A. Description of Plan

The following description of the Eye Doctors Optical Outlet, Inc. Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

1. *General.* The Plan is a defined-contribution plan covering all full-time employees of the Company who have six months of eligibility service and are age twenty-one or older. It is subject to the provisions of Section 404(c) of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions.* Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans. Employer matching contributions are allocated in an amount not to exceed 33.33% of each participant's first 3% of compensation (or one percent of compensation) contributed as elective deferrals for the plan year. Contributions are subject to certain limitations.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Forfeited Accounts.* At December 31, 2010, forfeited non-vested accounts totaled $931. These accounts will be used to reduce current employer contributions. During the plan year 2010, employer contributions were reduced by $ - 0- from forfeited non-vested accounts.

5. *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Contributions and investment income are recorded as received and expenses when paid. Securities investments are recorded at current value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at cost, which approximates fair value.

Payment of Benefits

Benefits are recorded when paid.

C. Related-Party Transactions

Plan investments are shares of mutual funds managed by Fidelity Investments Retirement Services. Fidelity Investments is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid for the Plan for the investment management services amounted to approximately $1,376 for the year ended December 31, 2010.

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

G. Tax Status

The Internal Revenue Service has determined and informed ADP, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

H. Other Matters

During the course of the audit, the auditor noted that the contributions of amounts deferred by employees through payroll deductions were not remitted in a timely manner by the plan sponsor. Under the rulings issued by the Department of Labor, the employer has until the 15th business day of the month immediately following the month in which contributions are received or would otherwise be available to the employee in cash to make the required deposit. The auditor noted one instance that caused the financial statements of the plan trustee being understated for the year ended December 31, 2009 as follows:

Employee Contributions	$ 2,972
Employer Match Contributions	$ 831
Employee Loan Repayments	$ 287

The delay in the timely depositing of the employee contributions occurred primarily during the time period that a key payroll individual was on an extended leave of absence.

I. Subsequent Events

Subsequent events have been considered through the date of the audit report.
