ORIX Financial Services, Inc. Incentive Savings Plan

Notes to Financial Statements October 31, 2009 and December 31, 2008

Note 1. Description of the Plan

The following description of ORIX Financial Services, Inc. Incentive Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by ORIX Financial Services (the "Company" or "Sponsor") for the benefit of its employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Charles Schwab Trust Company ("Schwab") is the trustee of the Plan. Participating employers include ORIX Public Finance, LLC, GPA Agency, Inc. and Morgan Premium Finance, Inc.

Plan Freeze and Merger

Effective April 1, 2004, the Company announced the suspension of participation in the Plan and contributions to the Plan. Additionally, effective April 1, 2004, the Company's employees began participating in the ORIX USA Corporation Savings and Investment Plan (the "OUC Plan"). The Plan was effectively merged into the OUC Plan on October 16, 2009 when all of the Plan's assets were transferred to the OUC Plan. At the date of the merger into the OUC Plan, all participants were 100% vested in the Plan.

Contributions

Contributions for employees and the employer match are recorded during the period for which payroll deductions from the participants' earnings are made. Additional employer discretionary contributions are recorded when approved. As the Plan was frozen as of April 1, 2004, no contributions have been recorded during the ten months ended October 31, 2009 and the year ended December 31, 2008.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts offered by the Plan and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the Plan earnings and is charged with an allocation of administrative expenses. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Effective May 1, 2003, vesting for employer contributions under the Plan was amended to be based upon the elapsed time method. Prior to May 1, 2003, vesting was based upon hours of service. Participants who were employees prior to May 1, 2003, receive vesting credit based upon whichever method is more favorable to the participant. Employer contributions vest 20% each year, and a participant is fully vested after 5 years of continuous service. The non-vested balance is forfeited upon termination of service.

ORIX Financial Services, Inc. Incentive Savings Plan

Notes to Financial Statements October 31, 2009 and December 31, 2008

Note 1. Description of the Plan (Continued)

Payment of Benefits

Upon termination of service, participants may elect to receive either a lump-sum amount equal to the vested value of their account or installments, as specified in the Plan. At October 31, 2009 and December 31, 2008, Plan assets include \$0 allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Participant Loans

The Plan includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan is \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value of shares held by the Plan at year end, which is based on quoted market prices. Participant loans are valued at amortized cost, which approximates fair value.

The Plan's interest in common collective and unit investment trusts are valued based on information reported by the investment advisor using the audited financial statements of the collective and investment trusts at period end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

ORIX Financial Services, Inc. Incentive Savings Plan

Notes to Financial Statements October 31, 2009 and December 31, 2008

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Company pays substantially all administrative expenses associated with the administration of the Plan.

Plan Tax Status

The Plan operates under a non-standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Schwab. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax exempt as of the financial statement date.

Note 3. Investments

The Plan's investments are held in a trust administered by Charles Schwab Trust Company. The Plan's investments (including investments bought, sold and held during the period) appreciated (depreciated) in fair value during the ten months ended October 31, 2009 and the year ended December 31, 2008 as follows:

Note 4. Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Note 4. Fair Value of Plan Assets and Liabilities (Continued)

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include money market funds, common stocks and mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common collective and unit investment trusts. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at October 31, 2009 and December 31, 2008:
