VALLEY FINE FOODS COMPANY, INC.
401(K) RETIREMENT PLAN

Notes to the Financial Statements
For the Year Ended December 31, 2009

1. Description of the Plan

The following description of the Valley Fine Foods Company, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Valley Fine Foods, Inc. (the "Company" "Employer" and the "Plan Administrator") not covered by a collective bargaining agreement. On January 1, 2009, the Plan was established under the "Safe Harbor" provisions in Sections 401 of the Internal Revenue Service ("IRS") Code ("IRC"). Participation in the Plan begins after an employee attains 21 years of age and has completed one full year of eligible service (1,000 hours of service). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each participant may make a salary deferral contribution to the Plan of the lesser of up to 85% of the participant's compensation or the maximum allowed by the IRS. In accordance with the Plan provisions, the Company will make matching contributions equal to 100% of the first 4% of compensation. Employer contributions for the year ended December 31, 2009 were $64,485.

The Company may also elect to contribute to the Plan a non-elective contribution from its profits for the year. There was no employer profit share contribution for the year ended December 31, 2009.

Forfeitures - Forfeitures are used first to pay investment expenses of the Plan. Any excess forfeitures are allocated to the participants in the same manner as Company contributions.

Vesting - Participant accounts including salary deferrals and safe harbor matching contributions are 100% vested at all times.

The participant's vesting in the non-elective profit share contribution is based on years of continuous services as follows:

Years of Service:	**Vested Percentage**
Less than 2	0%
At least 2, but less than 3	20%
At least 3, but less than 4	40%
At least 4, but less than 5	60%
At least 5, but less than 6	80%
6 or more	100%

Payment of Benefits - Upon termination of service, due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans - Loans may be made to a participant from his individual account. Such loans may not exceed the lesser of 50% of the value of the participant's account or $50,000. Interest rates and repayment terms are defined by the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation - The accompanying financial statements have been prepared on the accrual basis of accounting.

Income Tax Status - The IRS issued an opinion letter that the Prototype Standardized Safe Harbor 401(k) and Profit Sharing Plan with Automated Data Processing ("ADP"), the prototype plan which the Plan is based upon, is acceptable under Section 401 of the IRC. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

The only tax year that remains open for examination is 2009.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Units of common and collectives trusts are valued at net asset value at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes to the Financial Statements
For the Year Ended December 31, 2009

Risks and Uncertainties - The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits - Benefit payments are recorded when paid.

Operating Expenses - All expenses of maintaining the Plan are paid by the Company.

Financial Investments with Off-Balance Sheet Risk - The Plan held no direct investments in derivatives as of and during the year ended December 31, 2009.

3. Information Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certification from the trustee of the Plan as of December 31, 2009 for the year then ended, that all the information provided by them is complete and accurate. Information included in the accompanying 2009 financial statements, as to investments in the Plan administered by the trustee, interest and dividends, and all investment information in the supplemental schedule is presented in reliance solely upon those certifications.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements
For the Year Ended December 31, 2009

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 94,156	$ 94,156	$ ---
Common and collective trust funds	156,114	156,114	---
Participant loans	500	---	500
Total assets at fair value	$250,770	$250,270	$500

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. Units of common and collectives trusts are valued at net asset value at year end.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance.

The following table provides further details of the Level 3 fair value measurements of participant loans for the year ended December 31, 2009.

	2009
Balance at the beginning of the year	$ ----
Purchases, sales, issuances, and settlements, net	500
Balance at the end of the year	$500

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009, are reported in net appreciation in fair value of investments.

5. Investments

Participants may designate the way in which their salary deferral and employer contributions are invested and may change investment designation at any time.

Participants may elect to have all salary deferral and employer contributions invested in a single investment fund or common and collective trust or in any combination of available investments funds. The Company has no authority over the management of these participant accounts.

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009:

	2009
SSgA Target Retirement 2030 Fund	$31,037
SSgA Target Retirement 2040 Fund	$45,360
SSgA S&P 500 Index Fund	$46,632

6. Termination of the Plan

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.
