INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Palm Bay International, Inc. 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the Palm Bay International, Inc. 401(k) Plan (the "Plan") as of and for the years ended December 31, 2009 and 2008, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, from January 1, 2008 through January 10, 2008, and ING Institutional Plan Services, LLC, the trustee of the Plan, from January 11, 2008 through December 31, 2009, except for comparing such information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the custodian/trustee held all of the Plan's investment assets and executed investment transactions during the years ended December 31, 2009 and 2008. The plan administrator has obtained certifications from the custodian/trustee as of and for the years ended December 31, 2009 and 2008 that the information provided to the plan administrator by the custodian/trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodian/trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974.

PALM BAY INTERNATIONAL, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the plan agreement and all amendments for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan, covering substantially all the employees of Palm Bay International, Inc. (the "Employer").

On January 11, 2008, the Plan entered into an agreement with ING Institutions Plan Services, LLC ("ING") to become the trustee of the Plan, replacing the custodian Massachusetts Mutual Life Insurance Company ("MassMutual").

ING, the trustee of the Plan from January 11, 2008 through December 31, 2009, and MassMutual, the former custodian of the Plan from January 1, 2008 to January 10, 2008, hold and invest contributions made to the Plan in assets which will provide current and future benefits to participants. All investments are participant-directed among the Plan's various investment options. The Employer acts as the plan administrator and is responsible for the overall direction of the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Eligibility and Contributions

Substantially all employees of the Employer who have attained the age of 21, as defined in the Plan, are eligible for participation in the Plan on the January 1st and July 1st coincident with or next following the date which is six months after their original date of employment. Employees electing to participate in the Plan may contribute up to 17% of their qualifying wages for the years ended December 31, 2009 and 2008. Under the terms of the Plan, the Employer may make a discretionary matching contribution equal to a discretionary percentage of the participant's elective deferred contribution to be determined by the Employer, or a discretionary dollar amount. Only elective deferred contributions up to the percentage or dollar amount specified will be matched. Additionally, under the terms of the Plan, the Employer may make an annual discretionary profit sharing contribution to the Plan that is allocated to participants based on the ratio each participant's eligible compensation bears to the total of such compensation of all participants as defined in the plan agreement. The Plan permits catch-up contributions for eligible participants as described under the Economic Growth and Tax Relief Act of 2001.

(c) Participant Accounts

An individual participant's account is comprised of the participant's elective deferred contributions, the Employer's matching/profit sharing contributions, applicable fund earnings and unrealized fair market value adjustments. Unrealized fair market value adjustments are based on quoted market prices as of the last business day of each year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(continued)

PALM BAY INTERNATIONAL, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF THE PLAN (Continued)

(d) Vesting

Participants are immediately vested in their elective deferred contributions plus earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on the following schedules as of the plan years ended December 31, 2009 and 2008:

Years of Service	Vested Interest in Account
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 or more years	100%

A participant's vested interest in the Employer's contribution portion of his or her accounts will be 100% under the following conditions:

(i) Death or total and permanent disability of a participant while employed by the Company

(ii) Attainment of retirement age

(iii) Termination of the Plan

(e) Plan Termination

Although they have expressed no intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA.

(f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a single lump-sum amount equal to the value of his or her vested account balance, or equal installment payments over a period of time.

(continued)

PALM BAY INTERNATIONAL, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF THE PLAN (Continued)

(g) Participant Loans

A participant may borrow from his or her vested account balance. Loans must be for a minimum of $1,000, and a participant is limited to having two loans outstanding at any time. All loans to participants, when added to the outstanding balance of other loans from the Plan, will be limited to 50% of the participant's vested balance. Loans, together with the interest required to be paid thereon, must be repaid within five years, unless the loan is used to build or buy a principal residence. Loans bear interest at a rate equal to the prevailing prime rate plus 2%.

(h) Hardship Withdrawals

The Plan permits for hardship withdrawals of the participant's vested account balance. Permissible circumstances for hardship withdrawals include education, purchase of a principal residence, medical expenses, and to prevent foreclosure of a principal residence.

(i) Forfeitures

Forfeitures of terminated participants' nonvested matching contributions, if any, will be used to reduce the Employer matching contribution under the Plan, if any. Forfeitures of terminated participants' nonvested profit sharing contributions, if any, will be reallocated to all eligible participants. At December 31, 2009 and 2008, forfeited nonvested employer matching contribution accounts totaled approximately $68,000 and $42,000, respectively. These accounts will be used to reduce future employer matching contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Palm Bay International, Inc. 401(k) Plan (the "Plan") conform to accounting principles generally accepted in the United States of America ("GAAP"). The Plan's financial statements are prepared on the accrual basis of accounting. Following are the significant accounting policies followed by the Plan:

(a) Valuation of Investments

The Plan's investments are stated at fair value. See Note 5 for discussion of fair value measurements. Generally, quoted market prices in an active market are used to value investments excluding the common collective trust, discussed in the following paragraph.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Valuation of Investments (continued)

The MetLife Stable Value Fund is a common collective trust (CCT) which is an investment fund of Metropolitan Life Insurance Company. The CCT primarily owns investment contracts that invest in conventional, synthetic and separate account investment contracts (collectively, the "contracts") issued by life insurance companies, banks and other financial institutions. In addition, the CCT invests in fixed income securities issued by banks, corporations and the U.S. Government. The contracts are valued at contract value, which represents invested principal plus accrued interest thereon. In determining contract value, Metropolitan Life Insurance Company considers such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of an investment security (Note 6). In accordance with GAAP, the statements of net assets available for plan benefits present The MetLife Stable Value Fund, which invests primarily in benefit-responsive investment contracts, at fair value as well as an additional line showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for plan benefits present these contracts and their contract value. Contract value represents contributions made under the fund, plus earnings, less participant withdrawals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(b) Net Appreciation or Depreciation of Fair Value of Investments

The Plan presents, in the statements of changes in net assets available for plan benefits, the net appreciation or depreciation in the fair value of its investments which consists of the realized gains or losses, and the unrealized appreciation or depreciation on those investments.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Federal Income Taxes

The Plan is a prototype plan. During 2008, the Internal Revenue Service ruled that the prototype plan qualifies under Sections 401(a) and 401(k) of the Internal Revenue Code (IRC) as amended, and, therefore, is not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies, if any, at the date of the financial statements and revenue and expenses during the reporting periods. Actual results could differ from those estimates.

(f) Concentration of Credit Risk

The Plan's assets are invested in various money market, mutual funds, and common collective trusts. These investments are exposed to various risks such as interest rate, market and credit risks. Changes in market conditions may have a direct impact on the market values of the Plan's investments. Due to the level of risk associated with certain investment securities, it is reasonably possible that market conditions will change in the near term and that such change will have a material impact on the carrying value of the Plan's investments.

(g) Subsequent Events

The Plan has evaluated subsequent events after December 31, 2009 through September 21, 2010, the date that the financial statements are considered available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

The plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rule and Regulations for Reporting and Disclosure Under ERISA. Accordingly, the Plan's custodian has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments in managed funds, common collective trusts, and loans receivable - participants as shown in the statements of net assets available for plan benefits.
- Net appreciation and depreciation in fair value of investments, dividend income, and interest income, as shown in the statement of changes in net assets available for plan benefits.
- Investment information as shown in Note 4.
- The Schedule "Schedule of Assets (Held at End of Year)" at December 31, 2009 as shown in the supplemental schedule.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - INVESTMENTS

The following investments of the Plan represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
MetLife Stable Value Fund - at contract value	$ 496,211	$ 462,707
American Funds Capital Income Builder Fund	$ 864,795	$ 645,316
BlackRock TempFund Cash Management Fund	$ 1,237,051	$ 1,119,836
American Funds Fundamental Investors Fund	$ 625,602	$ 496,485
MFS Government Securities Fund	$ 500,177	$ 551,296
BlackRock Equity Dividend Fund	$ 511,190	N/A

NOTE 5 - FAIR VALUE MEASUREMENTS

GAAP establishes a hierarchy framework for measuring fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(continued)

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds - Valued at the closing price reported in the active market in which the individual security is traded.
- Money market funds - Valued at the closing price reported in the active market in which the individual security is traded.
- Common collective trusts - Valued at net asset value. Underlying investments are based upon the latest published market quotations when available. Where not available, fair values are determined by the fund manager by reference to quoted market values or other financial data pertaining to investments of similar nature, quality and yield.
- Participant loans - Participant loans are valued at their outstanding loan balances, which approximate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize the Plan's investments as of December 31, 2009 and 2008, based on the inputs used to value them:

	Fair Value as of December 31, 2009			
Type of Security	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,093,152	$ -	$ -	$ 5,093,152

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance - beginning of year	$ 141,332
Issuances and settlements (net)	14,447
Balance - end of year	$ 155,779

NOTE 6 - INVESTMENT IN THE METLIFE STABLE VALUE FUND

The Plan includes an investment option to participants in the MetLife Stable Value Fund, a common collective trust, which simulates the performance of a guaranteed investment contract through an issuer's guarantee of a specific interest rate and a portfolio of financial instruments that are owed by the issuer MetLife. The group annuity contract (GAC) includes underlying assets which are held in a trust owned by MetLife, through the Plan's investment in a MetLife separate group annuity contract. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The investment is stated at fair value as reported by MetLife and adjusted to contract value on the statement of net assets available for plan benefits. The GAC's fair value equals the fluctuating value of the separate account of the assets backing the contract. The Plan's fair value of the investment equals the contract's fair value times the ratio of the Plan's guaranteed value to the GAC's guaranteed value.

NOTES TO FINANCIAL STATEMENTS

NOTE 6 - INVESTMENT IN THE METLIFE STABLE VALUE FUND (Continued)

The crediting interest was 3.25% and 2.90% in 2009 and 2008, respectively. The average yield was 3.23% and 4.46% for the years ended December 31, 2009 and 2008, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk or the contract issuer or otherwise. MetLife will guarantee principal and accrued interest, based on crediting interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. MetLife will reset the rate quarterly, by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the fund's investments.

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the plan. Certain events, such as plan termination or a plan merger initiated by the plan sponsor, may limit the ability of the plan to transact at contract value. The plan sponsor does not believe any events that may limit the ability of the plan to transact at contract value are probable.

NOTE 7 - ADMINISTRATIVE EXPENSES

Administrative expenses incurred by the Plan for the years ended December 31, 2009 and 2008 amounted to approximately $1,200 and $6,700, respectively.

NOTE 8 - RELATED PARTY TRANSACTIONS

Personnel and facilities of the plan administrator have been provided to the Plan at no charge.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2009, the Plan had contributions receivable from the employer-for-employee contributions and employer matching contributions of approximately $12,000 and $287,000, respectively.

At December 31, 2008, the Plan had contributions receivable from the employer-for-employee contributions and employer matching contributions of approximately $40,000 and $312,000, respectively.

The Plan invests in a diversified range of investments, some of which are managed by the custodian/trustee of the Plan and are considered party-in-interest transactions.

Participant loans also qualify as party-in-interest transactions.
