Administrative Committee of
Bartow Ford Company, Inc.
401(k) Retirement Plan
Bartow, Florida

We have audited the accompanying statements of net assets available for benefits of Bartow Ford Company, Inc. 401(k) Retirement Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Bartow Ford Company, Inc. 401(k) Retirement Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

(1) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of Bartow Ford Company, Inc. (the Company/Employer) 401(k) Retirement Plan (the Plan) are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The Plan has one such investment as of December 31, 2011 and 2010; the Wells Fargo Stable Return Fund. Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2011 and 2010, there was a difference between the fair value and the contract value of Plan assets of $(62,428) and $(51,942), respectively; and, therefore, an adjustment from fair value to contract value was required each year. The fair value of all other investments held by the Plan approximates market value at December 31, 2011 and 2010.

The Plan has elected to become a participating employer in the Wachovia Bank, N.A. (Wachovia) Defined Contribution Prototype Plan and Trust (Master Plan). Wachovia was acquired by Wells Fargo Bank, National Association (Wells Fargo NA) in 2009. The Plan is currently being administered by Wells Fargo Institutional Retirement and Trust (Wells Fargo). The Plan is entirely participant directed. Wells Fargo has assumed responsibility for the Plan's assets as a non-discretionary Trustee.

(Continued)

(b) Use of estimates

Preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

(c) Investments Valuation and Income Recognition

The Plan's investments in funds held within the Master Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 1(g) and 3 for discussion of fair value measurements.

Realized gains and losses and the change in the difference between fair value and the cost of investments are reflected in the Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments. Purchases and sales of units of mutual funds and shares of stock are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Reclassifications

Certain amounts in the 2010 financial statements have been reclassified to conform to the current year presentation.

(g) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the frame-work for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted

(Continued)

quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded (Level 1);

Mutual funds - Valued at the quoted net asset value of the shares held by the Plan at year end (Level 1);

Investments in common/collective trusts and other fully benefit responsive investment contracts - Valued at fair value with adjustments from contract value, if applicable (Level 2).

(Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(h) Subsequent Events

The Plan has evaluated subsequent events through July 16, 2012, the date which the financial statements were available to be issued.

(i) New Accounting Pronouncement

In May 2011, the FASB issued an Accounting Standards Update (ASU) to develop common requirements for measuring fair value and for disclosing information about fair value measurements in U.S. GAAP and International Financial Reporting Standards (IFRS). The amendments are intended to improve the comparability of fair value measurements presented and disclosed in the financial statements prepared in accordance with U.S. GAAP and IFRS. The ASU is effective during interim or annual periods beginning after December 15, 2011. At this time, management is evaluating the implication of this ASU and its impact on the financial statements has not been determined.

(2) Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

(a) General

The Plan, as amended and restated, is a defined contribution plan maintained for all eligible employees of the Employer. The Plan and its related trust are maintained for all full-time employees of the Company who are at least twenty-one years of age, and have completed at least 1,000 hours of continuous service and one year of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan entry dates are quarterly on January 1, April 1, July 1, and October 1. The Plan allows participants to contribute from their salary on a pre-tax basis, and the Employer has the discretion to make matching contributions and profit sharing contributions. The Plan conforms to current tax laws and provides for participant directed, daily valuation investment options. The Plan has been amended to reflect changes necessitated by the Internal Revenue Service (IRS).

(Continued)

(b) Contributions

Employees may become 401(k) participants by entering into salary deferral agreements with the Employer, whereby each employee may elect to make pre-tax contributions in amounts as set forth in the Plan Document. Participants may elect to make pre-tax contributions of up to 100% of compensation, subject to limitations set forth in the Plan Document. Amounts subject to these agreements are referred to as participant contributions in these financial statements. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations.

The Employer may make basic Employer contributions to the Plan on behalf of each active participant in an amount not to exceed that percentage of each participant's compensation as may be approved by the Board of Directors on an annual basis. The Employer may also make discretionary Employer contributions to the Plan out of its net profits or accumulated net profits as determined by appropriate action of the Board of Directors.

For the Plan years ending December 31, 2011 and 2010, there were no Employer matching and profit sharing contributions.

There were no payables for excess deferrals for the years ended December 31, 2011 and 2010.

(c) Participants' Accounts and Fund Earnings

The Plan Administrator maintains individual accounts for each participant. Each participant's account is credited with the participant's contributions, an allocation of the Employer contributions and related forfeitures, if any, and a share of the net earnings on investments and administrative expenses allocable to each such account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Employer profit sharing contributions, if any, including forfeitures to participants' accounts, are allocated to participants' accounts in proportion to the ratio the participant's compensation bears to the compensation of all participants entitled to share. Employer matching contributions, if any, are allocated equally among eligible participants.

Net investment earnings and administrative expenses are allocable in proportion to the average value, as defined in the Plan agreement, of each participant's account for the period since the last valuation date.

(Continued)

(d) Vesting and Forfeitures

Participant contributions are 100% vested upon contribution, along with the actual earnings thereon. The amended vesting period and the rates of vesting for Employer contributions are reflected in the following vesting schedule:

Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years or more	100%

Participants' remaining interest in the amounts contributed by the Employer vests fully upon the occurrence of death, disability, or retirement. Participants who cease to participate in the Plan as defined in the Plan agreement prior to vesting, forfeit their interest in the Employer contributions. The forfeitures relating to the matching contributions are used to reduce future Employer contributions to the Plan. The forfeitures relating to the basic contributions are allocated based on participants' compensation percentages. During 2011, Plan administrative expenses totaling $6,124 were paid from the forfeiture account. Forfeitures available to reduce future Employer contributions or Plan administrative fees total $6,660 at December 31, 2011.

(e) Limits on 401(k) Actual Deferral Percentages

Internal Revenue Code (IRC) Section 401(k) limits the amounts of deferrals that participants who are deemed as highly compensated employees may make each year. A series of calculations is performed on Plan data to calculate these limits as of the end of each Plan year. There were no excess deferrals payable at December 31, 2011 and 2010.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their vested account balance up to the lesser of $50,000 or 50% of their account balance. The minimum loan amount is $1,000. Note terms generally range from one to five years, but may be longer if the loan is for the purchase of a principal residence. The notes are secured by the balance in the participant's account, and principal and interest are paid ratably through payroll deductions. Interest on the notes is fixed based on the prime lending rate in effect at the grant date, and accrued at annual rates of between 3.25% and 7.75% in 2011 and 2010. Interest on notes earned in 2011 totaled $13,343. Total notes outstanding to participants at December 31, 2011 and 2010 totaled $424,370 and $430,748, respectively.

(Continued)

Delinquent notes receivable are reclassified as distributions based upon terms of the Plan document.

(g) Distributions and Payment of Benefits

Benefits are recorded when paid. In general, upon termination of service, if a participant's vested account balance exceeds $5,000, an election can be made to receive a distribution in a single lump sum payment in cash, installments over a period of not more than assumed life expectancy, or ad-hoc distributions of some or all of the vested account balance. For vested account balances not exceeding $5,000, a distribution of the balance is made as soon as administratively feasible following termination of employment. In the event of a mandatory distribution greater than $1,000, the Plan must roll the funds into an individual retirement plan if the participant does not make an affirmative election to have the amount paid in a direct rollover or cash distribution. Disbursement of funds will commence as soon as administratively practicable following the participant's separation from service. In addition, hardship distributions are permitted if certain criteria are met.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, all amounts credited to the accounts of each participant shall be fully vested and shall be paid to each participant after payment of all expenses and adjustments.

(3) Investments

For the years ended December 31, 2011 and 2010, the Plan's assets are held by Wells Fargo in individual participant accounts, which are invested primarily in mutual funds, cash equivalents, and shares of Ford Motor Company and Citigroup, Inc. stock, valued at market value, as determined by quoted market prices (Level 1). Investments, at fair value	$ 67,294
Investments, at market value	(2,029,976)
Net depreciation in fair value of investments	$ (1,962,682)

(4) Parties-In-Interest

Expenses incurred by the Employer in the installation, administration, and revision of the Plan are paid by the Plan, unless paid directly by the Employer. During the year ended December 31, 2011, the Employer incurred Plan administrative expenses of approximately $11,129.

(Continued)

(5) Income Tax Status

The Plan adopted the Master Plan, effective January 1, 2002. The Master Plan has obtained a determination letter dated March 31, 2008 from the IRS for its prototype plan, which stated that the Master Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan has not obtained a separate individual determination letter. In the opinion of the Plan Administrator and the Plan's tax counsel, the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and tax-exempt as of the financial statement date, and no provision for income taxes has been included in the Plan's financial statements.

The Plan follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, as it relates to uncertain tax positions. Any interest and penalties recognized associated with a tax position are classified in operating expense in the Plan's financial statements.

The Plan recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Plan's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for the open tax years 2008 through 2010, or expected to be taken in the Plan's 2011 tax returns. The Plan identifies its major tax jurisdiction as the U.S. Federal jurisdiction. However, the Plan is not currently under audit nor has the Plan been contacted by this jurisdiction. The Plan is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change in the next twelve months.

During the year ended December 31, 2011, the Plan did not recognize any interest and penalties relating to taxes, nor were any accrued at December 31, 2011 and 2010.

There are no significant reconciling items between the audited financial statements and the Form 5500.

(6) Risk on Uninsured Cash

During 2010, the Federal Deposit Insurance Corporation (FDIC) extended the Temporary Liquidity Guarantee Program, effective through December 2010, to provide an unlimited guarantee on non-interest bearing accounts, defined as interest not exceeding 25 basis points per annum. Recent amendments to the program provide full deposit coverage for non-interest bearing transaction accounts and IOLTAs beginning December 31, 2010, for a two-year period. This applies to all insured depository institutions and no opt outs are permitted. Low interest NOW accounts are not covered. During 2011 and 2010, the Plan's cash balances were 100% insured by the FDIC.

(Continued)

(7) Risks and Uncertainties

The Plan invests in various investment securities through mutual funds, registered investment companies, common/collective trusts, and common stocks, and through notes receivable from participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(8) Concentration of Risk

A substantial portion of the total assets of the Plan are invested in Ford Motor Company and Citigroup, Inc. common stock as of December 31, 2011 and 2010. This concentration of assets is subject to the risks of the automobile industry and local and national economic growth trends.
