We were engaged to audit the financial statements and supplemental schedule of the Santa Cruz Seaside Company Profit Sharing and 401(k) Plan ("the Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Standard Insurance Company ("The Standard"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. The Plan Administrator has informed us that The Standard holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from The Standard as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan Administrator by The Standard is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by The Standard, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANTA CRUZ SEASIDE COMPANY PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

General – The following description of the Santa Cruz Seaside Company Profit Sharing and 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all eligible employees of Santa Cruz Seaside Company ("the Company" or "Plan Administrator"), as defined in the Plan agreement. The Plan was amended and restated in 2009 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001. Additionally, sections regarding Qualified Reservists Distribution and Non-spousal Rollovers were added to the Plan. Participants should refer to the Plan document for specific changes made to the Plan. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Company has appointed an Administrative Committee ("the Committee") to manage the operation and administration of the Plan. Certain employees of the company act as Plan trustees. The Company has contracted with The Standard Insurance Company ("The Standard") to act as custodian and with a third-party administrator to process and maintain the records of participant data.

Contributions – Each year, participants may contribute an amount of their eligible pre-tax annual compensation up to the maximum limit allowed by law. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum allowed by law. Participants may also contribute amounts representing distributions from other qualified plans.

The Company makes matching contributions to the Plan. Matching contributions are equal to the lesser of 25% of a participant's contribution or 25% of 8% of a participant's compensation. Matching contributions in the amount of approximately $118,000 were made for the year ended December 31, 2009. Additional profit-sharing amounts may be contributed at the option of the Company's board of directors. Discretionary profit sharing cash contributions in the amount of approximately $322,000 were made for the year ended December 31, 2009.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of the Company's profit-sharing contribution, Plan earnings or losses, and charged with an allocation of certain Plan expenses. Allocations of the Company's profit-

sharing contribution are based on participant compensation; allocations of Plan earnings and losses are based on participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions are participant-directed.

Certain investment and fund fees are charged to the funds and included in Plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are immediately vested in their contribution amounts and rollover amounts, if any, plus actual earnings thereon. Vesting in amounts contributed by the employer is based on years of continuous service. For Company matching contributions, vesting occurs at a rate of 20% per year beginning at the end of the first year. A participant is 100% vested after five years of credited service. Through December 31, 2007, for Company profit-sharing contributions, participants do not vest during the first four years but instead become fully vested at the end of the fifth year of credited service. Effective January 1, 2008, the Plan was amended and participants are 100% vested in profit-sharing contributions after three years of credited service (3-year cliff vesting). Participants fully vest upon death, permanent disability, and normal retirement or Plan termination.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding loans at December 31, 2009 and 2008, carry interest rates which range from 4.25% to 10.5% and 5.25% to 10.5%, respectively. Principal and interest is paid ratably through payroll deductions. Loans must be repaid within a five-year period, unless used for the purchase of a principal residence in which case the maximum repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such loans.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, disability and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions from accounts which are 100% vested in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$ or early retirement age which is age 55 with five years of credited service.

Forfeitures – Forfeitures of employer matching contributions can first be used to pay Plan expenses. Any remaining employer match forfeitures are used to fund future employer matching contributions. As of December 31, 2009 and 2008, forfeited non-vested accounts related to employer matching contributions totaled $693 and $3,807, respectively. Profit-sharing forfeitures can first be used to pay Plan expenses. Any remaining profit-sharing forfeitures are reallocated to other participants. As of December 31, 2009 and 2008, forfeited non-vested accounts related to profit-sharing forfeitures totaled $866 and $8,686, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by The Standard. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The Stable Asset Value Fund is valued at contract value as reported by The Standard. Stable Asset Value Funds by a defined-contribution plan are required to be reported at fair value. As of December 31, 2009, there was a $7,557 adjustment between fair value and contract value for the fund. As of December 31, 2008, there was an $80,109 adjustment between fair value and contract value for the fund. The Stable Asset Value Fund is fully benefit-responsive. The crediting rates on the Stable Asset Fund for 2009 and 2008 were approximately 3.52% and 3.62%, respectively, and the average yields to the Plan were approximately 3.53% and 3.61% for 2009 and 2008, respectively. The average yields to Plan participants were approximately 3.59% and 3.08% for 2009 and 2008, respectively. The crediting interest rate is the effective interest rate over the term of each contract and is reset monthly.

Certain events may limit the ability of the Plan to transact at contract value with The Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

The Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least $25,000, Plan disqualification, and failure to adopt the Plan in a reasonable period of time. Upon termination by The Standard, a market value adjustment may apply.

Operating Expenses – Certain record-keeping, participant loan fees, distribution fees, and audit expenses are paid by the Plan; the Company pays the remaining expenses.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through July 21, 2010, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by The Standard regarding the current value of assets held as of December 31, 2009 and 2008, and transactions entered into for the year ended December 31, 2009, were used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investments. Investment funds that represent 5% or more of the Plan's net assets are separately identified at December 31:

During the year ended December 31, 2009, investment income was as follows:

Participants loan interest	$ 34,326
Stable asset value fund income	138,974
Total	$173,300

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended December 31, 2009:

Pooled separate accounts	$2,141,553
Other	150
Total	$2,141,703

In May 2009, the Committee decided to make the following fund changes: remove the American Beacon Small Cap Value fund and map assets to the Allianz NFJ Small Cap Value fund; remove the Munder Small Cap Value and map assets to Vanguard Small Cap Index fund.

In November 2009, The Standard eliminated the Dodge and Cox Balanced fund and mapped funds to the Vanguard Wellington Admiral fund.

As of December 31, 2009, the following funds were on a watch list: William Blair International Growth, Vanguard Explorer, American Century Real Estate and Rainer Small/Mid Cap Equity.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts: Valued at a unitized share basis based on the value of the underlying investments in the pooled account.

Stable Value Fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant Loans: Fair value of participant loans is equal to their outstanding balances, less amounts deemed uncollectible as determined by the Plan Administrator.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

NOTE 6 – RELATED PARTY TRANSACTIONS

Plan investments are managed by the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 7 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 8 – TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service dated June 26, 2009. The Plan has been amended since, however, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

NOTE 9 – SUBSEQUENT EVENTS

As of July 21, 2010, some of the major financial market indices have decreased since December 31, 2009 and, consequently, the Plan's assets may have decreased in value.

Effective March 29, 2010, The Standard eliminated the American Century Real Estate Investment fund and replaced it with the First American Real Estate Securities fund.
