product Lines	■ Traditional Ordinary Life Insurance; ■ Universal Life; ■ Disability Income; ■ Periodic Premium Annuity; and ■ Group Plus Products.

Schedule SB, Part V—Summary of Plan Provisions

Definitions

Nylic Count Insurance (NCI)—Product Lines Other Than Universal Life	Permanent insurance sold during a Nylic Year for which one year's premium is paid and which remains in force at the end of one year.
Universal Life Nylic Count Insurance (ULNCI)	$1,000 for each $18 of first year Universal Life premium paid for policies which remain in force at the end of one year.
Renewal Premiums	All renewal premiums paid to, received by, and recorded prior to the end of the specified Nylic Year, on policies in force at the end of that Nylic Year.
Universal Life Persisting Insurance	$775 times the sum of all Universal Life Renewal Premiums divided by the number of months the policy has been in effect.
Senior Nylic Formula Amount—Product Lines Other Than Universal Life	For Agents with a QN6 type of contract (generally Agents who began operating under a Nylic Contract on or after March 1, 1964), the Senior Nylic Formula Amount is determined as follows: Monthly income based on NCI obtained in first 20 Nylic Years = [$1.10 × 1/3 (A+B+C)] ÷ $1,000 A = 1/15 of NCI obtained in Nylic Years 1-15 persisting to end of the 4th Nylic Year following the year obtained. B = 1/15 of NCI obtained in Nylic Years 1-15 persisting to end of the 9th Nylic Year following the year obtained (or at the end of the 20th Nylic Year, if sooner). C = 1/5 of NCI obtained in Nylic Years 16-20 multiplied by a persisting ratio equal to the proportion of NCI obtained in Nylic Years 11 to 19 persisting to the end of the 20th Nylic Year.

Schedule SB, Part V—Summary of Plan Provisions

Definitions

Senior Nylic Formula Amount—Product Lines Other Than Universal Life	Monthly income based on each subsequent completed quinquennial period = Monthly Income Rate × [Income Base] ÷ $1,000 Where the Monthly Income Rate is $.50, $.60, $.70, $.75, $.80, $.85, and $.90, for the quinquennial periods ending in the 25th, 30th, 35th, 40th, 45th, 50th, and 55th Nylic Years, respectively; and the Income Base is one-tenth of the NCI obtained in the last ten Nylic Years multiplied by a persistency ratio equal to the proportion of NCI obtained during the first nine of those Nylic Years persisting to the end of the ten-year period. For Agents with other types of contracts, the Formula Amount is generally based on different Nylic Years for NCI, different persistency factors, and different monthly income rates.
Senior Nylic Formula Amount—Universal Life	For Agents with a QN6 type of contract (generally Agents who began operating under a Nylic Contract on or after March 1, 1964), the Senior Nylic Formula Amount is obtained as follows: Monthly income based on NCI obtained in first 20 Nylic Years = [$1.10 × 1/3 (A'+B'+C')] ÷ $1,000 A'= 1/15 of ULNCI obtained in Nylic Years 1-15 that was Universal Life Persisting Insurance at the end of the 4th Nylic Year following the year obtained. B'= 1/15 of ULNCI obtained in Nylic Years 1-15 that was Universal Life Persisting Insurance at the end of the 9th Nylic Year following the year obtained (or at the end of the 20th Nylic Year, if sooner). C'= 1/5 of ULNCI obtained in Nylic Years 16-19 that was Universal Life Persisting Insurance at the end of the 20th Nylic Year.

Schedule SB, Part V—Summary of Plan Provisions

Definitions

Senior Nylic Formula Amount—Universal Life	Monthly income based on each subsequent completed quinquennial period = Monthly Income Rate × [Universal Life Income Base] ÷ $1,000 The Monthly Income Rate is $.50, $.60, $.70, $.75, $.80, and $.85, for the quinquennial periods ending in the 25th, 30th, 35th, 40th, 45th, and 50th Nylic Years respectively; and the Universal Life Income Base is one-tenth of the ULNCI obtained in the last ten Nylic Years multiplied by a persistency ratio equal to the proportion of ULNCI obtained during the first nine of those Nylic Years persisting to the end of the ten-year period. Additional monthly income attributable to ULNCI may be obtained in each of the three Nylic Years following the completion of the 21st Nylic year and in each of the three Nylic Years following each quinquennial period thereafter[1].

[1] See Target Life Nylic Contract for description of these additions.

Schedule SB, line 24—Change in Actuarial Assumptions

The January 1, 2009 funding valuation reflects the following assumption changes:

- A change in the payment form election assumption from 50% of married male employees and 25% of married female employees elect a Joint and 50% Survivor Annuity to 80% of married employees elect a Joint and 75% Survivor Annuity;
- A change in the withdrawal rates to 20 year select by contract year with ultimate by age;
- A change in the retirement rates;
- A change in the salary scale;
- A change in the disability rates to 15% of 1987 Commissioners Group Disability Table with a six-month waiting period;
- A change in the assumed retirement age for terminated vesteds from 50% at age 65 and 50% at age 55, to 40% at age 65 and 60% at age 55; and
- A change in percent married from: Males 90%; Females 65% to: Males 80%; Females 40%.

These changes were made to better reflect the anticipated plan experience. None of these assumption changes reduced the funding shortfall by more than $50 million or 5% of the Funding Target, as such approval of the Commissioner is not required.

Schedule SB, line 25—Change in Funding Method

- A change in the interest rate assumption to the October 2008 full yield curve with sample values as follows:

  Duration 5.5—8.25%
  Duration 10.5—8.87%
  Duration 15.5—8.65%
  Duration 20.5—8.11%
  Duration 25.5—7.71%
  Duration 30.5—7.46%

- A change in the asset valuation method from an Average Value method to the 3-point smoothed value method as of January 1, 2009.

- An addition to the Target Normal Cost of assumed expenses payable from the trust, as required by WRERA.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.
