Independent Auditors' Report

To the Plan Administrator and Plan Trustees
Central Florida Investments, Inc.
401(k) Savings and Retirement Plan
Orlando, Florida

We were engaged to audit the financial statements of Central Florida Investments, Inc. 401(k) Savings and Retirement Plan (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Transamerica Financial Life Insurance Company, the recordkeeper of the Plan as agent for Massachusetts Fidelity Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the agent on behalf of the Trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the agent for the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Transamerica Financial Life Insurance Company, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(K) SAVINGS AND RETIREMENT PLAN

Notes to Financial Statements
December 31, 2011

1. Description of Plan:

The following description of the Central Florida Investments, Inc. (the "Company") 401(k) Savings and Retirement Plan (the "Plan") provides only general information regarding the Plan's provisions in effect at December 31, 2011. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution, participant-directed plan covering substantially all full-time employees of the Company who are age twenty-one or older. Employees are eligible to participate on the first day of the month coinciding with or following the completion date of one year of service as specified in the Plan. Upon the eligibility date, the participant is automatically enrolled into the Plan with a deferral percentage of 2% into a preselected fund, unless the participant makes an affirmative election. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participant:

Each year, participants may contribute 1% to 65% of their pre-tax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participant contributions are transferred to the Plan throughout the year.

Employer:

For eligible participants, the Company may make a discretionary matching contribution which will be funded on an annual basis. Forfeitures will be used to make discretionary matching contributions for 2011 (see Forfeited Accounts on page 6).

All participant and employer contributions are subject to the limitations specified by the Plan and the Internal Revenue Code and Regulations.

Participant Accounts

Participants' accounts are credited with their elective contributions, employer matching contributions (if any), and an allocation of the Plan earnings and expenses. Allocations are generally based on the direct investment options chosen by the participant, participant compensation, participant contributions, or their account balances, as defined in the Plan.

Vesting

The benefits to which a participant is entitled are those that can be provided by the contributions and earnings thereon, including net unrealized gains and losses, which are credited to the participant's account.

1. Description of Plan – Continued:

Vesting – Continued

Participants are 100% vested in their elective contributions and rollover contributions plus actual earnings thereon at all times and become 100% vested in their employer matching contribution account upon retirement, death, or disability. Upon termination for any other reason, participants are entitled to a portion of their employer matching contribution account in accordance with the following vesting schedule:

Years of Service (as defined)	Vested Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable From Participants

Participants may obtain loans based upon their vested account balances. Participants are allowed a maximum of one loan per Plan year and one outstanding loan at a given time (see Note 2). The minimum loan permitted is $1,000 and the maximum is the lesser of 50% of the participant's vested account balance or $50,000. The rate of interest will be a fixed rate equal to the prime rate of interest plus one percent. Loan payments consisting of principal and interest are made through payroll deductions over a maximum term of five years or up to thirty years for the purchase of a primary residence. The loans earn interest at rates ranging from 4.25% to 10.25% and maturities range from 2012 to 2040. Loan balances are collateralized by the borrowers' vested account balances in the Plan.

Effective May 14, 2012, the Plan's loan policy was amended to remove the limitation to apply for only one loan during the Plan year. The requirement that participants have only one outstanding loan at a time has not changed.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or the beneficiaries may elect to receive either a lump-sum or direct rollover to an eligible retirement plan in an amount equal to the value of the participant's vested interest in his or her account. The Plan permits normal withdrawals of the participant's vested account balance beginning at age 59½ under certain circumstances specified in the Plan. Additionally, certain benefits may be payable in cases of financial hardship, as specified by the Plan.

Investment Options

Upon enrollment in the Plan, a participant may direct participant deferral contributions, participant rollover contributions, and employer matching contributions to any of the Plan's investment options offered by the Plan Trustee. Participants may change their contribution allocations among investment options periodically and may transfer amounts between funds daily.

1. Description of Plan – Continued:

Forfeited Accounts

The Plan allocates non-vested or forfeited amounts first to pay Plan expenses and then to reduce employer contributions. The Plan treats forfeitures as a reduction of the employer contributions otherwise made for the Plan year following the year in which the forfeitures occur. Forfeitures of employer matching contributions during the year ended December 31, 2011, totaled approximately $40,000. In 2011, forfeitures were allocated to pay Plan expenses of approximately $43,000. At December 31, 2011, forfeited non-vested accounts available for future use were approximately $326,000. In March 2012, approximately $265,000 of the December 31, 2011, balance was allocated to plan participants as employer discretionary matching contributions.

Plan Expenses

All costs and expenses incurred with regard to the purchase or disposition of investments are generally paid by the Plan and available forfeitures. Investment and processing fees paid to the Trustee and its agent totaled approximately $156,000 for the year ended December 31, 2011.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements for the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. At December 31, 2011, there were fifteen notes in default which were reclassified as distributions in the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies – Continued:

Investment Valuation and Income Recognition – Continued

The net change in the fair value of investments during the Plan year is included in the statement of changes in net assets available for benefits. Net appreciation or depreciation of the fair value of investments consists of the net realized gains or losses of investments sold during the year and the net unrealized gains or losses on investments held during the year.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain items previously reported in prior year financial statements have been reclassified to conform to the current financial statement presentation.

Subsequent Events

Plan management has evaluated subsequent events through September 6, 2012, the date which the financial statements were available to be issued.

3. Investments:

The following presents investments that represent five percent or more of the Plan's net assets, at fair value at December 31, 2011 and 2010:

	2011	2010
Transamerica Partners Stock Index Ret Opt	$ *	$ 948,231
Loomis Sayles Investment Grade Bond Ret Opt	1,056,604	1,197,383
Transamerica Stable Value Advantage Option	3,937,970	3,217,151
Transamerica Asset Allocation – Conservative Portfolio Ret Opt	4,640,657	4,959,760

*Less than 5% of Plan net assets

During 2011, the Plan's investments in pooled separate accounts, including gains and losses on investments bought and sold, as well as held during the year, depreciated in value by $307,939.

4. Investment Contract:

The Plan has entered into a fully benefit-responsive investment contract with Transamerica Financial Life Insurance Company ("Transamerica"). The contract involves Stable Value Advantage Option investment choices which are invested in the general account of the insurance company. Transamerica's Stable Value Advantage Option investment choices have no stated maturity. Interest rates are reset monthly as of the beginning of the month, during which a new interest rate is applied daily to total outstanding balances of the investment. This investment is considered fairly valued at contract value; therefore, no adjustment has been recorded. The average yield on the contract was 2.70% and 2.98% for 2011 and 2010, respectively. Crediting interest rates are determined and reset monthly by Transamerica and the minimum rate for 2011 was 2.45%.

Certain events, such as the termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Transamerica. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

5. Fair Value Measurements:

Fair value is measured using a framework that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:

  - Quoted prices for similar assets or liabilities in active markets;

  - Quoted prices for identical or similar assets or liabilities in inactive markets;

  - Inputs other than quoted prices that are observable for the asset or liability;

  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fair Value Measurements – Continued:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Pooled separate accounts: Valued at the quoted net asset value of shares of the underlying funds held by the Plan at year end.

Investment contract: Valued based on the contractual terms of the underlying investment contract and the credited interest received from assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy, the Plan's Level 2 investments at fair value at December 31, 2011 and 2010:

	2011	2010
Pooled Separate Accounts:		
Intermediate term bonds	$ 1,241,094	$ 1,375,279
High yield bonds	234,038	307,361

At December 31, 2011 and 2010, there were no investments measured using Level 1 or Level 3 inputs.

6. Related-Party Transactions:

The Plan's investments are currently held and managed by Transamerica, the agent for the Trustee. Therefore, fees paid to the agent of the Trustee (see Note 1) are considered party-in-interest transactions.

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

During the years ended December 31, 2008 through 2011, the Company executed a series of employer-initiated severances from employment. In aggregate, these terminations represent a partial termination of the Plan. As a result of this partial termination, all accumulated benefits of affected participants are fully vested as of the date on which the participants were terminated.

8. Tax Status:

The Internal Revenue Service has approved the volume submitter of the Plan by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). This approval is applicable for amendments executed prior to the issuance of the letter. Although the Plan has been amended since receiving the approval letter, the Plan's Trustees and the Plan administrator believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is qualified and the related trust is exempt from federal income taxes as of the financial statement date.

On June 16, 2010, the Plan received a favorable determination letter from the Internal Revenue Service indicating the Plan and related trust are designed in accordance with applicable sections of the IRC.

Plan management has evaluated tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

9. Excess Contributions:

At December 31, 2011 and 2010, liabilities of $27,094 and $4,896, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRC.

10. Summary of Information Certified by the Agent of the Plan Trustee:

At December 31, 2011 and 2010, and for the year ended December 31, 2011, the agent for the Trustee, Transamerica, held the Plan's assets, including investments and notes receivable from participants, and executed investment transactions. Financial information relating to those assets is included in the accompanying financial statements, including Notes 3, 4, and 5, and the supplemental schedule of assets (held at end of year), and such information has been derived from reports certified as complete and accurate by the agent of the Trustee. Information provided by the agent of the Trustee, which has not been audited by independent accountants, is summarized as follows:

	2011	2010
Investments	$ 16,710,436	$ 17,363,531
Net depreciation in fair value of investments	$ (307,939)	
Interest on investment contract	95,461	
Total investment loss	$ (212,478)	

11. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

12. Reconciliation of Financial Statements to Form 5500:

The Plan's Form 5500, Annual Return/Report of Employee Benefit Plan, for the years ended December 31, 2011 and 2010, was prepared by the agent acting on behalf of the Trustee, whose policy is to prepare such returns on the modified cash basis of accounting. The following is a summary of differences between the financial statements and the Form 5500:

	Net Assets Available for Benefits		Year Ended December 31, 2011
