INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator
of Cast Transportation Employees' 401(k) Plan and Trust:

We were engaged to audit the accompanying statements of net assets available for benefits of Cast Transportation Employees' 401(k) Plan and Trust (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets held for investment purposes and delinquent participant contributions as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Nationwide Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the plan custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the plan custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the plan custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) **Description Of The Plan**

The following description of Cast Transportation Employees' 401(k) Plan and Trust, as amended (the "Plan"), provides only general information. Participants and all others should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of South Park Motor Lines, Inc. (dba Cast Transportation), Cast Specialty Transportation, Inc., and Cast Management Services, Inc. (collectively referred to as the "Company") who have attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

At the discretion of the Company's board of directors, the Company may make a matching contribution on behalf of each participant. During 2008, the Company made a matching contribution equal to 50% of each participant's voluntary contribution up to a maximum of 3% of each participant's eligible compensation. As of February 2009, the Company discontinued the company match until further notice. Participants direct the investment of their contributions, as well as the Company's contribution, into various investment options offered by the Plan.

The Internal Revenue Service (IRS) imposes certain restrictions on the amount of annual additions to an individual participant's account, as well as an aggregate limit on contributions, and requires compliance with certain nondiscrimination tests. For the year 2009 and 2008, the annual limit on a participant's before-tax contributions was $16,500 ($22,000 for employees ages 50 and older) and $15,500 ($20,500 for employees ages 50 and older), respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum of the lesser of 50% of their vested account balance or $50,000 reduced by the excess, if any, of the highest outstanding balance of loans from the Plan during the one-year period prior to the date of the loan over the participant's current outstanding balance of loans. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the plan administrator at the date of the loan. A participant may have a maximum of two outstanding loans.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used first to pay certain plan expenses and are then used to reduce matching contributions required to be paid by the Company.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service. The non-vested balance is forfeited upon termination of service.

Vesting in profit sharing and matching contributions is as follows:

Years of service	Vested percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment Of Benefits

Upon termination of service, if an employee with a vested account balance of $5,000 or less (excluding rollover contributions) and a vested account balance (including rollover contributions) greater than $1,000 does not elect either a distribution or rollover to an account of the employee's choice, the vested account balance (including any rollover contributions) automatically will be distributed in a rollover distribution to an individual retirement account (IRA) in the employee's name with a financial institution selected by the plan administrator. Upon termination of service, the account of an employee with a vested account balance of $1,000 or less will be distributed in a lump-sum amount. Upon termination of service, an employee with a vested account balance greater than $5,000 may elect to receive a lump-sum payment equal to the account balance, roll over the vested account balance to an account of his or her choice, or maintain the vested balance in the Plan and continue to share in investment gains and losses.

Death Benefits

If an active employee dies, the participant's account balances are paid in a lump sum to the beneficiary.

(2) Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Administrative Expenses

The Plan incurs expenses related to general administration and record keeping. The Plan pays these expenses and certain accounting and auditing fees relating to the Plan. The Company performs certain administrative functions at no cost to the Plan.

Investment Valuation And Income Recognition

The fair value of the Plan's investments are reflected on the face of the financial statements and are based on quoted market prices and other information for those investments, as certified by the Plan custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation or depreciation in the fair value of investments includes both unrealized and realized gains and losses during the Plan year. Loans to participants are valued at cost which approximates fair value.

The guaranteed interest account is included in the financial statements at fair market value because they are not fully benefit-responsive.

Fair Value Measurements

The Plan follows *Fair Value Measurements,* which among other things requires enhanced disclosures about investments that are measured and reported at fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Fair value was determined based on the value of the underlying assets and securities, the majority of which have observable Level 1 pricing inputs, including publicly quoted prices and quoted prices for similar assets in active or non-active markets.

Guaranteed interest contract: Fair value determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has performed an evaluation of subsequent events through October 11, 2010, which is the date the financial statements were available to be issued, and has considered any relevant matters in the preparation of the financial statements and footnotes.

Change in Accounting Principle

During the year ended December 31, 2009, the Plan adopted *Reporting Loans to Participants by Defined Contribution Pension Plans*. This amendment is effective for fiscal years ended December 15, 2010, with early adoption permitted. The new amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The implementation of this new amendment was applied retroactively to 2008 and had no impact on the net increase in net assets available for benefits or the beginning net assets available for benefits. The change resulted in a reclassification on the Statements of Net Assets Available for Benefits between the amounts reported as total investments and total receivables.

(3) **Investments**

Custody of Plan investments and the reporting thereof is managed through an agreement with Nationwide Life Insurance Company.

The fair market value of individual investments that represent 5% or more of the Plan's total net assets as of December 31, 2009 and 2008, are identified as follows:

	2009	2008
Investment Contract At Fair Market Value:		
Pooled separate accounts	$ 1,462,957	$1,259,617
BOA - Indexed Fixed Fund (85,959 and 143,570 shares, respectively)	$ 90,635	$ 151,365

During the years ended 2009 and 2008, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	2009	2008
Pooled separate accounts	$ 237,642	$ (660,528)
Guaranteed investment contract	3,196	(4,658)
	$ 240,838	$ (665,186)

The following table presents the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Investments:				
Pooled separate accounts	$	$1,462,957	$	$1,462,957
Guaranteed interest contract			90,635	90,635
Total	$	$ 1,462,957	$ 90,635	$1,553,592

The following table presents the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Investments:				
Pooled separate accounts	$	$1,259,617	$	$1,259,617
Guaranteed interest contract			151,365	151,365
Total	$	$ 1,259,617	$ 151,365	$1,410,982

The changes in the investments for which the Plan has used Level 3 inputs to determine the fair values are as follows:

Balance as of January 1, 2008	$ 170,123
Realized and unrealized (losses), net	(4,658)
Purchases, sales, issuances and settlements, net	(14,100)
Balance as of December 31, 2008	151,365
Realized and unrealized (losses), net	(797)
Purchases, sales, issuances and settlements, net	(59,933)
Balance as of December 31, 2009	$ 90,635

(4) Forfeitures

Unallocated forfeitures as of December 31, 2009 and 2008, were $3,899 and $2,031, respectively. During 2009 and 2008, forfeitures of $410 and $4,910, respectively, were used to pay administrative expenses.

(5) **Income Tax Status**

The Company has adopted a non-standardized prototype plan. The non-standardized prototype plan has obtained a favorable letter from the Internal Revenue Service regarding the acceptability of the form of the non-standardized prototype plan under the Internal Revenue Code (IRC). The non-standardized prototype plan has been amended since receiving the acceptance letter and the plan sponsor has not obtained a determination letter for the Plan. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Effective January 1, 2009, the Plan adopted the Accounting for Uncertainty in Income Taxes accounting standard which requires the Plan to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. During the year ended December 31, 2009, the Plan evaluated its tax positions to determine the existence of uncertainties, and did not note any matters that would require recognition or which may have an affect on its tax status.

(6) **Plan Termination**

Although the Company intends to continue the Plan and to make regular contributions, the Company reserves the right to terminate the Plan at any time, and its continuance is not guaranteed. The Company also reserves the right to amend or otherwise modify the Plan, or to discontinue any further contributions or payments under the Plan, by a resolution of its Board. In the event of a termination of the Plan or discontinuance of contributions, the account of each affected participant shall become fully vested.

(7) **Financial Data Certified By The Investment Company Administered Trust Fund**

The Plan administrator has elected the method of compliance permitted by Section 2520.103-5 (c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA for the years ended December 31, 2009 and 2008. Accordingly, as permitted under such election, Nationwide Life Insurance Company has certified all financial data relative to the investment assets, transactions, and income, and the schedules of investments and reportable transactions.

(8) **Party-In-Interest Transactions**

The Plan custodian, Nationwide Life Insurance Company, is affiliated with an entity which provides mutual fund administration services. The Plan holdings include assets in one of the funds administrated by the affiliated entity. As of December 31, 2009 and 2008, the fair value of investments in the Nationwide Investments was $599,412 and $220,429, respectively.

(9) **Risks And Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(10) **Reconciliation Of Financial Statements To Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 1,680,740	$ 1,504,738
Adjustment from contract value to fair value for GIC contract	4,771	7,967
Net assets available for benefits per Form 5500	$ 1,685,511	$ 1,512,705

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	2009	2008
Net appreciation (depreciation) per financial statements	$ 240,838	$ (665,186)
Less: prior year adjustment from fair value to contract value	(7,967)	(3,309)
Add: current year adjustment from fair value to contract value	4,771	7,967
Net appreciation (depreciation) per Form 5500	$ 237,642	$ (660,528)

(11) **Prohibited or Non-Exempt Transactions**

During 2009, the Plan did not remit employee contributions in a timely manner. As of December 31, 2009, the amount of the prohibited transaction was $105,694, but the amount of lost earnings was not yet known. The Employer intends to file Form 5330 Excise Tax Return for these nonexempt prohibited transactions. In accordance with DOL regulations, Schedule H, Line 4a: Schedule of Delinquent Participation Contributions is required to be attached to the financial statements as a supplemental schedule.
