1. Description of Plan

The following brief description of the LNK International, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the provisions contained therein.

a. *Sponsorship and administration*

The Plan sponsor and administrator is LNK International, Inc. (the "Company"). The plan became effective January 1, 1998.

b. *Participation and vesting*

The Plan is a defined contribution plan covering all employees of LNK International, Inc. who have attained at least age 21 and met certain service requirements. Participant contributions are fully vested at the time the contributions are made. All investments are participant directed.

c. *Benefits and distribution*

The Plan provides for benefits to be paid upon death and termination of employment. The participant may elect to receive one of the following forms of payment: (1) in a lump sum; (2) in installment payments over a period not to exceed the life expectancy of the Participant or the joint and last survivor life expectancy of the Participant and his designated Beneficiary; or (3) applied to the purchase of an annuity contract.

d. *Funding*

Additions to the Plan consist of contributions made by participant contributions within limitations of the Plan, and income generated by Plan assets. The Company has elected not to match the contributions on behalf of the employees making employee 401(K) contributions.

e. *Participant loans*

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. The interest rate on the loans ranged from 4.25% to 6.00% per annum.

f. *Priorities upon termination of the Plan*

The Company has the ability to terminate the Plan subject to the provisions of the Employee 401(K) Income Security Act of 1974 (ERISA) and the Pension Benefit Guaranty Corporation (PBGC). The Plan, if terminated, provides that the accounts of all participants become fully vested, a valuation of the Plan be made, and the net value of the Plan be distributed to each participant based on the proportion of the total Plan value each participant's account represents.

1. Description of Plan (continued)

g. *Tax status*

The Plan has been designed to qualify as a tax-exempt defined contribution plan under applicable sections of the Internal Revenue Code and, therefore, is not subject to Federal income taxes. The Plan is utilizing a "prototype" plan document, which in its prototype form has received a favorable determination of such qualification from the Internal Revenue Service. The Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(k) and the related trust is tax exempt as of December 31, 2009.

h. *Expenses of the Plan*

Administrative expenses of the Plan are paid by the Plan, unless the Administrator elects to pay such expenses.

2. Summary of Accounting Policies

a. *Basis of accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting.

b. *Valuation of investments*

All investments are valued at fair value as determined by current quoted market prices.

c. Cash and Cash Equivalents

The Plan considers all short term deposits with an original maturity of three months or less to be cash equivalents. At times, such investments may be in excess of the Federal Deposit Insurance Corporation insurance limit.

d. *Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America, requires the custodian of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

e. *Payment of benefits*

Benefits are recorded when paid.

f. *Recent pronouncements*

The Plan does not anticipate the adoption of recently issued accounting pronouncements will have a significant impact on its statements of net assets available for benefits or its statement of changes in net assets available for benefits.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

		Fair Value Measurements Using:	
December 31, 2009	**Fair Value**	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Unobservable Inputs (Level 3)**
Mutual funds	$ 585,476	$ 585,476	$ 0
Cash and cash equivalents	106,338	106,338	0
Participant loans	24,523	0	24,523
Total	$ 716,337	$ 691,814	$ 24,523

Participant loans	15,350	0	15,350
Total	$ 507,432	$ 492,082	$ 15,350

3. Fair Value Measurements (continued)

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

Participant's loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements using Significant Unobservable Inputs (Level 3)

December 31, 2009	Participant Loans
Beginning balance	$ 15,350
Purchases, sales, issuances & settlements (net)	9,173
Ending balance	$ 24,523

3. **Fair Value Measurements (continued)**

December 31, 2008	Participant Loans
Beginning balance	$ 0
Purchases, sales, issuances & settlements (net)	15,350
Ending balance	$ 15,350

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2009 and 2008 are reported in net appreciation/ (depreciation) in fair value of investments.

4. **Information Certified By Trustee (unaudited)**

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules that was prepared by Reliance Trust Company, the Trustee of the Plan, as of December 31, 2009 and 2008, respectively, and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustees that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fair value of investments as of December 31, 2009 and 2008 as reported by the Trustee is summarized as follows:

5. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, overall volatility risks and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

6. Subsequent Event

The Plan was terminated on May 31, 2010, and a new plan was created on June 1, 2010. All plan assets were rolled over into the new plan as of that date, and participants were required to complete revised investment allocations for future deferrals with the new plan trustee.

		Fair Value Measurements Using:

3. Fair Value Measurements (continued)

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

Participant's loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements using Significant Unobservable Inputs (Level 3)

1. Description of Plan

The following brief description of the LNK International, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the provisions contained therein.

a. *Sponsorship and administration*

The Plan sponsor and administrator is LNK International, Inc. (the "Company"). The plan became effective January 1, 1998.

b. *Participation and vesting*

The Plan is a defined contribution plan covering all employees of LNK International, Inc. who have attained at least age 21 and met certain service requirements. Participant contributions are fully vested at the time the contributions are made. All investments are participant directed.

c. *Benefits and distribution*

The Plan provides for benefits to be paid upon death and termination of employment. The participant may elect to receive one of the following forms of payment: (1) in a lump sum; (2) in installment payments over a period not to exceed the life expectancy of the Participant or the joint and last survivor life expectancy of the Participant and his designated Beneficiary; or (3) applied to the purchase of an annuity contract.

d. *Funding*

Additions to the Plan consist of contributions made by participant contributions within limitations of the Plan, and income generated by Plan assets. The Company has elected not to match the contributions on behalf of the employees making employee 401(K) contributions.

e. *Participant loans*

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. The interest rate on the loans ranged from 4.25% to 6.00% per annum.

f. *Priorities upon termination of the Plan*

The Company has the ability to terminate the Plan subject to the provisions of the Employee 401(K) Income Security Act of 1974 (ERISA) and the Pension Benefit Guaranty Corporation (PBGC). The Plan, if terminated, provides that the accounts of all participants become fully vested, a valuation of the Plan be made, and the net value of the Plan be distributed to each participant based on the proportion of the total Plan value each participant's account represents.

1. Description of Plan (continued)

g. *Tax status*

The Plan has been designed to qualify as a tax-exempt defined contribution plan under applicable sections of the Internal Revenue Code and, therefore, is not subject to Federal income taxes. The Plan is utilizing a "prototype" plan document, which in its prototype form has received a favorable determination of such qualification from the Internal Revenue Service. The Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(k) and the related trust is tax exempt as of December 31, 2009.

h. *Expenses of the Plan*

Administrative expenses of the Plan are paid by the Plan, unless the Administrator elects to pay such expenses.

2. Summary of Accounting Policies

a. *Basis of accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting.

b. *Valuation of investments*

All investments are valued at fair value as determined by current quoted market prices.

c. Cash and Cash Equivalents

The Plan considers all short term deposits with an original maturity of three months or less to be cash equivalents. At times, such investments may be in excess of the Federal Deposit Insurance Corporation insurance limit.

d. *Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America, requires the custodian of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

e. *Payment of benefits*

Benefits are recorded when paid.

f. *Recent pronouncements*

The Plan does not anticipate the adoption of recently issued accounting pronouncements will have a significant impact on its statements of net assets available for benefits or its statement of changes in net assets available for benefits.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

		Fair Value Measurements Using:	
December 31, 2009	**Fair Value**	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Unobservable Inputs (Level 3)**
Mutual funds	$ 585,476	$ 585,476	$ 0
Cash and cash equivalents	106,338	106,338	0
Participant loans	24,523	0	24,523
Total	$ 716,337	$ 691,814	$ 24,523

Participant loans	15,350	0	15,350
Total	$ 507,432	$ 492,082	$ 15,350

3. Fair Value Measurements (continued)

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

Participant's loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements using Significant Unobservable Inputs (Level 3)

December 31, 2009	Participant Loans
Beginning balance	$ 15,350
Purchases, sales, issuances & settlements (net)	9,173
Ending balance	$ 24,523

3. **Fair Value Measurements (continued)**

December 31, 2008	Participant Loans
Beginning balance	$ 0
Purchases, sales, issuances & settlements (net)	15,350
Ending balance	$ 15,350

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2009 and 2008 are reported in net appreciation/ (depreciation) in fair value of investments.
