INDEPENDENT AUDITORS' REPORT

We were engaged to audit the statement of net assets available for Plan benefits of *Knight Hawk Coal, LLC 401(k) Profit Sharing Plan & Trust* (the "Plan") as of December 31, 2009, and the related statements of changes in net assets available for plan benefits for the year ended December 31, 2009, and the supplemental schedules as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by the Alerus Financial ("Alerus"), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that Alerus held the Plan's investment assets and executed investment transactions. The Plan Administrator has obtained a certification from Alerus as of and for the years ended December 31, 2009 that the information provided to the Plan Administrator by Alerus is complete and accurate.

Because of the significance of the information in the Plan's 2009 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of or for the year ended December 31, 2009. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of net assets available for plan benefits of the Plan as of December 31, 2008, and the related statements of changes in net assets available for Plan benefits for the year ended December 31, 2008 and in our report dated October 13, 2009, we expressed our opinion that such financial statements present fairly, in all material respects, the financial status of *Knight Hawk Coal, LLC 401(k) Profit Sharing Plan & Trust* as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 3 to the financial statements, certain errors resulting in the overstatement of previously reported employee and employer contributions receivable and dividend income as of and for the year ended December 31, 2008, respectively, were discovered subsequent to the issuance of the financial statements. Accordingly, the 2008 financial statements have been restated to correct the error and the resulting adjustment has been made to net assets available for benefits as of December 31, 2008.

401(k) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

The following description of Knight Hawk Coal, LLC 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on August 1, 1998, by Knight Hawk Coal, LLC (the "Company") and last amended on November 24, 2009. Effective January 1, 2009, the Plan adopted an amendment to remove KHC Land, LLC and Elk Land Holdings, LLC as co-sponsors. The Plan is a defined contribution plan for the benefit of its employees who have worked at least 500 hours within six months of service and are age 21 or older. An employee will become eligible for participation after completing the Plan's eligibility requirements as stated in the Plan Agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants may defer salary up to an annual maximum of the lesser of 65% of eligible compensation or $16,500 and $15,500 for the years ended December 31, 2009 and 2008, respectively. The total of employee and employer contributions for a given year cannot exceed the lesser of $49,000 and $46,000 for the years ended December 31, 2009 and 2008, respectively, or 100% of the employee's annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover distributions from other qualified defined benefit or defined contribution plans.

Each year, the Company may make matching contributions to be determined annually based on a percentage of employee salary deferrals.

In addition, the Company may make a discretionary profit sharing contribution to be determined by the Company. Each eligible participant employed by the Company on the last day of the Plan year will receive a portion of the discretionary profit sharing contribution based on their eligible compensation.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant account is credited with the participant's contributions, employer matching contributions and an allocation of the Company's discretionary contribution, if any, and Plan earnings. Each account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 20% vested with each annual service year and is 100% vested at the end of five credited service years.

Forfeitures

Participants who terminate their employment and are less than 100% vested in their employer's contributions forfeit their non-vested portion. Forfeitures are retained by the Plan to reduce employer contributions. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $46,363 and $16,748, respectively. Forfeitures of $16,748 and $14,832 were used to reduce employer contributions during the years ended December 31, 2009 and 2008, respectively.

Participant Hardship Withdrawals

Participants may withdraw from the Plan that portion of their account resulting from salary deferrals in the event of undue financial hardship. The maximum hardship withdrawal is the total of a participant's vested balance.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Loans

Participants may borrow from the Plan, with the loan being a participant directed investment. Loans are made in any amount greater than $1,000, but less than 50% of the participant's vested account balance. In no event can the participant borrow more than $50,000. Loan transactions are treated as transfers from the investment funds to the participant loan accounts. Loan terms range from one to five years or up to twenty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Interest rates ranged from 4.25% to 9.25% and 5.50% to 9.25% during the years ended December 31, 2009 and 2008, respectively. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

The Plan provides for retirement benefits to begin at the age of 65. Upon death and total or permanent disability of a participant while employed, the account balance becomes fully vested.

On termination of service, participants with vested account balances less than $5,000 will receive a lump sum amount equal to the value of their vested account balance. The distribution will be made as soon as administratively feasible. Participants may elect to receive the distribution or have the distribution paid as a direct rollover to another qualified plan.

Investment Options

Upon enrollment in the Plan, participants may direct contributions in any of the applicable investment options available to Plan participants.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Administrative Expenses

Administrative expenses of the Plan are paid both by the Company and the participants of the Plan.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

The Company has restated its previously issued financial statements for 2008 primarily to reflect the correction of errors related to the recording of employer and employee receivables and dividend income. The error was the result of double counting certain contributions and dividend reinvestments reflected, but not yet settled, in the fair value of investments held at December 31, 2008. No individual participant accounts were impacted by the overstatement of contributions and dividend income. Inclusion of 2007 balances on the Statements of Net Assets Available for Plan Benefits is a requirement for the amended 2008 Form 5500 tax return.

The following sets forth the previously reported and restated amounts of selected items within the statement of net assets available for Plan benefits as of December 31, 2008 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2008:

	As Previously Reported	As Restated
Receivables -		
Employer contributions	$ 1,741,293	$ 1,674,647
Employee contributions	148,467	19,551
Investment Income -		
Dividends and interest	980,723	670,820
Net Decrease	2,558,704	2,754,266
Net Assets Available for Plan Benefits - End of Year	15,630,801	15,435,239

NOTE 4 FAIR VALUE MEASUREMENTS

Investment Valuation and Income Recognition

FASB Accounting Standards Codification 820, "Fair Value Measurements and Disclosures" defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy based on the inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The standard maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect our assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. This hierarchy consists of three broad levels:

Level I – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly or indirectly. Level II inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level III – Unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Plan's own assumptions about what market participants would use to price the asset or liability. These inputs may include internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level I inputs because they generally provide the most reliable evidence of fair value. Level III inputs were only used when Level I or Level II inputs were not available.

Level I Fair Value Measurements

The registered investment company accounts are valued at quoted net asset value of the shares for identical assets held by the Plan at year-end.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Level III Fair Value Measurements

Participant loans are valued at amortized cost, which approximates fair value. The following table provides further details of the Level III fair value measurements:

	Investment Assets
Balance at December 31, 2007	$ 242,751
Borrowing (payments) on loans, net	128,039
Balance at December 31, 2008	$ 370,790
Borrowing (payments) on loans, net	5,189
Balance at December 31, 2009	$ 375,979

NOTE 6 RELATED PARTY TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, or a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Company, which is the Plan Sponsor, provides certain administrative services at no cost to the Plan.

Certain Plan investments are shares of mutual funds managed by the Capital Bank and Trust Company and Alerus Financial. The Capital Bank and Trust Company was the custodian of the Plan assets for the period January 1, 2008 to November 13, 2008. The Plan adopted Alerus Financial as the custodian on November 13, 2008. Therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for the investment management services are netted with the investment income (loss) on each investment option of the Plan for the years ended December 31, 2009 and 2008.

NOTE 7 CONCENTRATION OF CREDIT RISK

As of December 31, 2009, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicles: Delaware Pooled TR Diversified Income Fund and Goldman Sachs Balanced Strategy Fund.

NOTE 7 CONCENTRATION OF CREDIT RISK (CONTINUED)

As of December 31, 2008, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicle: Delaware Pooled TR Diversified Income Fund.

As of December 31, 2007, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicles: Capital World Growth and Income Fund, Growth Fund of America, and Investment Company of America.

NOTE 8 TAX STATUS

The Plan operates under a non-standardized adoption agreement in connection with a prototype 401(k) profit sharing plan and trust sponsored by Alerus Financial. The prototype plan agreement was filed with the appropriate agency on March 31, 2008. The Plan has not obtained or requested its own determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

NOTE 9 INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by Alerus Financial as of December 31, 2009:

Investments, at Fair Value	
Registered investment companies	$ 22,741,366
Participant loans	375,979
Net appreciation in fair value of mutual fund investments in registered investment companies	$ 4,254,291
Dividend and interest income	503,509
Participant loan interest	25,409

NOTE 10 PROHIBITED TRANSACTION

During the year ended December 31, 2008, the Plan sponsor did not remit certain participant contributions to the Plan in a timely manner, as defined by ERISA. These instances were corrected during the year ended December 31, 2009. The contributions are considered to be non-exempt party in-interest transactions, which may result in an imposition of a 15% excise tax on the amount of the transaction. The Plan sponsor compensated the participants for any lost interest resulting from the delay in contributions. Management estimated that the lost income associated with the delay in the remittance of contributions was approximately $31. These non-exempt transactions do not affect the tax status determination of the Plan and the Company intends to pay all fines imposed.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12 BENEFIT OBLIGATIONS

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but who have not been paid. Plan assets allocated to these participants were $394,874, $816,303 and $23,556 at December 31, 2009, 2008 and 2007, respectively.

NOTE 13 CHANGE IN CUSTODIAN

During the year ended December 31, 2008, the Plan elected to change custodians from the Capital Bank and Trust Company to Alerus Financial.

NOTE 14 TRANSFERS OF ASSETS

Effective January 1, 2009, the Plan adopted an amendment to remove KHC Land, LLC and Elk Land Holdings, LLC as co-sponsors. As a result, the Plan had net transfers from the Plan of $657,489 during the year ended December 31, 2009.

NOTE 15 SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 28, 2010, the date which the financial statements were available to be issued.
